THE STAR ST. JOHN N. B., TUESDAY, MAY 28, 1907.

FIVE

Their Trim Elegance.

You, and every other well-dressed woman, rightly demand elegant and perfect-fitting shoes.

Two ways are open to you: pay an exorbitant price to a custom bootmaker and wait a couple of weeks for your shoes; or wear Women's Regals in quarter-sizes, pay a half or a third of the made-to-order price and get your shoes at once. That's the story in a nutshell.

You'll be surprised at the smooth fit and genuine custom appearance of Women's Regals—the truth is, you'll have to peep at the label to make sure they weren't made to order.

Largest retail shoe business in the world. Stores in principal cities from London to San Francisco.

WM. TAYLOR, BLISSFIELD FARMER, ENTICED INTO EMPTY CAR AT FAIRVILLE AND ROBBED OF \$17

William Taylor, a farmer well along in years whose home is in Blissfield, Sunbury county, says he was the victim of a daring hold up in Fairville yesterday.

Taylor met two men during the afternoon, and had a few drinks with them. His story is that they decoyed him down to a car which was standing on the siding near the station, under the pretense that it was the proper car for him to take to go home, and they said that the train would leave very soon. This was about six o'clock. After they had enticed him into the car, he says one of them grabbed him and held him, while the other man went through his pockets and robbed him of his money, \$17 in all, consisting of one \$10 bill, one \$5 bill and a \$2 bill. They then ran out of the car and down the street.

Officer Lawson, who was about a quarter of a mile away, saw the men running, but thought nothing of it, when he met John Gayley, who told him of what had occurred. He made further inquiries, which led him to arrest Fred Hutton.

Hutton, who had been drinking, was taken into the presence of the old man, who at once identified him as the man who had held him.

ROOSEVELT GOES BACK TO THE DAYS OF HIS YOUTH

Enjoyed a Horseback Ride Over Muddy Roads, and in the Face of a Severe Storm.

WASHINGTON, D. C., May 27.—A badly mud-battered President, Roosevelt, got off a car of the Washington, Alexandria and Mount Vernon Electric Railway here shortly before six o'clock this afternoon. They had been on a visit to Mount Vernon, part of the trip being by horse-back, and had been caught in a heavy shower. As the result of the storm, the roads were in fearful condition and as the riders progressed they were splashed from head to foot with mud. The other members of the party besides the President were Mrs. Roosevelt, Miss Ethel Roosevelt, Postmaster General Meyer and Captain Fitzhugh Lee, one of the President's military aides. The clothing of the entire party were drenched. The trip in many respects was a "rough riding" one.

The President has explored, on horseback, much of the country about Washington lying north of the Potomac River. He also has made occasional visits across the river. He was anxious, however, to make the longer trip to Mount Vernon and several days ago planned today's excursion. The day broke cloudy and heavy, but by ten o'clock the sun began to shine dimly through the clouds, and the prospects seemed good for fair weather. The party accordingly started at 11 o'clock.

The distance from Washington to Mount Vernon is six or seven miles. They had cantered along the road, however, but a few miles when a severe storm overtook them. They did not have time to find shelter, before they all got drenched. Finally they espied an unoccupied farmhouse along the roadside and sought shelter under the "lean to" at the rear for half an hour.

Rain was still falling lightly as the party again took up the trip to Mount Vernon which was reached about two o'clock, almost an hour behind the scheduled time. Here Colonel Dodge, the superintendent of the grounds, gave them a cordial welcome, showed them over the grounds, about 2,000

acres in all and through the mansion and the various buildings.

There were a number of visitors at Mount Vernon and the President shook hands with them. Lunch was served in the old house, used as a kitchen on state occasions in colonial times, but now occupied as a dining-room. Colonel Dodge was one of the party at lunch.

The guests were ready to return to Washington at half past three o'clock, but again a rain set in and delayed them for fifteen minutes. Then the sun shone again and the party set off for Washington.

At Alexandria a number of people were assembled to whom the President bowed his acknowledgments. There the presidential party boarded the special car for the remaining seven miles.

President Roosevelt was the first to alight from the car when it reached Washington. He and Mrs. Roosevelt and Miss Ethel at once went to the White House where the President resumed his work at the executive offices. He showed every evidence of having thoroughly enjoyed his outing.

ACTRESS AND MANAGER THROWN FROM AUTOMOBILE

PARIS, May 28.—Mary Garden, of the Opera Comique, who is to create leading parts in Operas, in the Manhattan Opera House, New York, yesterday invited Ascar Hammerstein, director of the Manhattan for an outing in her automobile in company with her sister.

While passing through Versailles the automobile was thrown violently against the curb as the result of the breaking of one of the wheels at the axle, and Miss Garden and Mr. Hammerstein fell. Miss Garden, who required the attention of a physician, but which are not expected to be of a serious character.

