

**Fairbanks-
Morse
Farm
Engine**

Serves every power purpose on the average farm. Easy to operate, simply and durably made, reliable at all times and will run on cheap fuels. Of the 160,000 Fairbanks-Morse Engines

built during the past 35 years, 90% are still in active service. The best possible evidence of their dependability.

Many types and powers. Vertical and horizontal—portable and stationary—1 to 500 h.p. Send for free booklet, "Farm Power."

Our Rates Are Reasonable

We guarantee to our students thorough instruction at reasonable rates in the subjects or courses that they may select. Beyond the regular collegiate courses

Albert College

specializes in commercial, music, art and elocutionary courses.

60 years of successful teaching under the co-educational system has proved its value upon the minds and morals of the young men and women passing through our hands.

Albert College is located on the outskirts of Belleville—an ideal spot for the invigorating, outdoor life necessary to all students.

Fall term commences on September 7th, 1914.

Write to-day for illustrated, descriptive calendar and terms.

Pots, Pans and Dishes!

Panshine really has no equal in the kitchen. You should not trust to hot water and soap to remove grease and all traces of the last meal's cookery. It isn't safe. Use Panshine—it makes pots clean and sweet tin like silver, paint like new.

PANSHINE

is a pure white powder with no disagreeable smell

Sold in Large Sifter Top Tins, 10c. At all Grocers

**Buy a Silo Filler That You
Can Depend On**

—a simple, sturdy machine of giant strength, that will do your work quick, cheap and just right—during the entire season—without annoying delays, expensive breakdowns, etc.

—an honest cutter of almost unbreakable construction—built to stand the terrific strain of competitive silo-filling, for from five to twenty years.

The 1914 Improved

OHIO

The Logical Silo Filler

is just such a dependable machine. You cannot clog or overcrowd it; it doesn't need constant adjustments or repairs; it cuts short, even kinks; it prepares the silage for solid air-tight packing.

"In two years have cut for myself and neighbor over 10,000 tons of silage, and practically no breakdowns and no repairs," writes J. L. ELY, Texas

"This OHIO cuts 50 to 250 tons silage a day, according to silo, on half inch cut. It operates at slow SAFETY speed—it never explodes.

Write us for details about the famous OHIO, made in five popular sizes to fit any need or any power. Shows to any height also—cuts all silage making crops—famous direct drive—single lever control—in wood friction reverse—suitable for pit silos by removing blower—easily converted into a shredder. Why not operate such a machine this year? Write us; let us tell you how easily you can do it. Ask for "Silo Filler Logic" and Folder "B."
