

**SCHOOL.**—We have the honor to announce that the following remarks respecting the Grammar School, which on Thursday, Nov. 7th, was thorough and searching, a wide field, embracing all taught in a first-class Grammar School, Latin, French, the common Mathematics, and in all of which the pupils were diligent of the master, Mr. [Name], maintained throughout the course of the general discipline, and was very evident that the school was well conducted, as well as to the discipline, the course of instruction, the course of study, and the progress of the pupils, and those who have known the school for many years, will acknowledge that it is an institution of the highest order, and one that will do credit to the County, as well as to the State, and we trust that the school will continue to improve, and we are confident that it will be a source of pride to the community.

**RAILWAY SURVEYS.** Under this head the *Miramichi Gleaner* of the 16th quotes from the St. John Globe an abridgement of the notice which we gave a few weeks since of the survey going on from Richmond towards the Canada frontier; and goes on to ask by whose order and at whose expense this survey is made. We can afford our contemporary some information upon the subject. The survey is being conducted by the officers, and we have no doubt, by the authority and under the direction of the New Brunswick and Canada Railway Company. It may have some connection with the International Railway Scheme now being again brought under the notice of Imperial Government; and this seems the more probable because Mr. Osburn, Manager of the Railway, was present at the conference at Quebec; and has the past week, himself passed through Woodstock on his way to take part personally in the exploration. And besides this it is pretty well understood that this Company looks forward to an early continuance of the St. Andrews Road to the Canadian frontier.

**BULL'S CREEK BRIDGE.**—We speak the opinions of all who travel the road below Woodstock when we say that it is high time that the authorities of the Board of Works should direct their attention to the Bridge over Bull's Creek, some five miles below this village. It is unsafe for travelling, and some of these days, if steps are not taken, we may hear of some accident involving loss of limb or property upon it.

The Rev. H. J. M'Lady will have service in the Church at the Upper Corner (D. V.) next Sabbath, 24th inst., at 11 o'clock.

**ARRIVAL OF THE "NORWEGIAN."**  
Portland, (Me.) Nov. 19th.  
*Norwegian* arrived at 9 o'clock this evening. Government ordered large shipments of ball cartridges to Canada. Shipment of Armstrong guns countermanded. Austria adopting more coercive measures in Hungary. Belgium has recognised Italy, by appointing Ministers. The three powers are to send an equal number of ships on the expedition to Mexico. The United States are invited to send what they please. They engage to leave Mexico free choice of its own Government. The speed of the *Warrior* had reached seven knots an hour. There has been several heavy failures in Paris. Finances in Italy in a bad condition. Infanta of Portugal is dead. Arrests continue in Poland. Violence of the gold fever is increasing. Cotton and Flour steady. Corn dull—declined. Wheat very firm. Consols 93 3/4 for money.

**BY TELEGRAPH.**  
New York, Nov. 18.  
Mason and Slidell were taken from Royal Mail Steamer *Trent* on her way from Havana to Southampton. The San Jacinto fired a shot across her bows and brought her to, Lieut. Fairfax with 31 armed men went on board and effected arrest. The Captain of the *Trent* raved and swore; called officers piratical yankees, &c. Eustis and Macfarland, secretaries to the ambassadors, were also arrested. Mrs. Slidell and children were permitted to go on to Europe. The official despatches, which are voluminous and include protest of Mason and Slidell against being taken from a British ship, are withheld for the present. The arrest causes rejoicing quite equal to the capture of Beaufort. 15,000 troops left Annapolis on Saturday for Beaufort. A second large naval expedition is forming; destination probably New Orleans. St. Louis despatches state armies of Price and McCullough have retreated into Arkansas. The City of Manchester from Liverpool was intercepted off Cape Race on Saturday evening. Convention of France, England, and Spain for intervention of Mexico was signed at London on the 31st October. Active preparations are making, letter says, for the despatch of three-deckers to Mexico; surmise of ulterior demonstrations. The *Times* editorially condemns Seward's despatch to Lyons. Maintains the right of Foreign Government to call attention to constitutional provisions. It also ridicules Seward's manifesto to Governors of States relative to fortifications, &c. In another article *Times* exposes Lyon's bad grammar. Says English side was argued exceedingly ill and the American side with much ability, but only results to entirely convince it, that on their own showing, the acts of the American Government, has been illegal as regards American citizens, and the violation of the rights of nations as regards foreigners. *Herald* says Lyons has exposed England to rebuff, without the right to resent it, and compelle

