SHARP'S COMPOUND

Concentrated Alkaline
Infusion of Sarsaparilla.

SARSAPARILLA Has of late years been much used, and with great success in cases of Chronic Rheumatism, as an alterative in Scrobulous affections, Scurvy, Obstinate Cutaneous Eurruptions, Indolent Ulcers, diseases of the Periostrum and bone, attended with obscure pains, wasting of the flesh, tenderness of the parts, tumours and nodes unconnected with Syphilis, and in that state of the habit known among medical men under the term *Cachexia*, but which it is not easy to define; in such cases Sarsaparilla proves a most valuable remedy, and often effects a cure when all other remedies have long been administered in vain, and when the diseased state of the system has been of many years duration.
It is also considered by the most eminent surgeons of the present day, to be the best medicine for re establishing the constitution after it has undergone the effects of mercury.
The infusion contains all the properties of the Sarsaparilla, in a highly concentrated state, together with the addition of an alkali, which is strongly recommended by the late Abernethy, also by professor Brande, who in a late edition of his valuable work on Pharmacy, says, "the addition of an alkali in the preparation of Sarsaparilla, seems greatly to facilitate the extraction of the soluble matter, and may be used with great advantage."
Amongst the advocates for this medicine, may be mentioned the names of sir B. C. Brodie, Bart., sir James Clarke, the late sir A. Cooper, Bart., Drs. J. A. Paris, M. Ryan, Grahame, Marshall Hall, M.D. F. R. S. &c. &c. Prepared and sold in bottles, in 3s. 9d. each by J. G. SHARP,

M. O'DONELLY, BOOT AND SHOE MAKER,

WOULD beg to acquaint his friends and the Public generally, that he has commenced manufacturing Boots and Shoes, on the corner of Prince Wm. and Princess streets, adjoining the Grocery Establishment of Mr. J. O'Donelly, and having for many years previous to 1836 conducted the operative part of his Brother's business in the same line, (then established where the Commercial Bank now stands,) which with strictly adhering to the *cash system*, and a punctual attention to all orders intrusted to him, he hopes will receive for himself a share of public patronage.

J. B. White & Sons,

MILLBANK STREET, WESTMINSTER,
Patentees of
Keene's Marble Cement.

THIS CEMENT, which exceeds in hardness any yet offered to the Public, is intended for the Interiors of Buildings, and is of two *kinds*: *fine*, and *coarse*.
The *fine* quality is delicately white, and is susceptible when properly worked, of as high a polish, as Statuary Marble. Incoporated with colours to form Scagliola, the imitation of variegated marble is effected with greater certainty, and less cost, than in any other material: and from the facility with which one colour is inlaid with another, very beautiful mosaic work for Tables, and architectural decoration, can be produced at small expence.
The *coarse*, or second quality, is available for Stucco, in situation where peculiar strength and durability are desired. Its adoption in place of wood, for skirtings, architrave and panel mouldings, with other internal fittings, is attended with a very considerable saving in expence; renders buildings so stuccoed, to a great extent fire proof, and unassailable by vermin or dry rot; added to which Rooms finished with this Cement, may be painted or papered at once, and thus fitted for immediate use.
KEENE'S Cement forms a beautiful in-door paving. For the floors of entrance halls, offices, churches, &c., it will be found to combine the durability and the appearance of Portland Stone at half the price.

To Retailers.

CONFECTIONARY of the best quality, and of every description, may be had at the *Hibernian Hotel*, in lots of five pounds weight and upwards at 1s. 9d. per pound. As every kind is made from the pure loaf sugar, the Public will find them far superior to those imported; as some unwholesome stuffs are often used in colouring, the most simple Herbs have been procured and used in those manufactured by him, for that purpose, and every care taken in the manufacturing to insure satisfaction.
Please call and see.

A Scottish nobleman, who entertained her Majesty at his castle, was requested to admit the newspaper reporters. "Oh! admit them, admit them!" said he; "if we don't let them in at the door, they'll come down the chimney!"

An aristocratic Irishman, speaking of his native country, said it was an execrable place; in fact, the only thing worth owning in it was the whiskey.—"You mean to say, then," said a waggish friend, "that with all her faults you love her still."

Lovers conceal faults from each other, and deceive themselves—friends confess their faults to one another, and pardon them mutually.

An Extraordinary Valentine.—Perhaps one of the best jokes that has lately taken place occurred last Valentine's day, when a gentleman bachelor, of this town, received through the Post-office, from one of the most fashionable watering places, a beautiful stuffed cat, with several mottos attached round its neck with ribaud; one in the shape of a heart, on which was written, "A gift from the old maids of ——." Another, "A fireside companion." "A good housekeeper during an afternoon's ride." "An old bachelor's friend." "Smile if you like—laugh if you can." "When the cat is in the way, the mice at your house dare not play.—*Manchester Ade*
