GOSSIP.

An old woman in a red cloak was crossing a field in which a goat was feeding; what a strange transformation took place? The goat turned to butter, and the woman became a scarlet runner.

Perhaps in no single industry has the advantages of advertising been more clearly proven than in placing on the market the many cereal breakfast foods now so generally used by city and country people.

The profit in the sale of cereal foods is large, but a market is not to be had for simply the asking. A market can be created and kept in existence only by persistent advertising. It costs from \$400 to \$800 in advertising to sell \$1,000 worth of breakfast foods. The man who makes wheat-coffee, spent, last year, \$884,000 in advertising in 800 newspapers and 30 magazines, and this year he is spending a million dollars.

The maker of shredded wheat spends \$700,000 a year for publicity. Another paid \$5,000 for the privilege of painting the name of his product on a big chimney in lower New York that can be seen from all the North River ferry-boats. He has for months kept before the public eye a comic figure and some swinging rhymes, and has made all America and England laugh. The laugh has cost the manufacturer hundreds of thousands of dollars, but it goes without saying that it pays or he would not keep at it.

Few people outside of his own immediate circle know that Sir William Van Horne, Chairman of the Canadian Pacific, Director of the Postal Telegraph and Commercial Cable, and President of the Cuba Company, is one of the most enthusiastic botanists on the continent, and also one of the most ardent admirers of art.

Sir William, though he wears with grace a British title, was born in the United States. He sold books on the Chicago and Alton Railway many years ago, rose in time to the dignity of selling oranges on the Illinois Central, and later in life assumed the many high positions he now holds. His title he won for eminent service to the British Empire in the building of the Canadian Pacific.

As a boy he worshipped nature. When on the Illinois Central Road he was the butt of his companions, because he was always armed with a hammer for the breaking of any queer rocks that happened in his way, and carried a book for the discovery of the identity of those unknown rocks and flowers he encountered.

In later life, he established at Montreal a splendid conservatory and an excellent art gallery. He is himself an artist with the brush and of no mean reputation. He has at all times three or four botanists in his employ in the far off corners of the world, whose business it is to find and bring to his Montreal conservatory all the new flowers that they can find. He hears of a new orchid in South America. Immediately his men are sent in search of it. He hears of a new lily in Central Africa, and never rests easy until he has captured it.

These things are his dissipations. His offices are no mere honorary affairs. He is the practical working head of the Cuba Company, a very active participant in all the affairs of the Canadian Pacific; in fact, one of the most busy of the big men of the continent.—[New York Times.

The Combination Oil Cure for Cancer
Has the indorsement of the highest medical authority in the world. It would seem strange indeed if persons afflicted with cancers and tumors, after knowing the facts, would resort to the dreaded knife and burning plaster, which have hitherto been attended with such fatal results. The fact that in the last ten years over one hundred doctors have put themselves under this mild treatment shows their confidence in the new method of treating those horrible diseases. Persons afflicted will do well to send for free book giving particulars and prices of Oils. Address the home office, Dr. D. M. Bye Co., Drawer 505, Indianapolis, Ind.