A PRACTICAL LITTLE APRON.

A neat little apron which may be developed in gingham or one of the white materials is shown. The yoke is of the becoming pointed shape and is finished at the neck with a flat collar, which should be edged with narrow lace or embroidery. The sleeves are generous enough to go on over any dress sleeve and are finished at the wrist with a narrow wristband. The pattern provides for the short puff sleeve also, which is more dainty for the white apron which goes to school. The apron covers the small wearer completely and will prove a sufficient protection for any frock. The medium calls for 2 1/2 yards of 36-material. 2383 sizes, 2 to 10 years. The price of the pattern is 10c.

THE GENERAL ASSEMBLY OF THE PRESBYTERIAN CHURCH

(Montreal Star)

Next month the city will be invaded by Presbyterian divines and laymen, who will gather to take part in the deliberations of the General Assembly of the Presbyterian Church which opens on June 5. The meetings will take place in Erskine Church, of which Rev. Dr. Mowatt is pastor.

The fact that Rev. Dr. Scrimger, principal of the Montreal Presbyterian College, is among the Presbyterian nominees for the high office, naturally connects his name with the moderatorship of the coming year. There will be several other divines, and from different parts of the Dominion in nomination, however, and the selection is generally a matter of uncertainty until the Assembly meets. In fact the gatherings might go outside the nominees entirely and select what would be sporting panache, he called "a dark horse."

Erskine Church, where the meetings will take place, is a large and commodious edifice, and might be classed as one of the most modern Presbyterian churches in the city, located well out to the west end of Sherbrooke street, in the fashionable residential section.

Rev. Dr. Mowatt, the pastor of Erskine Church, a New Brunswick by birth, has risen to apostleship of notable prominence in the councils of the church. On the death of the late Rev. Dr. MacVicar he was selected to take the post of chairman of the French Evangelization Board, a work which was very dear to the heart of the deceased divine, and in taking up that work Dr. Mowatt has proved himself not lacking in enthusiasm for that feature of the Church's endeavor.

Dr. Mowatt is in his sixteenth year as pastor of Erskine Church, having come here from Fredericton in 1891. He was educated for the ministry in Nova Scotia, and was ordained in 1886, and afterwards filled several pastorates in the lower provinces. Mrs. Mowatt is a sister of Rev. Dr. Annand, the famous missionary. It is not a matter of surprise that the missionary spirit should seize one of Dr. Mowatt's two sons, who are in the Presbyterian ministry.

Rev. Principal Scrimger, who, as has been stated is in line for the moderatorship, succeeded the late Dr. MacVicar at the Presbyterian College, where he has been a lecturer and professor in turn since 1874. He was born in Galt, Ont., in 1848, and was educated there and at Toronto University, of which he is a graduate. He studied theology at Knox College, Toronto, graduating and being ordained in 1872, his first charge being St. Joseph Street Church in this city.

Rev. Robert Campbell, D. D., of this city, joint clerk of the Assembly, is well known to Montrealers as pastor of St. Gabriel Church, St. Catherine street. He is an Ontario man, a graduate of Queen's, and being ordained in 1881, first preached at Galt, Ont. He came to Montreal 41 years ago, and was the last pastor of St. Gabriel's, the oldest Presbyterian congregation in Montreal, and the first pastor of the new St. Gabriel's, on St. Catherine street. He is an enthusiastic naturalist, and a past president of the Natural History Society.

Rev. Dr. Falconer, the retiring Moderator, like Dr. Mowatt has two sons who are qualified for the ministry, but one of them, Dr. Falconer of the Halifax Theological College, has devoted his time to educational work. He is the nominee for the presidency of Toronto University. Another son is pastor of Port Massey Church, Halifax.

PRISONER WAS SHOT
ATTEMPTING TO ESCAPE

CHICAGO, May 28.—Private Herman Leroy, a prisoner at Port Sheridan, in attempting to escape yesterday, was shot and killed by one man of a squad of colored soldiers who had orders to take him dead or alive. Leroy while at work under guard, extracted one leg from its shackles and ran away. Five men drove the fugitive into a barn and ordered him to surrender. He replied by throwing stones. A shot was then fired by one of the soldiers and Leroy fell dead.

ALBERTA CAPTOL NOT YET STARTED

But the Building Will be a Very Fine One

—Edmonton Planning for Great Improvements.

EDMONTON, Alberta, May 27.—It does not look as if the building of Alberta's new capitol will be begun this year. Delays, the reasons for which are not fully apparent, have arisen. The government has made arrangements for the erection of a temporary frame structure on the selected site to serve as departmental offices and assembly hall until the permanent building is ready.

