MAKE LIFE MISERABLE.

It's The Little Things That Do So.

How frequently you hear people complain of "only a slight case of piles," often claiming that the trouble is merely temporary, induced by coarseness, or sedentary habits.

It may be some satisfaction to console yourself in this way; but it is much better to check the trouble at once. You can't do it too soon.

In time these little rectal tumors will grow from the size of a grape seed, until a knot of them results as large as pigeon's eggs.

These become inflamed and tender to the touch, and causing itching, stinging and throbbing pain.

Thus the disease continues from bad to worse, until the patient can bear the annoyance no longer.

The Pyramid Pile Cure is a perfectly safe and certain cure for piles in any of these stages. It goes to the very source of the trouble and drives out all inflammation, causing the tumors to subside, and the membranes to resume their normal, healthy condition.

Piles lead to too many complications to trifle with every remedy that comes along. People have found it pays to use a standard remedy like the Pyramid Pile Cure which for 10 years has been tested in thousands of cases.

Physicians use the Pyramid Pile Cure in preference to surgical operations, because they know it contains no cocaine, morphine, or poisonous drug, and because it is no longer an experiment.

The Pyramid Pile Cure is in suppository form to be used at night, and causes no detention from business, is painless and costs but 50c at any drug store in the United States and Canada.
