The Test You Should Apply When Buying Furs

In buying furs by mail the first essential is to select a house with a national reputation for quality and good values as well. It is the easiest thing in the world to lose money in the purchase of furs, and it is just as easy to get good furs by dealing with the proper house.

"Holt, Renfrew" furs are recognized everywhere as the highest in quality and most perfect in workmanship, always stylish and at the same time the best value obtainable anywhere.

Read Our Guarantee:

"We guarantee that the furs you purchase from us will be the best quality obtainable for the price paid, but if for any reason whatever you are not satisfied, return them within five days at our expense and we will promptly refund your money."

Get Our Beautifully Illustrated Fur Catalogue

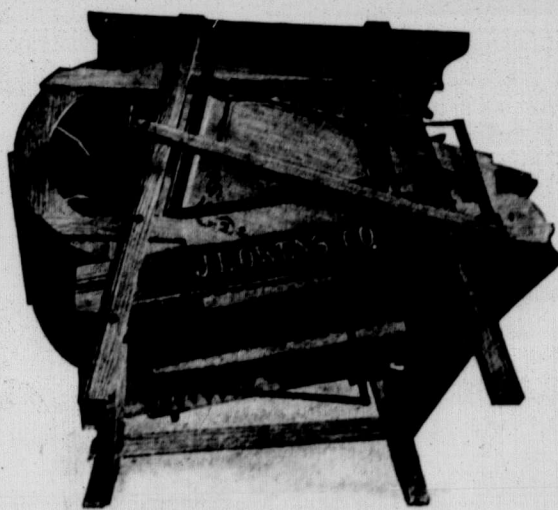

A letter or postal will bring one by return mail. It gives an exact idea of all the new fur styles with a full description of each article. You should have this catalogue before ordering your furs. Write for your copy today. It is free.

Holt, Renfrew & Company, Ltd.

433 Main Street, Winnipeg, Man.

EASTERN STORES AT TORONTO, MONTREAL AND QUEBEC

KING OF WILD OAT SEPARATORS

The Owen "New Superior" Wild Oat Separator

With our patented open and blank space sieves it positively separates every wild oat seed, causing them to lie flat, and not up on end.

Patented Adjustable Wind Boards

are provided so that blast is always under control. Can blow out as much or as little as you like, making it a perfect oat cleaner and grader. The lower shoe is fitted with a cleaning rack that is adjustable, never touching the sieve, but just close enough to knock out any grain that gets stuck when going over the sieve. It is movable, working back and forth about two inches in opposite directions to the shoe. By this improvement the capacity is increased about 25 per cent.

[It is Strong, Well Built and Bolted---Not Nailed]

Our machine is built to clean any kind of grain and do perfect work. What the "NEW SUPERIOR" cannot do no other can do. Exceptionally easy to operate. Sizes 24, 32, 42 in. wide, with or without bagger. Power attachment, to operate with gasoline engine, if desired.
