WHAT IS CATARRH ?

(From the Toronto (Canada) "Mail.")

A New Treatment

FOR THE

RAPID AND PERMANENT CURE OF

CATARRH

Solely

A. H. DIXON & SON

NO 305 KING ST. WEST. TORONTO CANADA.

Catarrh is a mucopurulent discharge caused by the presence and development of the vegetable parasite and amoeba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxine, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs which spread up the nostrils and down the fauces, or back of the throat, causing laceration of the throat; up the Eustachian tubes, causing deafness, burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well known physician of forty years standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails to absolutely and permanently eradicate this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

What the Rev. E. B. Stevenson, B.A., a Clergyman of the London Conference of the Methodist Church of Canada has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

Messrs. A. H. Dixon & Son: OAKLAND, ONTARIO, CANADA, March 17, 1883.

Dear Sirs, — Yours of the 13th inst. to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never feel better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.

I consider that mine was a very bad case. It was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you. You are at liberty to use this letter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.

Yours, with many thanks,

REV. E. B. STEVENSON.
