A commercial traveller who has been in Amherst recently, says there is much indignation being expressed by the citizens there about the arbitrary stand taken by the proprietors of the Amherst and Terrace hotels, in closing their doors to the travelling public. As a result of this action many private houses have been thrown open to the travellers who come to the town. He thinks the outcome of the situation will be that a new hotel will be erected as soon as the weather will permit of the work being started.

MONCTON, March 16 .- Should the fort will be made next week to open the Moncton and Buctouche railway, which has been blocked since the last big storms. One of the locomotives is at Buctouche, the other was stalled at Irishtown. Some days will be required to open the line, as there has been no thaw of any consequence and the snow is very deep all along the line.

The Moncton school trustees have indicated their intention to make a general increase in the salaries of female teachers at the end of the present school term. The teachers asked that the increase date back to the beginning of 1905, but the trustees could not see their way clear to do this Bertie E. Jamieson of Havelock and R. B. INDIGESTION IS RESPONSIBLE FOR MORE SICKNESS IN AM-ERICA THAN ANY OTHER

Some doctors go so far as to say that indigestion is the national disease of America. Repeated attacks inflame the lining of the stomach and cause the glands to secrete mucus instead or the juices of natural digestion. Consequently the blood is poisoned, nerve force is reduced, the vitality of the en

tire system is weakened. There is but one national remedy for indigestion and that remedy is Dr Hamilton's Pills, which are used by thousands with marvellous sucess. Dr. Hamilton's Pills accelerate the action of the gastric glands and give tone to the digestive organs. They strengthen the kidneys and liver cleanse and purify the blood, and thus add general tone to every organ of the body. DEAD IN CAB.

Body of Woman Found With Drunken

NEW YORK, Mar. 15 .- The body of a woman who had been dead several hours and a man unconscious and apparently dying, were found in a cab which was driven up to a Brooklyn police station on a gallop early today. The man who was suffering from alcoholism and possibly from the effects of a drug, may recover. Both he and the driver of the cab have been detained by the police pending an investigation of the affair.

Although the condition of the man was so serious that he could give the police little information which would aid them in their investigation, he said that his name was Thomas Deegan, and that he lived in Comroe street, one of the better class residential sections of Brooklyn. The dead woman, he said, was Miss Mary Savage, twenty years old. Both Deegan and Mis Savage were well dressed.

The cab, driven by a man who said his name was David Good, dashed up to the police station early today and when the policemen came out, they found the man and woman lying in the coach. It was seen at a glance that the woman was dead, but the ed and he finally was restored to conwhen told that his companion was

SALMON \$6.

Big Price Being Paid For These Fish.

Lobsters Are Very Scarce, as Nearly All That Are Caught Are Going

to the States.

An up-river man brought down salmon yesterday. It weighed six pounds and the fisherman found a purchaser prepared to pay one dollar pe pound. Six dollars is a pretty good sum for a six-pound salmon, but it is the regular market price for the season. A number have been caught during the last few weeks through the ice on the tributaries of the St. John. There is some disputation as to whether they are now making their way to the spawning place, or whether they spent the winter in this climate. But the men who spread the nets for these winter salmon do not speculate on these questions. They know that New York offers \$1.25 per pound for all the fresh salmon that can be got, and that gives a net price of more than a dollar per pound in St. John. One man sent forward sixty pounds the

pound fish which came to his net. Several have been gathering in ten to fifty dollars each during the winter.
