

A Plan of
ALBANY RIVER
 in HUDSON'S BAY.

Latitude $55^{\circ} 42' 0''$ North
 Longitude $62^{\circ} 40' 0''$ W. from London

by S. H. 1774

V.B. This Plan is laid down by a Magnetic Compass. The three hummocks of Wood on Sawpit Island, can be seen in clear weather, over the Factory Island, in 3 fathom Water, and is a good Mark. Saddle-back hummock bears due West from Albany Roads, and is a good Mark for laying the Runners.
