## WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

### BUILDING, LIVE STOCK AND THE TREND OF PRICES

(Bank of Commerce Circular.)

During March many building permits were issued, particularly in the larger cities of the Dominion. There are indications, however, that the actual value will not reach the large total of 1922. Contractors are beginning to experience difficulty in securing mortgage loans on dwellings, and in consequence the suggestion has been made that the legal restrictions to which the operations of loan and building societies are subjected should be relaxed.

The value of the building permits issued during February was considerably higher than in the preceding month, and also than during February, 1922. In fifty-six cities the permits represented proposed expenditures of \$4,744,474, as compared with \$3,705,286 in January, and \$4,201,955 in February last year.

The Live Stock Industry.  
During the latter part of March the price of live stock, and particularly of cattle improved somewhat, although as compared with the corresponding period of last year, the change is insignificant. As the time approached for the removal of the British embargo there was a distinct betterment in the price of such cattle as the dealers thought would be most acceptable on the British market after April 1st.

More interest is being taken in sheep-raising as a result of the improvement in the demand for wool. Prices are much in advance of those prevailing in 1921, when the lowest point was reached, and are now well in advance of those prevailing in January, 1914. Last year the advance was steady, marking the absorption of the accumulated stocks of the war period, and consumption appears now to have reached a point slightly above production.

Monthly Index Number.  
Our index number of wholesale prices of exports has risen from 150.70 in mid-February to 154.24 in mid-March, chiefly as a result of increases in the prices of live stock, dairy products, wool, wood pulp, copper and silver. Our number for imports has risen during the same period from 165.11 to 172.69, the items mainly responsible for the rise being sugar, cotton, iron, steel, tin and coke. The number for exports and imports combined has risen from 157.90 to 158.44.

GENERAL  
Existing Drummond Apartment Buildings were completed in 1919, and were fully rented before completion. The new building will be according to contract will be ready for occupation by April 1, 1924.

Location on Drummond and Stanley Streets is in the heart of the best residential section of Montreal, with the advantage of convenient situation with respect to railway stations, the best stores, hotels and clubs, theatres and churches.

Montreal, probably more than any other city in Canada, has suffered extremely during the past few years from lack of housing accommodation, especially of the better class of apartment buildings. The city's rapid expansion insures stability of this demand for housing at remunerative rentals.
