"A GROWING BUSINESS"

During the past seven and a half years in business in Glencoe, our business has been from year to year on a gradual increase, as it takes years to establish a "Rock Bottom" business and that is the position we hold today, for we have added new lines and equipment as the demand required, and today we are in a position to handle your Horseshoeing, Repairing and Blacksmithing in a satisfactory manner and at reasonable prices.

Make your stopping-place at DON H. LOVES, The Village Blacksmith, Main St., Glencoe.

The annual meeting of the members of the Melbourne Agricultural Society will be held in the Woodmen's Hall, Melbourne, on Friday, Jan. 20, at 2 o'clock.

Born
 FOSTER—At Detroit, on Friday, January 13, 1922, to Mr. and Mrs. L. E. Foster, a son—Edward Clifford.

Card of Thanks
 Mrs. T. C. Reynolds and family wish to express their sincere thanks to the many friends for kindness shown during the long illness of the late Mr. Reynolds, and sympathy extended in their recent bereavement, also for the beautiful floral offerings.

Card of Thanks
 Mr. John Lumley and family wish to express their thanks to friends and neighbors for kindness and sympathy extended in their recent bereavement.

TOWN AND VICINITY

Tonight! Prepare to root for the boys.
 Make your preparations for the carnival.

Glencoe intermediate hockey team plays at Alvinston on Friday night.
 Goff Bros. threshed 55 bushels of red clover seed in eight hours at Godfrey McMurchy's.

The Meredith foundry at Dresden was destroyed by fire last Thursday morning, with a loss of about \$5,000.
 The pupils of room 3, Alvinston public school, presented their teacher, Miss Nellie Farrell, with a fountain pen.

With an accommodation for 4,000 passengers and 70 autos a new ferry will be placed on the Windsor-Detroit run in June.

The death occurred at Ridgeway on Saturday of Dr. J. W. Coyne, who had practised dentistry there for upwards of half a century.

All trains on the Grand Trunk Railway System are now being despatched by telephone. The telegraph is used for sending messages only.

Theodore R. Gray of London will resume his classes in music at Glencoe, commencing on Saturday of this week, after having a month's holiday.

Glencoe curlers are in their element and are playing "the roaring game" for all it is worth. The weather has favored them with good ice for several days.

Mrs. Graham, one of the oldest residents of Glencoe, widow of the late Archibald Graham, is seriously ill at the home of her daughter, Mrs. P. B. Wade, at Dorchester, and is not expected to recover.

While watching the Glencoe-Watford hockey game here a few nights ago Herb Korney of Watford was hit on the forehead by the puck and received a nasty cut which required several stitches to close.

The official opening of Glencoe's new and handsome rink next Wednesday evening by Reeve McPherson and the big fancy dress carnival on the occasion will put another red date on the calendar. Don't miss the event. Liberal prizes; good band music.

"Slim" Williams, companion of the notorious Murrells who escaped from London jail while awaiting trial on a

charge of murder and robbery at Melbourne, was sentenced last week to seven years in Kingston penitentiary for implication in the robbery of a Chinese laundry last spring.

The London Manhattans will meet the Glencoe juniors tonight at the Carman Arena in what promises to be the most exciting hockey game ever played in Glencoe. It is the final game for the group honors and the teams are well matched. Are we going? Well—say! And we'll take a big fish horn, too.

Walter Sovereign of Lucan is suing James and William Ward, Biddulph township, for \$10,000 damages for the death of his wife and mother of his five children. Mrs. Sovereign was killed by an automobile owned by Wm. Ward and driven by his son James, owing, it is alleged, to the latter's negligence.

The regular weekly meeting of the Presbyterian Guild was held on Monday night. A very interesting program consisted of papers by Misses Marion Campbell, Frances Sutherland and Mayme Grant; vocal solo by Margaret Dickson and violin solo by John McGregor. The social committee will have charge of the next meeting.

