ONCE A DENTIST IN WATER ST. NOW NEW YORK MILLIONAIRE

Dr. G. S. Parker, Now in the City On His Annual Vacation, is One of New Brunswick's Successful Sons—"Painless Parker" and the Methods of Advertising Which Brought Him Wealth.

Leaving St. John where he had been a struggling dentist, with a small office in Water street, and in seventeen years attaining a position at the head of a dentistry business which extends from New York to San Francisco, owning twelve offices and employing hundreds of assistants, is the record made by G. S. Parker, D. D. S., who was in the city yesterday after spending some weeks at his summer home at Tynemouth Creek, York County.

Dr. Parker modestly declined to talk to a Standard representative last evening concerning the amazing of his wealth. He said New York was no place for the man who had not learned to hustle. Conditions in the metropolis were much more encouraging than they were two years ago. All lines of trade, and even the professional men had been affected by the financial panic, but now a feeling of confidence prevailed and good times were returning.

Dr. G. S. Parker was born in York County and started his practice as a struggling young man in Water street. He made many friends here at that time who are always glad to welcome him back on his annual excursion.

After removing to New York he applied himself very diligently to the practice of his profession, and soon was living in comfort and affluence. His wife was Miss Moran, daughter of Mr. James H. Moran, of St. Martin's. His sons followed their father's profession, and the "Painless Parker Company" was organized with strikingly successful results.

Spectacular advertising caught the notice of the people, and the returns have been so fruitful that the members of the company are now reputed to be millionaires. Large theatres are engaged, and experts give free exhibitions of the contraction of teeth by the painless method. Free shows are made a feature and brass bands are hired to attract the people, and in places where there are no theatres, circus tents are erected and the people amused and interested.

Today Dr. Parker's son, Dr. H. C. Parker, and the latter's wife will join him here and the trio will return to Tynemouth Creek to enjoy the country air. Mrs. J. S. Parker is visiting another son, Dr. E. R. Parker, at Los Angeles, where the famous "Painless Parker Dentistry Company" does an immense business.

REVENUE AT SUMMER RATES IS A RECORD.

Harbor Receipts For Last Six Months 25 Per Cent. Better Than Last Year.

The city's receipts from top and side wharfage, anchorage and harbor fees for the first six months of this year show an increase of nearly twenty-five per cent over the corresponding period in 1908, and constitute a record in the history of the port at summer service rates. This income is derived from the rates on local goods and the charges at the East Side wharves, and is in addition to the revenue derived from the winter port.

A comparison of the two years, month by month, is as follows:—

	1908	1909.
January	\$ 1,522.03	\$ 3,518.45
February	2,386.76	2,494.86
March	3,692.45	3,994.54
April	3,832.85	3,794.75
May	2,195.16	2,818.24
June	2,366.55	4,021.13
	\$15,696.10	\$20,551.97

The receipts for June were the largest ever received for summer rates in any one month and nearly doubled the collections in the corresponding period last year.

There were an unusually large number of tramp steamers in port, and a great deal of general cargo was handled. The coal shipments were also heavy. The figures for July are well up to the average.

LAMENT FOR THE GARDEN.

To the Editor of The Standard.

Sir:—At sixteen one desires change, and alterations in surroundings do not worry; but at eighty-five, one feels more keenly the removal of things that have made the environment pleasant. I have lived for some years now in the vicinity of the Public Garden, and it has been a source of great enjoyment to me to spend some part of every fine afternoon that I was able to get so far, to walk there and go about the walks and through the hot house, where the gardener, Mr. Stevens, was always kindly in showing his latest growths in flowers. The grounds about were always in attractive shape, the coming and going of each season's quota of flowers interested me very much.

Through illhealth I have not visited so often this year, but getting out there lately I have noticed with regret that there was a sad falling off of the attention exhibited in previous season. Flowers were not cared for, insufficiently watered, walks weedy and littered up, and no progress being made. The gardener said he was not allowed help as previously and could not overtake his work, that want of funds prevented any improvement. I was much distressed by the altered look of the beautiful resort, and sincerely hope some way may be found to provide means to restore the garden to its former loveliness. I am, sir,

Yours truly,
A LOVER OF FLOWERS.
