

OPINIONS ON LOVELL'S GENERAL GEOGRAPHY.

It is certainly the best and most impartial Geography for the use of Schools which, to my knowledge, has issued from the press on the North American continent, and will, I trust, receive from the public all the encouragement it so eminently deserves.—*Rev. Dr. Adamson.*

The work is well planned and executed, comprising in remarkably moderate bounds a vast amount of information. It is an improvement on every other School Geography I am acquainted with, and is likely to take a chief place in Canadian Schools.—*Rev. Dr. Willis.*

The General Geography will, no doubt, become a valuable national work, and take its place as a standard book in our schools.—*Mrs. Susanna Moodie.*

I have examined with some care the General Geography you were so kind as to send me, and am very much pleased with it, especially with the portion relating to Canada. The want of a correct description of the British Provinces has long been felt in our schools, and I am sure you will find a hearty appreciation of your efforts to supply that need.—*Miss Lyman.*

The plan is excellent and answers all the requirements of an intelligent work on the subject; the facts (so far as I am able to judge of them) are correct and well chosen; and the pretty and truthful engravings, by which the book is illustrated, considerably enhance its value and usefulness. I believe you have satisfied a want long felt in Canadian schools; therefore, as soon as it is ready, I shall gladly place the General Geography in the hands of my pupils, as a text-book.—*Mrs. Simpson, Principal of Ladies' Academy, 4 Inkermann Terrace, Montreal.*

I have long desired to see a Geography which would give Canada, and the other British Provinces, a proper share of attention; and in issuing your new work you have supplied the schools with a valuable auxiliary for conducting the education of our youth.—*Mrs. E. H. Lay, Principal of Young Ladies' Institute, Beaver Hall, Montreal.*
