REVOLUTION BREWING.

The Japs Strong Enough to Overturn President Dole.

San Francisco, May 8.-It is probable that the next sixty days will develop some very exciting scenes in Hawvii. Private information recently received by

Clarence W. Ashford in this city indieates that several kinds of trouble are gathering around the government of Sanford B. Dole and his colleagues. The Japanese, who are numerous on the islands, and who at present are fev-

mother country in the war with China, threaten to come forward and become serious factors in the government of Hawaii and the adjustment of its affairs. It is known that among the Japanese now on the islands there are several hundred trained soldiers; in fact, there are enough of them to seize control of the government at any time, should they so choose. The natives are restless and dissatisfied, and only await an opportun-

ity to fly into the thick of another in surrection. It is plain, judging from the information received by Mr. Ashford,

that the basis of operations in the next outbreak will be the island of Maui. "I have nothing to do with these op erations," said Mr. Ashford, "but as I am known to be an enemy of the Dole crowd and a sympathizer with any movement that will bring about a real republic, a government by the people and for him the first fight according to agreethe people of Hawaii, my friends naturally keep me advised of what it is doing. It is my firm belief that Mr. Dole and

his fellow officials will not be in office on the first day of next August."
