ADVANTAGE MAN HERE FOR BRITISH PARTY

A. P. Knightbridge, of London Financial News, Arranging for Visit of British Manufacturers and Capitalists.

The party of English manufacturers who are to make a tour of Canada, will arrive here on Thursday morning, June 13, and remain in the city for twelve hours, going from here to Fredericton.

A. P. Knightbridge, representing the London Financial News, of which Leopold Palmer, who visited St. John last year is one of the editors, arrived in the city on Saturday. Mr. Knightbridge is making the trip in advance of the party completing arrangements for the visit to the different cities.

Referring to the trip, Mr. Knightbridge said that included in the party will be representatives of the largest concerns in the British Isles. The members of the party are all financially interested in the concerns which they represent, holding the offices of president, or managing director. Only those who have a controlling interest in the companies are making the trip. In addition to the manufacturers there will be a number of private capitalists, who are coming to study the conditions in Canada with a view to possible investment. In view of the many favorable reports which they have received of opportunities of investment, they are desirous of personally studying conditions to ascertain the best possible field for investment. From those who have spent some time in the Dominion, the capitalists have learned that Canada offers an excellent field and as a result of their visit here, they have every probability of a considerable increase in British capital being invested here.

While the party intend to give all the cities of the Dominion, their attention, Mr. Knightbridge stated that the eastern provinces cannot fail to prove attractive. The party is under the direction of Mr. Palmer, and inasmuch as he has during his visit here last year made a careful investigation into the resources of New Brunswick, and found them greatly to his liking, the claims of this province as well as of Nova Scotia will have a strong advocate. Having a knowledge of the province offers, Mr. Palmer will be able to point out the opportunities it provides for particular members of the party. Moreover, he is an enthusiast as regards the east.

The party includes representatives of almost every kind of industry. Among the more prominent manufacturers who are making the trip are Mr. Vickers, Vickers and Sons, one of the largest iron and steel industries in the British Isles. The General Electric Company, the largest concern of the kind in the world, are represented by Mr. MacLachlan. Other industries represented are the older manufacturing process, by Mr. Caley; flour milling, by Joseph Rank piano manufacturing, by John Irvine; and of John Brinsford & Son. Among other industries represented are the King's Norton Metal Company and Harrold & Watts, makers of billiard tables.

After leaving St. John, the manufacturers will go to Fredericton. While in the province they will be shown the attractions by the boards of trade. The trip will embrace all of Canada to the Pacific coast and will end at Quebec about the middle of July.

Marine and Fisheries Men Here

Alex. Finlayson and S. Walker, of the marine and fisheries department, Ottawa, were in the city yesterday and will leave this morning for Hampton. Mr. Finlayson is superintending the culture of shad which is being conducted by the new floating hatchery which has been recently constructed by the marine and fisheries department. Mr. Finlayson expressed confidence in the success of the floating hatchery. As it is early in the season yet, the fish are not ripe, but in another week it is expected the supply of eggs will begin.

MARGARET ANGLIN

Saturday's Announcement Created Very Great Interest Throughout the City—There will be no Guarantee List.

It is a question if any previous amusement announcement ever created the local—and probably provincial—interest which accompanied the intimation in Saturday's papers that Margaret Anglin had been at last secured for St. John. July 1st, 2nd and 3rd. Mr. Spencer announces that before night, he had fifty volunteer offers of support, but to all replied that there would be no guarantee list and that notwithstanding the very great expense of the undertaking, and the necessarily high priced tickets, he is convinced that so great is the desire from all parts of the province to hear Margaret Anglin, that it will be just a matter of accommodating those who are anxious to buy tickets, without any solicitation. Mr. Spencer states that the expenses are such that capacity business is absolutely necessary to come out on the right side at the prices charged. Tomorrow's papers will contain an interesting announcement in connection with the Anglin engagement.

Bargains in Wash Skirts.

When a business increases itself to the extent that F. A. Dykeman & Co's business has increased during the last few spring months (their record for May being one-third greater than the sales of May a year ago) it is pretty good evidence that their business is carried on along right lines. Goods well bought are half sold, and as all goods going into this store are bought on a spot cash basis the patrons can expect the best values that can be had. They advertise for this week's selling three hundred Cotton Wash Skirts, a special purchase from a manufacturer, which enables them to sell these \$2.00 skirts at \$1.19. They are cut in the latest styles and come in white, tan, blue and white, and black and white shepherd's plaid.

HOLIDAY TODAY WILL BE WELL OBSERVED

General Suspension of Business and Good Attractions Offered - Ball Games, Boat Races and River Excursions.

In token of the respect which the citizens of this city have for His Majesty King George V. today, his birthday, will be generally observed as a public holiday. The amusements provided are many, and run from an extra good program at the theatres to a moving picture theatre to a class article of ball in the Maine and New Brunswick leagues.

In addition to this many followers of Isaac Walton took advantage of the Saturday half holiday and will spend their week-end whipping the different streams in which the large sized members of the finny tribe lurk. When they return the public at large will doubtless be regaled with the old story of the five pounder that broke the line and escaped. An attraction for those who follow motor boating will be the race under the auspices of the St. John Power Boat Club to Brown's Flats and return. This race is for the commadore's cup and will start at 9.30.

The members of the R. K. Y. C. have also taken advantage of the holiday as several of the yachts went up the river on Saturday afternoon, while others of the members will enjoy an afternoon's sail today. Another river attraction is the excursion to Hampton by the steamer Hampton. The fans will also have an excellent chance to enjoy themselves today as the rejuvenated Marathons will play two games with Houlton. Much enthusiasm is being taken in those games, as all the fans feel sure that the Marathons have played through their bad luck streak. The morning game will start at 10.30 and the afternoon game at 3 o'clock.
