

Women's League Of Nations Meet

International Council of Women
at Christiania—United
for Universal Peace.

LYONS, IRELAND, COMMANDER.
(Cross-Atlantic newspaper Service.)
London, Oct. 19.—The women's league of nations is another new not untried. It was formed in Washington in 1918 and after 12 years it has been holding before humanity the ideal of international peace. The official name of this organization is The International Council of Women, and its leader for over twenty years has been its present President, the Marchioness of Aberdeen and Temair, formerly Vice-Queen of Canada.

During the war, the international work of the Council was stopped. It was impossible for the women of countries in conflict to get together. But the National Councils of the various countries, of which twenty-two are in the Federation, were active in their various homes.

Now that peace, even a troubled peace, has again been established, the international activities are to be resumed. At present the women of the twenty-two federated countries are meeting at Christiania, the Capital of Norway, to review their activities and to plan their work for the future. Their deliberations are being directed by Lady Aberdeen, a really great woman, and vice from long experience, and noble with the mobility that comes only from many years of selfless service.

Pioneers of League.
"We of the International Council truly realize the value of the League of Nations because we were the pioneers of that idea," she explained.

The real value of the League of Nations is that it gives time for consideration before war can be entered upon. Just as we are told that an angry person should count a hundred before speaking, so the League of Nations would give pause to countries inflamed with rage.

"Once war is declared, the women of a country must expect their men to be before the declaration of war that there is an opportunity for maintaining peace. If, in 1914, all countries had been compelled to wait three months before beginning to fight, there would have been no war."

"The reason women were the world over threw our enemies into their men with so much devotion (not that women over could wish for war or regard it with favor) the inspiration that carried us on was the hope to our hearts that helped us through as the trying time was that this was a war to end war. War is particularly heinous upon women and destructive of all they hold dear—home, family, security. While women are active in doing war work, their purpose is principally to uphold their men."

"It is significant that the first thing that the women of all countries agreed upon was the work for international peace. Their first decision when the International Council was first organized in 1918."

United Upon Reforms.
"The International Council includes women of all nations and all countries who are organized to work in any line. Upon these points are all united: To work for Universal Peace, against the White Slave Traffic, and for Equal Suffrage for men and women."

"The International Council was a splendid suggestion—so broad, so high. The group who first planned it were earnest and far seeing women among them Miss Susan B. Anthony, Mrs. Elizabeth Cady Stanton, Miss Francis Willard, Mrs. May Wright Sewall and Mrs. Foster Avery."

Asked to state the exact purposes of the Council Lady Aberdeen gave these two:

1. "To provide means of communication and common action between women of all countries."

2. "To bring together women from all parts of the world to confer upon questions relating to the welfare of

Rub Rheumatic Pain From Aching Joints

Rub pain right out with small
trial bottle of old "St.
Jacobs Oil."

Stop "dosing" Rheumatism.
It's pain only; not one case in fifty requires internal treatment. Rub right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" is a harmless Rheumatism Balm which never discolors and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and limbs, sprains, rheumatism, backache and neuralgia.

Remember! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pain, aches and stiffness. Don't suffer! Rub Rheumatism away!

SOME BREAD AND BUTTER.

Winnipeg, Man., Oct. 19.—Through better to serve 255,000 loaves of bread was produced in Manitoba this year, according to J. A. Gibson, provincial dairy commissioner. Of 8,250,000 pounds produced, 4,200,000 have been exported, he stated.

the commonwealth, the family and the individual."

And to sum up she read the Preamble of the Constitution:

"We women of all nations sincerely believing that the best good of humanity will be advanced by greater unity of thought, sympathy and purpose, and that an organized movement of women will best conserve this high good of the family and the State do hereby band ourselves together in a confederation of workers to further the application of the Golden Rule to society, custom and law."

The Council founded in 1881 received its first great impetus at its second meeting at the World's Fair in Chicago in 1893. There enthusiasm was kindled, and from there the women of all nations went home to start Councils in their own countries.

No German Delegates.

"Will the German women be present at Christiania?" I asked. "They have a strong National Council and the International met in Berlin in 1904."

"We consider the German women have taken a very reasonable and dignified position in regard to the Council," was the reply. "The German National Council have decided upon the following points:

1. To retain their membership in the International Council.

2. To send all reports of their standing Committees to the International Council.

3. Not to send official delegates to Christiania unless Germany has before September been invited to join the League of Nations.

"Thus they are loyal to their own country, yet are ready to co-operate with others as soon as the opportunity offers."

"We hope for much from the coming meeting. The wonderful change achieved in the position of women in most countries will bring fresh strength and opportunity to the International Council of Women when it meets at Christiania to take up the threads of the work. The Norwegian National Council, a very strong and representative body of women under the leadership of Fru Neko Hambro, made preparations for the reception of their guests with an activity and foresight which commands success."