defiance to England; then attacks Earl Russell for impertinence in lecturing on American Constitution, and quietly enduring robbery and outrage, and says he will find he has drifted into war. Post says Seward has wantonly added another to the many differences which he wishes to perpetuate between the two countries. Daily News thinks the course pursued by Government premature, indiscreet and inconsistent. Reported that American Bankers are holding out liberal commission to English financiers, to place a portion of the Federal loan in London. Financial market writers in London journals point out the danger of touching it, and think chances of success very remote. Count Lambert, Governor of Poland, replaced by General Laders on account of ill health. Treaty concluded between Prussia and China. Consols 93 @ 83 1/4.

New York, Nov. 18.  
Washington despatches state that there is reason to believe that the Government adheres to its determination to make Beaufort an open port.

Washington Nov. 16.  
Intelligence of the arrest of Slidell and Mason has diffused the greatest possible joy among the citizens and government officials from the President down.

New York, Nov. 19.  
Despatches to Tribune from Washington say that it is not improbable that the steamer *Trent* may have been overhauled by two American war vessels before former reached her destination. A despatch to the *Times* says that there is increasing confidence in the entire correctness of Commodore Wilkie's act. I am informed that Secretary Chase expressed regret that he did not seize the *Trent*. Board of Aldermen of New York tendered hospitality of the city to Com. Wilkie, inviting him to receive the congratulations of the citizens in the Governor's Room. A national salute was fired in New York on Wednesday, in honor of the capture of Port Royal.

**MARRIED.**  
On the 4th inst. at Grand Falls, by the Rev. Hugh McGuirk, Mr. William Lawler, of St. John, to Catharine, third daughter of the late John Costigan, Esq.

**DIED.**  
At Wakefield, on the 31st Oct. Mary Augusta Keys, aged 14 years and 5 months. Much beloved by her neighbors and youthful companions.

**THE SILVER THREADS**  
which Time introduces into the hair, prevent thousand of gentlemen from wearing whiskers and moustaches; and yet in ten minutes Cristadoro's Excelsior Dye would render every fibre as Dark as Night, and subtract twenty years from the apparent age of the individual. The triumphant result of Dr. Chilton's analysis proves this dye to be as wholesome for the hair as it is wonderful for its beautifying propensities. Ladies whose beauty so materially depends upon the color of their "wealth of hair" will find this an article they can safely use. Sold everywhere, and applied by all Hair Dressers. Cristadoro, 6 Astor House, New York.

**EFFECTS OF IRREGULARITIES AVOIDED.**  
Too much eating and drinking, new habits and modes of life often produce irregularities in the bowels and general health of the system. But Brandreth's Pills will soon cure, the stomach will regain its strength, and a healthy action will be restored. No medicines are equal in usefulness to the Brandreth's Pills, Brandreth's Universal Salve and Alcock's Porous Plasters. Every man of the Fire Zouaves had a box of Brandreth's Pills, a box of Universal Salve and an Alcock's Porous Plaster put in their knapsack free of expense. And to this fact may be attributed the absence of any of this regiment from the hospital. Every soldier should have a box of Brandreth's Pills, a box of Salve, and a piece of Porous Plaster. They are sure to be useful, often life saving.

**PROPOSAL FOR A STEAM FERRY AT WOODSTOCK.**  
The Subscriber proposes to put on a steam Ferry Boat at the Ferry over the Saint John River at Woodstock, on the following conditions:  
He will have the Boat ready to run by the first day of June, 1862, and will keep it running throughout the season, as the ferry boats are used to at present. The rates of ferrage to be those at present fixed by By-Law of the County Council. The Council to give him the sole right to the Ferry, for say ten years, or until a Bridge is put across the St. John at Woodstock.  
He intends to make this proposal to the Municipal Council at its next meeting; and publishes it now that it may be before the public, and its merits may be discussed.  
JOHN McDUGALL.  
Woodstock, Nov. 13, 1861.