At a meeting of the Presbytery of London on Tuesday, arrangements were approved for the induction of Rev. C. H. Cook of Binbrook to the pastoral charge of the congregations at Lartie and St. George's. The induction will take place on Thursday, Jan. 26th. The Moderator of Presbytery will preside and induct. Rev. Mr. Owen of Wallaceburg will preach the induction sermon. Rev. Mr. Malcolm of Chalmers church, Dunwich, will address the minister and Rev. Mr. Carr of West Lorne will address the people.

SPECIAL NOTICES

Chestnut coal for sale at North Elfrid, \$16.—W. R. McDonald.

For sale—young milch cow, due to freshen shortly.—John A. Leitch.

Bruce McAlpine, dealer in flour, feed, coal, wood, salt, cement, etc.

Am still buying wheat at North Elfrid.—J. D. McKellar; phone 623 ring 23.

Found—dogskin mitt, last Friday, opposite Wm. Clark's, Metcalfe town. ship. Call Chas. Oster, Walkers.

Feed cutting, sawing, chopping, at reasonable prices.—Stuart Bros., R. R. No. 3, Glencoe; phone 692; 21.

For sale—1 bedroom suite, 1 oak commode, 1 enamel dresser and commode, rockers, stands.—Mrs. Huston.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, second floor Graham's garage.

Flour, bran and shorts for sale at our warehouse, opposite Frank Hayter's store.—Mosa & Ekfrid Farmers' Co-operative.

I have one 1½, one 3, and one 6 h. p. gas and oil-burning engines, slight wear, all one cutting box, cheap for quick sale.—Wm. McCallum.

We have a good range of winter underwear, hosiery, shaker flannels, etc., just received, and are selling at the lowest prices.—The Keith Cash Store.

One of the famous Helena dresses at \$14, catalogued in Every Woman's World and Canadian Ladies' Home Journal, for sale at Mrs. Currie's Ready-to-wear Store.

Everybody come to Pratt's Siding Jan. 19th. Good program and lunch. Adults, 25c; children, 15c.

Small frame house and kitchen for sale, cheap. Apply to W. H. Reynolds, Glencoe.

For sale—first-class Barred Rock cockerels, bred-to-lay strain, \$3 each.—Alfred Gould.

For sale—a quantity of dry beech and maple wood, 16 ins. long.—T. A. Brown, Tait's Corners.

Millinery and Ready-to-wear Parlor.—A new shipment of ladies' misses' and children's dresses; a beautiful assortment of new blouses; the balance of millinery at your own price.—Mrs. W. A. Currie.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attacked their thousands of cases and at all times are thoroughly trustworthy.

PERSONAL AND SOCIAL

—R. W. Osley is on a trip to Texas.
 —A. D. McRae of Vancouver spent Saturday in town.

—Mr. and Mrs. Dan McEachren spent a few days at Dave McDonald's, Appin.

—H. G. Bundock of Toronto spent several days last week at W. R. Sutherland's.

—Jas. McEachren spent the weekend with his sister, Mrs. Dave McDonald, Appin.

—J. Sheridan Bole of Knox College, Toronto, spent Monday with Mr. and Mrs. Alex. McAlpine, Jr.

—Mr. and Mrs. Mac Leitch and their sons of St. Thomas were here last week and attended a celebration of the 85th birthday anniversary of Mr. Leitch's mother.

—Mr. and Mrs. B. F. Clarke left on Tuesday to attend the fifth annual meeting of the Ontario Retail Lumbers' Association at the Chateau Laurier, Ottawa, Jan. 18 and 19. Miss Frances Clarke accompanied them as far as Toronto. On their return trip Mr. and Mrs. Clarke will stop over for a few days in Toronto to visit Mr. Clarke's parents.

PREDICTS DRY SUMMER

James B. Bowes of Chatsworth has issued his 1922 prognostications as to the weather, which should be worthy of preserving for future reference during the coming months and seasons, as his predictions for the past few years have been notably accurate.

The following are Mr. Bowes' predictions for 1922:

January—Very mild until the last week, when it will turn decidedly stormy and cold.

February—First 15 days cold with very strong winds, especially about the 8th. Balance of month very mild.