"I sincerely hope that all the women who can will attend. It is my strong desire to impress upon the women of all countries and those holding the leadership of Nations, an agency over the world to make this International Women's Parliament the Women's League of Nations, an agency through which women can keep in touch with their sisters of all nations for the benefit of all concerned."

RAN A MINT IN THE JAIL

Prisoner Who Talked Too
Much Gets New Term in
the Prison.

Topeka, Kan., Oct. 19.—The old, old saying that "where there is a will there is always a way" was illustrated in the federal court at Leavenworth, Kan., yesterday, when Frank R. Creller was convicted of making counterfeit money in the prison, and his methods exposed.

One would suppose that it would be impossible to make counterfeit dollars in the United States penitentiary, but Creller found a way. And so "perfect" was his work, experts testified, that the coin could only be detected by the "ring" test. Not only did he make "silver dollars" but quarters and halves.

Creller was an expert electrician. He asked the warden for a workshop in the rear of the boilers in the basement. By crawling over the boilers, he was able to locate his "mint" in a narrow space where detection was not probable.

How he made the moulds remains a mystery, but they appeared to have been cast in his workshop. The moulds obtained, the problem of material for the "mint" presented itself.

About the prison are many large cables heavily coated with lead. A little scraped from the cables would not be missed and could be carried to the "mint" in the pockets of a prisoner's clothes. But now the silver coating. There are many silver knives and forks at the prison in need of replacing. He asked to fix them, and so obtained chemicals necessary. Permission was granted, thereby solving the final problem. Chemicals for the resilvering were obtained from the prison laboratory.

This little by little the "mint" was equipped.

But all the money Uncle Sam makes would be of no value if it did not circulate, and Creller found he must find a way to circulate his "bogus" coin. He could not leave the prison but he found a negro trusty who could and confided his secret to him.

"Sell these coins for 60 cents on the dollar in Kansas City the next time you are sent there," Creller is alleged to have advised the negro.

The negro instead, told the warden. The mint was discovered and the further length of time Creller must spend in the prison now rests with Judge Pollock, who will pass sentence next week.

WEST TO DEHORN CATTLE.

Edmonton, Alta., Oct. 19.—That all the cattle in Alberta may soon belong to the hornless variety is a possibility disclosed during a recent quarterly meeting of the Edmonton Livestock Exchange. A campaign is shortly to be put on throughout the province to get all the farmers to dehorn their cattle.

It is claimed that the animals feed, sell and ship better when dehorned. The practice has been extensively followed in the United States.

This Leaves the Arms
Free From Hairy Growths

(Toilet Talks)
A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a simple treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered salicylic acid and water, spread on hairy surface and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get deodorant.

GOOD ADVICE TO A DYSPPEPTIC

Give the Stomach Help to Digest
Food and to Offset the Ten-
dency to Acidity. Use
Stuart's Dyspepsia Tablets.

The wholesome advice to starve your way to stomach health is mighty poor judgment. Only the most robust constitution can stand such a strain. If

you cannot eat, if what you eat causes indigestion, if your stomach follows certain foods that cause heartburn, sour stomach, or gasiness, Stuart's Dyspepsia Tablets. And if there is a feeling as if your stomach had turned into concrete these tablets help digest the food and thus bring relief. Many physicians write "Stuart's Dyspepsia Tablets as directed" on a prescription blank when patients are distressed with frequent attacks of indigestion.

They furnish the alkaline effect to offset acidity of the stomach and also penetrate to aid intestinal digestion of starved foods.

Get a 60 cent box at any drug store, eat what you enjoy, take a tablet or two after meals and thus avoid the distress due to indigestion or dyspepsia.

COUGAR HUNTING WESTERN SPORT

Vancouver, B. C., Oct. 19.—Cougar stalking in a large city is the latest sport. Many reputable residents of the East End reported seeing a large cougar prowling about at night, devouring cats. The police department, at first skeptical, have formally taken cognizance of the animal.

Several hunting parties were organized but without result. So many small boys accompany these parties that police officials declare it will be impossible to do any shooting if the cougar is encountered; and if the only safe way will be to fall on him and choke him to death.

PROFITING BARBER
FORCED TO DISGORGE

New York, Oct. 19.—A profiteering, dissembling barber was compelled to disgorge by an enlightened magistrate today.

David Schaeffer, of Bridgeport, dropping in a barber shop and had several things done to his head and face. When he handed the barber \$5.00 the cash register clicked \$5.00 and Schaeffer, standing there empty handed, became angry.

On the advice of the police the barber was summoned to court. In self defence he displayed the items for which he had been charged. Schaeffer could not remember all these things, but upon Magistrate Sweetser advised the barber to return the Bridgeport man \$5. The barber took his advice.

