At the last meeting of the commission it was decided to accept the offer, and Manager E. V. Buchanan was authorized to complete the negoti-ations

It was said that the coal was ordered for the municipality of Toronto, but on account of opposition among the dealers it had to be passed up, and it was offered to London. A reply was sent to the company which is independent of the operators, stating that if the deal could be put through satisfactorily the coal would be accepted. Yesterday a representative of the company called on E. V. Buchanan, but the strings attached to the offer were so many that all negotiations was called off by the public utilities commission. It is understood that the company wanted nearly enough money in advance to operate the mine. Any other city or municipality that so desires may have the chance as far as London is concerned. The commission is still endeavoring to get some anthracite coal. There appears to be a plentiful supply of the bituminous variety.

That had often boasted loudly of "the day,"
Got imperative demands to leave their safety-first retreat,
And give up their guns and ships without delay.
Gone were all their dreams of conquest, gone their hopes in power of might;
Gone their Prussian motto, "Deutschland Uber All."
For the Allied world had shown them that God still defends the right,

Of the First Magnitude.
To the Editor of The Advertiser:
As the Victory Loan campaign closes in a blaze of glory I cannot refrain from writing to thank you for the splendid support you have given in The Advertiser. The front page appeal from writing to thank you for the splendid support you have given in The Advertiser. The front page appeal by George M. Reid with portrait, one day last week, was an achievement of the first magnitude, and I have not seen anything to quite equal it in any Canadian paper. The excellent result in London must be in no small degree due to your heartiest support.

We have been under a shower of compliments for the work done by the press of Ontario, and I would be exceedingly selfish were I not to pass on this sentiment to men like you.

A WORD FOR MONTREAL.

To the Editor of The Advertiser:
I notice that the city fathers of Montreal are determined to collect the tax recently imposed on bachelors, and actions to enforce the bylaw have already been instituted.

I am not specially pleading for the bachelors, though the advocates of "Personal liberty" would have a much stronger case here than in regard to the suppression of the liquor traffic. Most sensible people at any rate would regard such enactments as freak legislation, whether constitutional or not. But while thus "straining at the gnat," so to speak, are not the city fathers while thus "straining at the gnat," so to speak, are not the city fathers so to speak, are not the city fathers so to speak are not the city fathers so to speak are not the city fathers so to speak are not the city fathers coording to press reports, that flaunt its brazen immorality in the face of decent citizens every day of the year?
