fine work, but not on coarse; and others that will work well on coarse and not on fine.

Second—Be sure and buy a Sewing Machine that you can get at to oil all the different parts that require oil; for a great annow sewing machines are spoiled for the want of oil, and if you cannot see or get at the parts requiring oil, how do you know that the oil reaches the proper place, when you put the oil in a hole, and let it take its chauce?

Third—Be sure and buy a Sewing Machine from an old and well established concern—one that has been making machines for some people have sewing machines that are of no use for want of a needle or some small fixing that they cannot get now; for the concern that made the machine is not now making them—they could not make it pay and had to give it up.

Who knows how long any new concern may be in existence, from the fact that there are more machines made in Canada than can be now sold in it?

The people will ask where can we get that kind of a Sewing Machine?

First—The Osborn will do any Lind of work—coarse or fine—and do it well.

Second—The Osborn is easier to get at to oil all the different parts that great and to oil all the different parts that require oil; for a great will be paid.