HELPS THE UNIVERSITY.

Winnipeg, Man., Oct. 19.—Announcement is made of the decision of the Governor of the Hudson's Bay Company and the Canadian Advisory Committee to establish in connection with the University of Manitoba a Scientific Research Fellowship for which the sum of \$1,500, beginning this year, will be allocated for ten years.

THERE IS SUCH BEAUTY.

There is such beauty in so many things,
Earth, sea and sky such radiance wear—
Such music 'n the songs the larks sing,
Such harmony of color everywhere—
I wonder men, so busy with their care,
The loud complaint, the moment's bickerings,
Lift not their eyes and find the beauty there,
But cease the things that God has given wings.

There is such beauty in the trail we tread,
Although I follow valleys, follow hills—
The velvet petals of the rose of red,
The gleaming cadence of the woodland rill—
I wonder men think only of their ill,
With hopeless hearts come creeping to their bed,
Because today they might not have their will,
The while tomorrow crimson o'ers their heart.

There is such beauty in the thing we do,
Our task how humble or our task how great—
To dream, to dare, to plan, to see it through,
To serve ourselves, and yet to serve the State—
I wonder men can covet, men can hate,
Nor catch the larger vision, larger view:
Our common labor linked, our common fate,
A brotherhood of me, and you, and you.

There is such beauty near to you, to me,
We need not look afar afield to find—
The throbbing pulse of mighty industry,
The common purpose of the common mind—
I wonder men can look and be so blind,
Behold the man and not humanity,
Can be but selves, who might be one,
If men would only lift their eyes, and see.

Deplore Excess In Dress and Dance

Some of the Resolutions Dis-
cussed at International Council
Meeting in Norway.

Matters of great importance were discussed at the bi-annual meeting of the International Council of Women, held at Christiania and to which Miss Carmichael of New Glasgow was a delegate.

Each country was largely attended and great interest shown. A number of interesting resolutions were discussed at the meeting for adoption.

Citizenship of Women.
A resolution from Australia urged that an effort be made to include one woman among the three delegates allowed each country in the general Assembly of the League of Nations.

A resolution unanimously from the United States asked that any woman married to an alien be allowed to resume this by formal application before a court competent to naturalize.

One of the principal matters up for discussion was the League of Nations. There were seven resolutions bearing on this and all favor the league.

The women of Norway are urging the formation of an international bureau of education in connection with the League of Nations. They are doing this under the conviction that the basis of a truer and fuller education of the peoples of the world is the education of the individual.

"As all questions relating to children are educational questions, and all children in juvenile courts are school children, we recommend," read one of the resolutions from the United States, "that supervision of the formation of an international bureau of education in connection with the League of Nations."

From the women of Norway was a resolution touching on the endowment of mothers. "That the minimum income in proportion to the number of their children. The difference between this minimum income and that of their household should be paid out of government or municipal funds, or out of both conjointly."

Effective control should be secured that this endowment should be expended exclusively for the benefit of mothers and children."

New South Wales also had a resolution supporting the principle of the endowment of motherhood and asking for financial aid to mothers of families where the wage is inadequate, the feeding poor and ill-health consequent.

The National Council of Great Britain and Ireland had the following resolution: "That in view of the great benefits that have accrued to America from the experience of local funds, the sum of \$1,500, beginning this year, will be allocated for ten years."

There is such beauty in the thing we do,
Our task how humble or our task how great—
To dream, to dare, to plan, to see it through,
To serve ourselves, and yet to serve the State—
I wonder men can covet, men can hate,
Nor catch the larger vision, larger view:
Our common labor linked, our common fate,
A brotherhood of me, and you, and you.

There is such beauty near to you, to me,
We need not look afar afield to find—
The throbbing pulse of mighty industry,
The common purpose of the common mind—
I wonder men can look and be so blind,
Behold the man and not humanity,
Can be but selves, who might be one,
If men would only lift their eyes, and see.

REDUCE PRICES OR BE INDICTED IS ULTIMATUM

Boston Attorney Launches His
Campaign to Force Hotel
Managers to Cut Bills.

Boston, Oct. 19.—Hotel men who appeared before United States Attorney Gallagher today to discuss the high prices being charged for food in their dining rooms offer no remedy for conditions, and the federal attorney served notice on them that unless prices were scaled down shortly he would seek to have them indicted.

They were losing money, the hotel men said. Overhead costs were eating up all the differences between the cost of commodities and the menu prices, and more. "Overhead," exclaimed United States Attorney Gallagher, "that's all I hear."

Threatens a Jury.
"I want to tell you frankly gentlemen that if you don't reduce prices, I shall ask the grand jury to indict you. Overhead; yes, the prices are over the heads of your customers."

