

## LORD AND MUNICIPALITY HAVE TAKEN THEM AWAY

Latter Must Share in Blame for Many Deaths, Declares Toronto M. O. H. in Address on Epidemics.

(By Leased Wire to Journal-Press.)  
Toronto, Jan. 8.—Addressing the Kiwanis Club at lunch in the King Edward Hotel today on epidemics, Dr. C. J. Hastings, Medical Officer of Health of this city, expressed regret that in the Christian burial service the words "The Lord gave and the Lord hath taken away" were still used. He said: "Many times have I thought, where the deceased had died from some epidemic that proper care on the part of the authorities might have prevented that it should have read, 'the Lord and the municipality hath taken away.'"

Dr. Hastings further said: "I regret to say that the ancient belief that epidemics of diseases were visitations from the Almighty has been

handed down from generation to generation until today many still believe it. To my mind nothing could be more libelous on God than that belief. Let us rather place the blame where it belongs—on ourselves."

Speaking of the necessity of a pure water and milk supply for any city, the doctor declared that any case of typhoid fever that had occurred in Toronto during the last five years was not traceable to the water supply, which was very pure. The city water was tested six times every 24 hours by an expert.

Human hands were the most frequent carriers of disease, Dr. Hastings said, and there was great truth in the ancient proverb: "To eat food with unwashed hands defileth the man."

## DOMESTIC HELP CONSIDERED

York County Council Takes up Burden of Providing Domestic Servants.

Special to The Standard.

Fredericton, Jan. 8.—At this afternoon's session of the York County Council, Councillor Robert Graham, of Prince William, drew attention to the prevailing difficulty in this country of securing domestic servants, and introduced a resolution calling upon the immigration authorities to take steps to bring domestic servants from Europe. Councillor Graham withdrew his resolution to re-consider it, but will reintroduce it later. The council ordered bills of the old Board of Health paid, in order that the new board will begin its official year with no debts outstanding. Some councillors advocated the discontinuance of the two and a half per cent. discount on taxes, on the ground that it was deducted from the fees of the collectors, and, in some parts of the county, was resulting in complaints from the collectors, that they must receive greater recompense or they will resign. The matter will be considered further.

## HAD WEAK and FAINTING SPELLS

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system. When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless. They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor. Miss Mary McVoy, Algoma Mills, Ont., writes:—"I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of these pills, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

# Change in Ford Policy

## Genuine Ford Parts at any Reliable Garage

The Ford policy in the past has been to supply repair parts only through Ford dealers.

The number of Ford Cars in use is growing so rapidly that wider provision for Ford service must now be made.

Many Garages not authorized to handle Ford Service have been repairing Ford Cars and using parts of inferior quality (parts not manufactured by Ford Motor Company of Canada, Limited), thus causing inconvenience and additional expense to the Ford owner.

It has, therefore, been decided to supply genuine Ford parts—made in the Ford Plant—to any reliable Garage which is rendering service to Ford owners.

TO THE OWNER—This means that wherever he goes he will find a Garage giving an authorized Ford Service.

The familiar Ford Sign will be displayed everywhere, and it will mark the Garages where genuine Ford parts are supplied.

It will no longer be necessary to "hunt up" any special Garage to obtain genuine Ford parts.

It will not be necessary to accept any parts that are not made by Ford—the Ford owner can demand genuine Ford parts.

This will mean authorized Ford service everywhere—greater convenience—better service—prompter service.

TO THE GARAGE MAN—This new Ford Policy makes it possible for every good Garage to become a Ford authorized Service Station. This means that he can secure genuine Ford parts—made by Ford Motor Company of Canada, Limited—at a discount; that he can, by improving his service to Ford owners, build up a larger trade in this rapidly growing part of the Garage business.

been kept in such a form as to take care of necessary expenditures in the future. Mr. Fairly argued that, the closer the war, prices of materials and labor would fall. Further, the company's common stock was regarded by the stock market as a gilt-edged security and was quoted around 30.

Sir Henry Drayton remarked that the price at which a stock was quoted in the market might also mean that distressed people were able to maintain it at a certain level.
