

**Bad Weather Sport**

When rain spoils plans for the day in the bush don't put your shotgun in the rack. No matter where you are or what the weather is there is always a day's sport waiting for you with your

**Dominion Hand Trap**

Shoot from the porch. Work your trap from the same place. A boy can operate it, yet it does the work of a fixed trap. Always have one on your hunting trips. It will keep stormy days from dragging. Costs only \$4.85.

Send for illustrated booklet.

**Ploughs—Wilkinson**

TRADE MARK REGISTERED  
U.S.S. Soft Centre Steel Moldboards, highly tempered and guaranteed to clean any soil. Steel beams, steel landsides and high carbon steel coulters. Clevises can be used either stiff or swing. Each plough is fitted especially with its own pair of handles—rock elm, long and heavy and thoroughly braced. The long body makes it a very steady running plough. Shares of all widths—specials for stony or clay land. The plough shown turns a beautiful furrow, with minimum draft and narrow furrow at finish. Ask for catalogue.

Also a choice lot of young Yorkshire pigs of both sexes, from a litter of eighteen. Also a 600-lb. dam, A. McKinnon, Erin, R. M. D. Hillsburg or Aitona station. Long distance phone.

**Questions and Answers.**  
Miscellaneous.**Absence of Oestrus.**

I have two cows three and five years old, respectively, that calved during the winter and have not come in season since. These cows are healthy and thriving and cleaned all right at calving. Can you prescribe anything to bring them in season as I would like to breed them again?  
E. R.

Ans.—We would suggest feeding the cows a little grain if they are not already getting grain. If getting grain, try adding a little heavier meal or some oil cake or special meal. Turn them out in a yard with the bull for a short time each day if possible.

**Painting Silo—Fir.**

1. I am building a silo and would like to know which would be the better method of painting the staves, first, with linseed-oil paint after erected, or, second, painting with creosote inside and outside? I have R. C. Fir staves.

2. Is the Fir of commerce the same as Douglas Fir?  
ENQUIRER.

Ans.—1. Of the two the creosote method looks the better.  
2. A local lumber dealer informs us that the only fir they handle is Douglas Fir, so it is likely that it is the ordinary Fir of commerce.

**Horse Stocks.**

I have a six-year-old gelding I have been working and feeding well, and his right hind leg has been stocking all spring. Can you advise me what to do to clean that out if possible without having to reduce flesh too much? Have not consulted a veterinarian.  
J. S. H.

Ans.—Purge with 6 to 10 drams aloes and 2 drams ginger. After the bowels have regained their normal condition give a dessert spoonful of saltpetre in damp feed once daily for three or four days to act upon the kidneys. Feed grass or green feed. Cut down the allowance of grain, especially when he is idle. Avoid violent changes in feed. If stocking persists hand rub the legs frequently and bandage moderately tightly with woollen bandages.

**Lymphangitis.**

We have a four-year-old mare that has swollen up in the left hind leg. Her leg started to swell two or three months ago, but it always came down with exercise until now. It goes down some, but on the inside of her leg there is a lump about as big as half an apple, and it does not go away. If she has been standing in the stable for some time, she seems to get stiff on it and swings it out sideways when she walks. It is broken out in a couple of places.  
A. P.

Ans.—This is lymphangitis. This disease has the peculiarity of being more frequently found in the left hind leg, although it is not uncommon in the right hind leg. Purge with 8 drams aloes and 2 drams ginger. Follow up with two-dram or three-dram doses of nitrate of potash three times daily. Bathe long and repeatedly with warm water. Apply camphorated ointment or other liniment after bathing. Reduce the grain ration. Keep comfortable. Do not exercise while soreness or lameness is well-marked. After lameness subsides exercise or work regularly. Substitute bran in part for grain, and be sure to cut down the grain ration when idle.

**Trade Topic.**

September 8 to 16 are the dates of this year's Western Fair, London's great exhibition. Prize-lists are being mailed. Get one. Preparations are well under way, and with the addition to the money offered, the new Process Building humming, and a big program of special attractions the Fair should be a bigger drawing card than ever. We are pleased to note, in the literature sent out, that the management is putting forth an extra effort to make the live-stock and agricultural end of the show the big thing this year.

**PEERLESS-PERFECTION****Fencing for All Purposes**

There is scarcely a fence requirement that we cannot fill directly from our stock, no matter whether it be farm, poultry or ornamental fencing. We carry the largest stock of fencing and gate-carrying by any one company in the Dominion.

**Every Rod Fully Guaranteed**

PEERLESS Fencing is well known for its non-rusting qualities. Many of our customers have testified to this fact. Examine any piece of PEERLESS Fence in your neighborhood. Compare it with fences of any other make. You will find little or no rust on the PEERLESS. The longer you can protect a fence from rust just that much longer will it continue to stand up and do business. Send for our literature and learn about this high grade fence. Probably your dealer handles it. Dealers wanted in unassigned territory.
