

Paris. A letter describing the battle of Bull's Run says: "Orders were given to the men to lie upon their faces when not in motion, and manœuvred by artillery. However, proper precautions may have been taken at this time, if afterwards turned out to be one of the most fatal causes of the demoralization of the division. It was so frequently repeated that some regiments at last could not be made to stand at any point whatever, the least report of cannon or musketry, sending them instantly to their knees; and I saw an entire company of the New York 2d. grovel in the dust at the accidental snapping of a percussion cap of one of their own rifles."

Autos-da-fe. We have been accustomed to consider the autos-da-fe (or acts of faith) enormous fires, round which, every three months, the Spaniards assembled to watch, like cannibals, the roasting and tossing of several hundred heretics. The purport of the autos-da-fe was, however, neither to burn nor to murder, but, on the contrary, to procure the release of such persons as were falsely accused, or to reconcile penitents with the Church. Numerous autos-da-fe have passed without the burning of anything but the candles which the penitents, carried in their hands as a symbol of the resurrection of their faith. Lorente, to prove the great zeal of the Inquisition, describes an auto-da-fe which took place at Toledo on the 12th February, 1496, at which not less than 750 culprits were punished. But not one of all these was executed; their punishment consisting merely in a public penance. Another great auto-da-fe was held in the same town on the 2nd April, of the same year, when not one of the 900 victims suffered capital punishment. A third and fourth auto-da-fe took place on the 1st May and 10th December of the same year, at which 750 and 900 culprits were present; but again not one was put to death.

The number of persons at Toledo who at that time were condemned to do penance, amounted in all to about 3,300; of which twenty-seven were executed. Lorente, our authority for this, is not one who would have altered figures for the benefit of the Holy Office.

We find elsewhere in his work, the description of another auto-da-fe held at Rome, with 250 Spaniards who had appealed to the Pope. None were put to death; but all, after having performed the prescribed penance, were at the auto-da-fe reconciled with the Church. They afterwards walked two and two to the Basilica of the Vatican, there to offer their prayers; thence in the same order to S. Maria Minerva to take of the san-benito, or shirt of penitence; and ultimately returned to their homes, abandoning for the future every sign of the sentence previously passed upon them. Another auto-da-fe is described by an English ecclesiastic, Townsend, in his "Voyage in Spain" (during the year 1786), and cited as an example of the horrors of the Inquisition. An impostor speculating on the credulity of persons, having sold love-philters, was publicly whipped and condemned to do penance. The inquisitor who read the sentence to him, addressed him in terms such as we should like to hear from the mouth of every judge.

Of all the trials recorded by Lorente, very few terminate with the death of the culprit. No one will accuse him of having selected the mildest cases and suppressed the most gloomy ones; for it is well known that his aim was to paint the Inquisition in the darkest possible colours.

The above facts explain the reason why the Spaniards, as Lorente confesses, regarded the autos-da-fe rather as acts of mercy than of cruelty.—Hefele's life of Cardinal Ximenez.

A "SACRED" PARACHUTE.—A brief visit to the Rip Raps introduced us to a singular character. His name is said to be Lee. He represents himself as a native of Petersburg, Virginia, "on travels." He came to this post a few days ago, was taken a prisoner and spiced in Fort Colburn. If acting the part of a spy, under his person's garb, all he can learn among the rude rocks and boulders of the Rip Raps will never do much good to secession.

The following colloquy ensued with this rare specimen of the genus homo:

"Of what denomination are you a preacher, sir?" "O! I don't hold to sectionism; I'm detached to all 'em. I goes with the Roman Catholics, and Presbyterians, and the Baptists, and Methodists, and Unitarians."

"Well; that is liberal." "O! I don't know no difference in sich matters. Not a bit o' it."

"How do you feel about the Union?" "Stranger! I feel as if I wur sitting astraddle o' Mason and Dixie's line, a-stretchin' out my hands ter both sides, to try to settle this er differikilty! I hold to the Union, stranger, as it was expounded by our beloved ex-President!"

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and discharges arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease. Subjoined are the statements from some eminent physicians of their effects in their practice. As a FAMILY PHYSIC. From Dr. E. W. Cartwright, of New Orleans. "Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City. "Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. The pills in my practice proved more effectual for the cure of bilious complaints than any other remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people!" DYSENTERY—DIARRHOEA—RELAX. From Dr. J. G. Owen, of Chicago. "Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mr. E. Stuart, who practices as a Physician and Midwife in Boston. "I find one or two large doses of your PILLS, taken at the proper time, are excellent promulges of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels. Their action is so much the best physic we have that I recommend no other to my patients." CONSTIPATION—COSTIVENESS. From Dr. J. P. Tasson, Montreal, Canada. "Too much cannot be said of your PILLS for the cure of costiveness. If others of our fraternity have found them so beneficial, they should join me in proclaiming their benefit for the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your PILLS effect that organ and cure the disease."

IMPURITIES OF THE BLOOD—SCROFULA—ERYSIPELAS—SALT RHEUM—TETTER—TUMORS—RHEUMATISM—GOUT—NEURALGIA.

From Dr. Eckel Hall, Philadelphia. "You were right, Doctor, in saying that your PILLS purify the blood. They do it. I have used them in many cases of impurities, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system. Such remedies as you propose are a national benefit, and you deserve great credit for them." FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&c. From Dr. Edward Boyd, Baltimore. "DR. AYER'S cannot answer you what complaints I have cured with your PILLS better than to say all that we ever tried with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I can only say that they are highly recommended."

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, GHOUGH, WHOOPING COUGH, BRONCHITIS, INFLUENZA, CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European Kings. Throughout the entire country, in every state and city, and indeed almost every hamlet it contains, AYER'S PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business it is to know; in short, if there is any reliance upon any thing, then it is true, and every state and city, and indeed almost every hamlet it contains, AYER'S PECTORAL is known as the best of all remedies for diseases of the throat and lungs.
