

FREE ON APPLICATION

By postal card or personally to 62 King's Road, a pamphlet entitled "The Great Salvation," as delineated in the Scriptures of Truth; helping the honest-hearted to return to the Apostolic faith.

The Chase Metallic Roof-Plate.

POINTS OF SUPERIORITY:

A Metallic Conducting Plate, covering the roof of the mouth.

Thinness and perfect adaptation of the same. The accuracy of adaptation to that portion of the alveolar ridge with which the rubber or celluloid comes in contact.

A plate when made by this method is much lighter than an all gold plate, hence more pleasing to the patient.

The metallic roof-plate cannot become detached from the rubber, as the peculiar construction renders it impossible.

It is one of the most cleanly, durable, comfortable and beautiful dentures ever devised.

The metallic plate can be reswaged in case of absorption or shrinkage of the mouth, thus saving the expense of new metal.

These plates can be fitted to any mouth, however irregular or ill shaped.

Enunciation is much better than when the roof of the mouth is covered by a rubber or celluloid plate.

Perfect conduction of heat and cold, thereby preventing inflammation of the mucous membrane.

The peculiar and original method of making these Plates renders it possible to give to the patient the advantages of both a Metallic and Rubber Plate at a price within the reach of all.