Not since the building of the national capitol at Ottawa has so much interest been attached to the building of any government block in Canada. The site was definitely chosen last October. It had rested between a location in the extreme west end of the city and the old Hudson's Bay fort, and because it was more central and more historic, rather than because the ground itself was particularly suitable, the later was decided upon. It is, moreover, a very pleasing situation, commanding a wide view of the valley of the Saskatchewan and in central sight of both the city and the neighboring town of Strathcona. As a capitol site it is very nearly ideal.

The building will be one of the four finest parliament buildings in Canada. In design it will closely follow the British Columbia capitol, with some of the architectural features of the Minnesota state capitol at St. Paul. The minister of public works made a tour of inspection to the Minnesota, Wisconsin, and British Columbia capitols last winter and the result of his investigations is expected to be embodied in certain changes in the plan of the new Alberta building as originally designed. The design will follow the general lines of the British Columbia model. It will be a costly structure, too, and will probably considerably over a million dollars.

Alberta's new parliament buildings will be the lineal descendants of a group of log buildings erected in 1796, when the Hudson's Bay Company established themselves at Edmonton. "Beaver House Fort," as the buildings have always called it, was first built on the flats of the river bank, but was soon after flooded and the site was moved to the present hill-site. Here for a hundred years was the life-center of the North. The old palisade, which the fort enclosed about ten acres of land; the entire plot now secured for government use is twenty-two acres.

Edmonton will to some extent follow the example of the federal capital in an effort to beautify the city. The government took the initiative by employing an expert to examine and report upon the landscape features of the city and buildings, and to make an elaborate improvement plan was the result, which will very likely be carried out. The plan is to beautify the city by the improvement of the river bank, and to put into effect a plan of general beautification throughout the city, in keeping with the plan of the government contemplates in its own particular field. The outcome of these considerations will be a very attractive capital in the middle North.

IMPROVEMENTS MADE AT CLIFTON HOUSE

Entire Building Has Been Decorated—

The Office and Reading Room

Now Very Pretty.

As the result of eight weeks' work on the part of painters, decorators and upholsterers, the Clifton House is now one of the finest fitted up hotels in the city and an increase in the already large patronage which this house enjoys, is assured. The improvements have been made on a large scale and from the top of the house to the bottom the halls, rooms and stairways have been repapered and painted. The most marked improvements have been made in the office and reading room. Large plate glass windows have been put in and a new door, in the centre of which is a glass pane bearing the name of the house in frosted letters, adds greatly to the appearance. The offices received a share of the decorators' art. The walls have been done in pea green burlap, with a light drab border. Along the bottom of the walls, about three inches above the baseboard, maple leaf designs have been painted. The basing in the office has been done in oak graining corresponding in shade with the doors, desks and chairs. The basing in the reading room was painted in dark brown. In this reading room a much commented upon chandelier has been installed. It is suspended from the ceiling by a chain. The five incandescent lamps installed beneath a large glass reflector send forth a very powerful light. This chandelier is the only one of its kind in the city. The main stairway walls have been painted in crimson with a green border. The guests' sleeping apartments have been renovated. The woodwork in the halls has been painted white and new paper has been put up. The cupola has been painted in red, green, and white and guests are able to secure an excellent view of the city and harbor from the cosy room. Two valuable ornaments have been placed in the office. They are a large moose head and a deer head. The antlers on the moose measure 63 inches. The front of the house is to be painted in green with gold tint in a day or two. The inside improvements are now completed and W. Allan Black, the proprietor, is now in a better position to cater for the first class trade.

FRENCH WINE DISTRICTS

MUST RECEIVE ATTENTION

PARIS, May 28.—The report of the commission the members of which personally investigated the situation in the wine districts of France and Algeria, was turned in yesterday. It shows the situation everywhere to be most grave and declares that unless remedial steps are taken most promptly, a condition similar to that which prevailed in the south will arise in the other wine producing districts. The commission recommends the prohibition of sugaring and watering wines and says the prevention of the use of chemicals is absolutely essential. It adds a recommendation to the effect that distilling should be encouraged.

GOTTON DEALERS ARE

HOLDING A CONFERENCE

VIENNA, May 28.—The International Cotton Conference was opened here yesterday. There are over 250 delegates in attendance and the sessions will last for three days. Mr. MacAra for Great Britain and Harvey Jones for the United States delivered addresses in which they reviewed the efforts of their respective governments to put a stop to illegitimate speculation in cotton. The delegates were received by Emperor Francis Joseph at the Hofburg and were welcomed to Vienna by him.

YOKOHAMA, May 28.—R. M. S. S. Empress of China arrived at Yokohama at 6.30 a. m. Sunday, May 26th, from Vancouver.