John P. Feeney, appearing for the Boston hotelmen's association said he wished to have one of the local managers tell about overhead expenses and other reasons why prices could not be reduced.

Mr. Gallagher said there was "not much nourishment in hearing why prices can't be brought down," adding that "when you pay \$1 for three ounces of roast beef and 25 cents for a boiled potato the public is certainly entitled to have prices lowered."

Attorney Feeney asserted all hotel restaurants in this city were being run at a loss, and mentioned again the burden of overhead charges.

Attorney Gallagher considers that in every country where the sale of liquor is carried on a similar power should be granted to its citizens.

The International Standing Committee on equal moral standard brought in a lengthy resolution bearing on the subject of public health, the study of the best means to combat the spread of venereal diseases, etc., under the same section being introduced the proposal by the National Council of Women of the United States: "That the International Council of Women deprecates the recent shameful excess in dress and dancing which are widely tolerated in so-called polite society in many lands, and which are distinctly increasing immorality."

Consider Motion Pictures.
"Believing that the motion pictures is one of the greatest factors in the education of the masses today, and realizing that this potent influence may be directed into channels of constructive usefulness to the people of the world, it is hereby resolved that the International Council of Women do establish a standing Cinematograph committee to encourage better film and educational film movements in all countries; to receive and disseminate information and otherwise function as may be deemed wise; notes another resolution which is down for consideration."

McCarrall declared that such a route would be competing with other "much quicker freight and water routes." As the traffic would be "largely one way and seasonal, consisting of grain," he argued that there was no assurance that it would be a profitable investment.

The mold of a man's fortune is in his own hands.

COOKERY COLUMN

Breakfast
Cocoa

4 tablespoons cocoa
3 table-spoons sugar
1/2 teaspoon vanilla
2 cups boiling water
2 cups milk
Few grains salt

Method:—Mix cocoa, sugar and salt. Add boiling water gradually. Boil ten minutes or until thick. Add scalded milk, or add milk cold and heat over hot water. Boil until thick froth forms to prevent scum forming, add vanilla. Serve at once in warm cups.

AMERICANS FIGHT
DEEP SEA ROUTE
VIA ST. LAWRENCE

New York, Oct. 19.—Opponents of the proposed deep sea route through the St. Lawrence River appeared here today before International Joint Commission. Appearing in behalf of the New York Chamber of Commerce, Wm. McCarroll opposed the project on the ground that "past statistical records relating to freight shipments fail to justify the tremendous expenditure involved, which he estimated to be between \$500,000.00 and \$500,000.00."

McCarrall declared that such a route would be competing with other "much quicker freight and water routes." As the traffic would be "largely one way and seasonal, consisting of grain," he argued that there was no assurance that it would be a profitable investment.

The mold of a man's fortune is in his own hands.

"You know my father had a nervous breakdown when he was my age."

"AND what has that to do with you?"
"Well, I have been worried a lot lately, and feel that my nerves are playing out. Besides, I believe that nervous troubles are hereditary, and I guess I am doomed."

"Now, old man, the sooner you get rid of that idea the better. You may inherit a nervous temperament, but not disease of the nerves. It is up to you to take care of yourself, and not allow your nervous system to become exhausted."

"But I am afraid it is too late, so far as I am concerned. My nerves are all shot to pieces. I am restless and fidgety, cannot sleep at night. Everything seems to worry me, and I cannot stand it much longer."

"Why don't you go away for a while and take a good rest?"
"Simply because I cannot. My business requires my constant attention."

"Then I will tell you what to do. Go to your druggist and buy a dozen boxes of Dr. Chase's Nerve Food. I will guarantee that by the time you have used it you will feel like an entirely different man."

"Oh, I have been taking medicine enough from my doctor, and what good

has it done me? Perhaps I have had a night's rest occasionally as a result, but certainly no permanent benefit."

"That is just the point. You have sought relief by deadening the nerves instead of restoring them. Dr. Chase's Nerve Food works on an entirely different principle. It forms new, rich blood, and nourishes the depleted nerve cells back to health and vigor."

"That sounds good to me."
"Because the Nerve Food works in this natural way you cannot expect much change after the first box or two. It takes a little time to build up an exhausted nervous system, but if you have a little patience the results will make it worth your while."

"I will follow your advice, for I have been terribly oppressed of late by the hopeless outlook. I know you would not recommend Dr. Chase's Nerve Food unless you felt sure it would restore my health, so I shall do my part and give it a thorough trial."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. Refuse substitutes, and look for portrait and signature of A. W. Chase, M.D., on the box you buy.

"SHUT UP! I'M TAKING YOU BACK TO YOUR MA! SHE'S BEEN LOOKING FOR YOU ALL DAY"

If the Skipper of the Trolley should run for office he would get the solid vote of every mother in the community.

The Townsville Trolley that meets all the trains—
