Newfoundland Notice to Mariners

No. 14—1914.

Burnt Islands District of Burgeo—South West Coast

Latitude 47° 35' 40" N.
Longitude 56° 58' 00" W.

Notice is hereby given that two
Red Lights have been placed on
Great Burnt Island for the guide-
ance of fishing craft of that har-
bour.

Structures—Wood, square in plan
with sloping sides, 15 feet high
from base to centre of light.
Colour—Both towers painted with
two red and two white hori-
zontal bands, lanterns white.

Remarks—Lights will be put in
operation during month of Janu-
ary, 1915, without further
notice.

N.B.—Burnt Islands Harbour
affords good and sheltered
anchorage for vessels of moder-
ate size, but even with a small
vessel no stranger should at-
tempt to enter without a pilot,
for the channels are not easily
distinguished from seaward,
and the numerous rocks give
but little room for manoeuvring.

ing these books:

"The questions which are dealt
with in the 'Self and Sex Series'
of books are always being asked
and if the answer is not forth-
coming from pure and wise lips it
will be obtained through vicious
and empirical channels. I there-
fore greatly commend this series
of books, which are written lucidly
and purely, and will afford the
necessary information without
pandering to untidily and sensual

HOUSE OF ASSEMBLY.

(Continued from 2nd page.)

ought to have a clear issue to put be-
fore the people, and a guarantee that,
if the people gave their voice, prohibi-
tion would become law.

Mr. HIGGINS said he had confidence
in the intentions of the Government.
If the people gave their voice in favor
of prohibition, how could any Govern-
ment refuse to bring in legislation to
give effect to it?

Mr. MORRIS said he had no doubt
that the Government could refuse, as
had happened in other countries; or
the Upper House might throw out a
bill if it passed the Lower House. A
bill should be guaranteed now.

Mr. COAKES referred to a suggestion
by Government members that it would
be necessary to get a full majority of
the electors in the country in favor of
prohibition at the plebiscite. He held,
with Mr. Morris, that it should re-
quire only a vote of those who actually
went to the polls; otherwise it was
counting all who were dead, sick or
indifferent, as voters against temper-
ance. He did not believe the Premier's
promise. He had had experience of
the lack of principle of the Govern-
ment. Prohibition would be a blessing
to the country; not a man in the
House could deny it.

Mr. DEVEREAUX thought the propo-
sition would mean a heavy loss of
revenue, and also a tremendous ex-
pense in enforcing the law. We should
not be too hard on those who did not
see eye to eye in this matter.
Mr. HALYARD supported the resolu-
tions on principle. Prohibition
would be a blessing to the country.
He quoted some powerful utterances
of Bishop Wilberforce, C.H. Spurgeon,
John Bright, Moody and other emi-
nent persons, on the subject of the evils
of drink. He also quoted Customs
Statistics, showing the immense
amount of money thrown away every
year on liquor. He had no doubts of
the feeling of his District on the mat-
ter, and did not feel it necessary to
consult them. We should do what
other parts of the world are doing and
abolish drink.

(To be Continued.)

OFFICER: How did he get into
that condition?
PRIVATE: He captured a bottle of
whisky, Sir.
OFFICER: Yes, yes; but how did
he manage to do that?
PRIVATE: I think he must have
surrounded it, Sir.

Work at Wabana

(Mining Journal.)

The Nova Scotia Steel and Coal Co.
will ship little, if any, ore from its
Wabana property to the United States
this year. A larger market than usual
has been secured in Great Britain.
Middleboro in former years was the
chief receiving port; this year the ore
will be sent to several ports. The
profit on ore shipments this year may
not be so satisfactory as former years,
due to the prevailing high freight rate.

Local Labor

(Trade Review.)