March—First week average temperature; second week, high winds, rain and snow; last week, very high winds, rain, frost and snow.

April—Very cold, high winds, with snow for about 10 days. Balance of month very mild.

May—First 20 days very warm and likely very dry; rain, frost and probably snow about the 23rd.

June—Very warm and very dry, with probably wind and frost about the 10th.

July—Warmer than average and very dry, with rain about the 11th.

August—Average temperature and rainfall. Rain the first week, rain with a sharp frost about the 20th.

October—A very wet and very cold one, with stormy, persistent winds, especially at the end. There will likely be considerable snow.

November—Decidedly warm until about the 25th, then heavy rains, strong winds, snow and frost.

December—A record-breaker for being a wet month.

Mr. Bowes also predicts that the winter of 1923, with the exception of a sharp storm in the first week of January, will be the mildest possible.

The coming summer will be one of the driest of the three—'20, '21, '22—and the summer of '23 will be a dry one.

A RHYME OF THE RESTLESS ONES

We're gettin' clean discouraged on the farm
 For things is gettin' worse every year
 An' it fairly starts us yellin' if we do a bit of sellin'.

The little daddies offer us for pay.
 An' if a feller finds he has t' buy,
 For buy a feller has t' now and then.

Cost prices ain't a-sidin' but soarin' and abidin'.
 For stuff once five they'll ask yuh nine and ten.

Or mayhap, too, yer in a bit of hole
 An' need some cash t' help yuh out o' harm;
 Then "lenders" allers willin' ter loan yuh a few shillin'.

Hopin' thus t' git a tail-hold on yer farm.
 We jumped in when production was the cry;
 We mofled, we toiled, we tussled early, late;

We did our best, indeed, for ur country in her need
 An' helped t' keep the kaiser from our gate.

We ain't applaudin' or regrettin' what we've done;
 We did our bit—at least, we did a slice.

But what for we're a-ickin' is because the whole dern pickin' goes—t' the chap that sets the bloom'n' price.

We're quittin' 'cause there's no use keepin' on;
 We did our best, I glory; no one did more.

We didn't git no glory, and the endin' of our story
 Will make the hearts of saints and angels sore.

—"Bill" Edwards.

It is stated, though it is difficult to believe that anyone could positively know, that men are to return next year to the wearing of knickerbockers. Thus, we will go back a full cycle of years. The return of short trousers for men would be the most sensible fashion innovation of many years. No reasonable excuse can be offered for long trousers. They are wasteful, mussy and unsightly. Knickerbockers too, are not without their defects. The bandy-legged, bow-legged and skin-legged are fearfully exposed to a critical world. Men as a class, however, have nothing to dread, for our sisters, with similar defects, have braved the short skirts, and seem to like it.

Have our truck call—Lambton Creamery Co.

If you are run down, discouraged and out of heart, get a bottle of Tanslac and see how different it makes you feel.—P. E. Lumley.

Within the next ten years practically all the merchandise, and especially milk, within a 50-mile radius of Toronto will be handled by trucks, is the prediction of Hon. F. C. Biggs, minister of public highways.

CARE OF THE TRACTOR

Practical Advice About Running This Farm Machine.

House the Tractor—It Must Be Kept Clean—Be Careful In Lubricating With Oils and Grease—Air Cleaning.

(Contributed by Ontario Department of Agriculture, Toronto.)

In the year 1893 the Hart-Parr Co. built their first tractor. During 1910 there were about 1,300 tractors sold in the United States, and in 1920 this number was increased to 175,000. This year the sales are greater than the total for the past ten years, many dealers being sold out in the first four months of the year. These figures are a pretty fair indication that the tractor is taking its place as a farm implement. Farm implements generally have a very short life, and tractor depreciation is usually reckoned at from 20 to 25 per cent.

Housing.

A good tractor deserves the best of protection and when not in use or stored for the winter should be in a shed that is weather tight. If it is to be left in the field over night it should be covered with a waterproof canvas to properly protect the wiring, magneto, etc.

