ATTENDING PHYSICIANS' REPORT.

*To the Board of Management of the Pro-
 testant House of Industry and Refuge.*

GENTLEMEN,—The health of the in-
 mates during the past year has been fairly

good. In the early part of the winter a
 large number of them suffered from
 influenza, mostly of a mild type, but in
 several instances with fatal results.

Thirty two deaths occurred during the
 year in the three houses, divided as fol-
 lows :—

Country House, 17; Moore Conva-
 lescent Home, 5; General Hospital, 4;
 Royal Victoria Hospital, 2; Notre Dame
 Hospital, 1; City Refuge, 3. Total, 32.

The total for last year was nineteen.
 The great increase is, to some extent, ac-
 counted for by the larger number of per-
 sons under the control of the manage-
 ment, as the Moore Home is included.

One half of those who died were con-
 siderably over 75 years of age. Seven of
 them were over 80, so that in a general
 way, senility might be called the cause of
 death.

The institutions are visited at all times
 when called upon to do so, and it is
 satisfactory to state that the instructions
 given by the medical attendants are
 carried out with a zeal and will that re-
 flects credit upon the staff of both the
 Country House as well as the Moore
 Home.

As predicted last year, the Moore
 Home is gradually becoming better
 known and appreciated by the general
 public, and has been the means of greatly
 benefiting numerous cases convalescing
 from protracted illness.

JOHN T. FINNIE, M.D.,

F. E. THOMPSON, M.D.

THIRTY-FOURTH ANNUAL RE- PORT OF THE INDUSTRIAL ROOMS.

In presenting this, the Thirty-Fourth
 Annual Report, to our subscribers and
 friends, we desire to express our devout
 gratitude for the past, and express the
 hope that the year just entered upon may
 be still more fruitful in good works.
 Sewing has been provided for 171 women
 during the year, and \$4,519.39 expended
 in payment of same.