The Blue Ruiners, who have been
earnestly intoning their Jeremiahs of
woe the last few months, will be sur-
prised to learn that there is likely to
be more work for laborers and
mechanics in and about St. John's
the coming summer than for many years
past. We have this on the authority
of one of the largest contractors in
St. John's—a man who knows what he
is talking about. To begin with there
is a large number of men working at
the Marconi Tower, and the New
Bank of Nova Scotia Building is giv-
ing employment to a good many. The
cut for the Commercial Cable from
Quidi Vidi to Water Street will mean
a good deal of work for laboring men,
and the new building for the same
will add eighty thousand dollars to
the city's earnings. The new Metho-
dist Church to be erected on Cochrane
Street is going to cost \$100,000—a nice
sum to be spent in the city.

He Suffered For Four Months
From Kidney Trouble but
Found Quick Relief When He
Used Dodd's Kidney Pills.

Sixty-Nine Corners, Ont., May
17 (Special).—"I know that Dodd's
Kidney Pills are the very best of
medicines." Such is the statement
made by Mr. J. A. Hill, a well
known resident of this place.
"I was sick for six months," Mr.
Hill continues. "My troubles
started from a cold that seemed to
settle in my back. My joints were
stiff and I had cramps in my
muscles. My appetite was ruined and
I was heavy and sleepy after
meals. I had a bitter taste in my
mouth, and I was always tired and
nervous."

they did me is what makes me say
they are the best of medicines."
Dodd's Kidney Pills cure sick

Women Ready to Replace Men

London.—Women are crowding to
register for employment at the labor
exchanges here and throughout Eng-
land at the rate of about 150,000 per
day. It is estimated that already one
million women have shown themselves
ready to fill positions now occupied by
men if the men will go into the army.
The Government has expressed its
approval of this movement, but no
definite action has been taken. How-
ever, women are now being employed
as clerks in the censor's office and else-
where in Government work that was
formerly performed by men.
All railway and tramway companies
throughout England have received
letters from the Government asking
them to do all they can to employ
women and release able-bodied men
for fighting.

Norwegian Sealers Poor Voyage

Says the North Sydney Herald of
May 4th:—
The Norwegian steamer Nord, which
with a sister ship, the Sampson, sailed
in February from Louisburg to join
the Newfoundland sealing fleet, arrived
yesterday. The trip was not a
success and only 2400 pelts were taken.
These were landed at Seven Islands.
The Sampson is now lying up at the
latter place, her crew of fifty having
come here on the Nord. They were
paid off at the shipping master's
office yesterday.

Coughs Up Button After 19 Years

Had Lodged In His Lung—Death
Inevitable—Patient Now Im-
proving

(St. John's Star)

Earl Trapnell, son of R. H. Trap-
nell, who had been ill for some
time, is now on the high road to
recovery. Nineteen years ago,
when a youngster, he was playing
with his brother and accidentally
swallowed a small collar button.
He did not think much of it at the
time and soon forgot all about it.
When he grew into young manhood
however, he became ill and then he
remembered that the button was
still in his interior.

He had the advice of specialists,
but none could suggest a remedy.
The X-ray was used and the little
object was found to be in the lung.
An effort was made to get it out
but to no purpose. During the
last year or two it gave him much
annoyance and caused very great
pain. It could not be taken out
and the many doctors who
examined him were of the same
opinion that it could not be re-
moved and in the course of time it
would cause death.

Not a bright prospect for a
young man, but there was no hope
no matter what he tried.

Tuesday of this week he took a
drink of water and some of it must
have "gone the wrong way" for it
made him cough.

Trapnell's delight when he
found the button in his mouth. He
was naturally elated and so were his
relatives and friends. There was
no mistaking it—it was the one
he swallowed a score of years ago.
He is already feeling much better,
and there is very little doubt that
in short he will be as well as the
strongest.

71 Montreal Hotels Will Close Bars

Montreal, May 1.—Seventy-one
hotels will close their doors at 11
o'clock to-morrow night, not to re-
open them as licensed places, this
cut being in accordance with legisla-
tion passed at Quebec some time
ago calling for the reduction in
places licensed to sell liquor until
the minimum of 400 was reached.