Cleaning.

Exposure is not by any means the only ill-treatment to which a tractor is subjected. Have you not often seen them so covered with dirt and grease that you wonder how they can carry the extra load? If the work of carrying it was all it would not be so bad, but the great trouble with these dirt accumulations is that sooner or later the grit is going to work into the bearings and get into the carburetor, with the result that you have ground-out bushings and scored cylinders. To clean off these accumulations each day will take but a few moments and pay you well. To allow them to stand for a week or so means that the heat of the engine will burn them and make their removal a very difficult matter.

Lubricating.

Oil in a gas engine or tractor serves three purposes: 1, general lubrication; 2, compression seal in the cylinder; 3, cooling.

For each part of an engine that requires oil there must be an adequate supply or that part is going to fail sooner or later. It has been said that not one man in a hundred knows every oil hole on his tractor. This is nearer the truth than may be imagined, and part of the fault lies with the manufacturer who places oil holes or grease cups in places where it would almost require a detective to find them. You must study your oiling chart, and then follow the system of oiling as laid down in your tractor manual. Give the manufacturer credit for knowing the oiling needs of his product. Oils and greases should be bought most carefully. Each manufacturer will tell you what oil to use in his particular machine. The reason different tractors call for different oils is because they differ in construction, speed and operating temperature. To make sure that you are getting the oil recommended, buy it in sealed containers.

Mechanical Oilers.

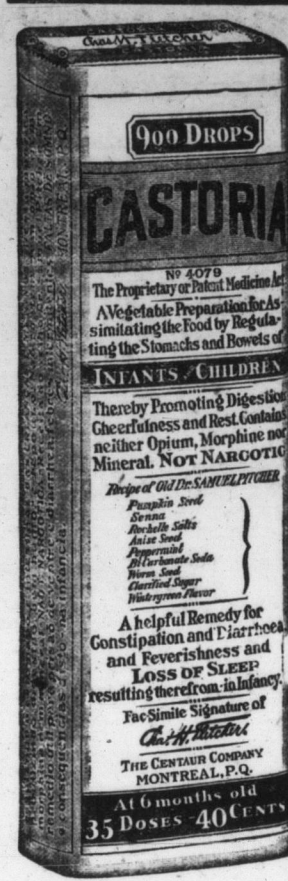

Some tractors are equipped with mechanical oilers. In these cases fresh oil is constantly supplied to certain parts. These oilers work so well that they are often forgotten. Not long ago a tractor operator heard one of his cylinders blowing gas past the piston. On examination it was found that the piston was dry and badly scored. Further examination revealed the fact that the little pump in the oiler which should have been supplying oil to that cylinder had stopped working. The oiler was drained and washed out well with kerosene. Then it was turned out and fresh oil put into the oiler. It was again turned by hand and again that particular pump did not work. The oiler was now removed and taken apart when, after quite a careful search, a small bit of chaff was found in one of the fine oil passages. The bit of chaff would let the thin kerosene pass but stopped the thick cylinder oil.

Equal care as to cleanliness should be observed as to greases. If grit is on your hands or whatever you are using to fill the grease cups with, you may be sure you are going to have scored bearings. In filling the cups see that there is no air left in them and then turn them down until you see grease squeezed out of the bearing. This makes sure that it is getting where it will do good. It is wasting money to buy a low grade grease because they consist mainly of a low grade soap and a large amount of water and will freeze. Cheap greases also contain acid fats and are certain to spoil the highly-finished surfaces of anti-friction bearings.

Air Cleaning.

Do not neglect the air cleaner. If water is used, for example, it should be cleaned out at noon and again in the evening. It is very important to not allow it to get dry. Old style cleaners drew the air through felt pads. This type should be discarded and a more modern one put in its place. In some circumstances it is possible to ruin a tractor in two days by working it without the washer performing its functions.

The above does not pretend to cover all the points in tractor care, but does emphasize those that are most commonly neglected.—E. W. Kendall, Farm Mechanics' Dept., O. A. College, Guelph.
