viewed the remains, ordering them to lar attached. been identified and it seems to be certain that h is a stranger. There are no marks of violence and so far there Coroner Berryman will probably hold

an inquest.

The dead man was first discovered by Robert J. Green, contractor, lying in the ditch, face downward along side the road. To those who first found the body it seemed that life had been extinct for some time. The body was hauled to the roadway and Coroner Berryman summoned. The ditch from which the body was taken contaned

The coroner gave permission for the body to be taken to the morgue and it was taken there by George Cody of 455 Main street, and Herbert Lobb, of 119 Main street, teamsters for Gibbon & Co. in their coal cart.

The dead man and his clothing were covered with mud but when these were partly cleaned away it was found that the remains were those of a wellbuilt man of about thirty-five years of age, about 5 feet 5 inches in height and weight about 150 pounds, of dark complexion, dark hair, heavy black moustache and recently shaved.

about half-past four in a ditch on the and vest of the same material, dark the Standard Oil Company. Based on government counsel little further in-Coroner Berryman was notified and new. He wor a striped shirt with col-

resemblances, the man has not yet gether with a string. The round brass time tag was such used in numbering their employees by large contracting firms and contained the words "G, and D., 286, time check."

So far as known there are no contracting firms in this vicinity which would be using these letters, and one might be inclined to think he was a tramp but for the fact that his clothe were so new and that he had apparent ly only been shaven/a few hours pre-

Dr. Berryman upon his hurried examination was of the opinion that the man had not been long dead when

Many yesterday viewed the body which lies in the morgue still. The unsuitability of the present structure was most apparent yesterday.

A gentleman connected with the Mispec mills who wished last night body was taken into the the dark damp hole while rats scampered away on all sides and was given a chance to view the body by the ghostly light of a dim lantern. In the afternon the lock to the house was in such condition that it would not fasten and the door had to be secured by the police with their padlock and rings.

### DOMINION COAL CO. **WORKING THEIR ENTIRE** COAL AREAS AT LINGAN

HALIFAX, N. S., Sept. 23 .- Actual mining operations were begun today by the Dominion Coal Company in connection with their areas at Lingan. For some time the company's engineers have been employed in laying out proposed work. A definite programme was decided upon Saturday and a gang of men detailed to prosecute at once its carrying into effect. Seen tonight, Mr. Duggan, general manager of the Coal Company, expressed the opinion that although the operations would at first be limited, they would gradually become more extensive and strenuously pushed as time went on. It is hoped to have in time six slopes operating the seam in close proximity to each other. This method of developing coal areas is only of recent application and is said to the cable completed the first year's opssess haulage advantages not to be erations."

found in other systems. The new mine at Lingen is situated at a distance of about one mile from the old workings in that vicinity. The Victoria seam is one of three croppings to be worked in the immediate future, although it is thought the company intend taking coal in time from there too. A quantity of lumber is being rushed from local sources presumably to be used in the building of a bankhead, while general activity is evidenced in connection with all the departments of iew work

### DEFIGIT REDUCED

ON "ALL RED" CABLE OTTAWA, Sept. 23-The deficit

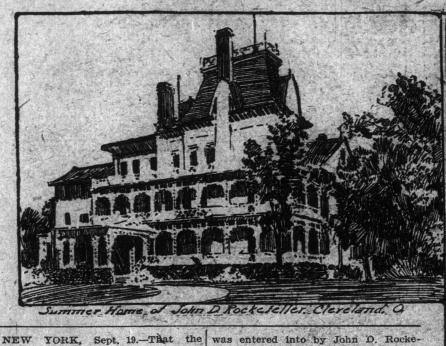

the "All Red" Pacific Cable for the year ended March 31st last, was \$335,340, which is considerably less than the deficit of the previous year. Can-ada's contribution to this deficit will be \$93,150, as the Dominion is responsible for five sixteenths of the under taking. An Australian report to the Trade and Commerce Department says: -"The deficit is, however, really only a nominal one, as far as the working of the cable is concerned, because, when in 1902, £2,000,000 of capital was aised by the British Government the money was secured on the condition that it be paid in fifty annua instalments. When accounts are made up, the Pacific Cable Board has to be lebited not merely with expenses and interest, but with loan repayment annuity for 1906-7 amounting to £77,545, so that, apart from this item, the Pacific Cable earned a profit of £8,500 The net deficit of £69,000 for 1906-07 is moreover, an improvement on that for the previous year, being £102,000, as share of the past year's deficit totals about £23,000. It was over £30,000 when

### JOHN D. OWNS 1-4 OF STANDARD OIL AND IS MAKING \$16,000,000 YEARLY FROM THIS ALONE

Standard Oil Company is operating feller and forty-five other oil interests, treasurer of the Standard Oil Company, under examination in the gov einment's suit against the company, testified that H. J. Folger and J. M. Payne, who Frank B. Kellogg, the attorney for the government, states controls the Corsicana Company, are prominent in the conduct of affairs of the Standard Oil Company, Mr. Kellogg sought to draw from the witness the information that the Corsicana Company was really a Standard Oil Company, and was operating in Texas because the anti-trust laws of that state would not permit the combine to operate here. Mr. Tilford replied that as far as he knew the Standard Oil Company had no interests in Texas. He said that Mr. Folger and Mr. Payne were both officers of the Standard Oil Company, but he was not aware that they owned the Corsicana Company. Another interesting development was the official statement made public for the first time of John D. Rockefeller's personal holdings in the Standard Oil Company. Just to what extent the reputed owner was individually interested in the great concern has long been a matter of speculation. It has been brought out that Mr. Rockefeller own-The dead body of a unknown man | His clothing consisted of a coat of a ed 256,854 shares, or more than one-

All the ed today, when Wesley H. Tilford, properties and assests of the embraced corporations and companies were turned over to the several Standard Oil Companies, which in turn issued their stock in exchange. Under the terms of this trust agreement, all stock was to be delivered to nine trustees who issued to the par value of the several Standard Oil Companies. The nine trustees under the original agreement were John D. Rockefeller, O. H. Payne Wm. Rockefeller, Jay Boswick, H. M. Flagler, W. G. Warden, Charles Pratt, Benjamin Brewster and John Archbold The trustees had absolute power in the purchase with trust funds the stocks and bonds of other oil companies on such terms as they deemed advisable and could dispose of them whenever they considered necessary. The trustees who were elected to hold office three years, were ballotted for by owners of trust certificates. The agreement further provided that the trust should continue during the lives of survivors of the trustees named in the agree ment, for twenty-one years thereafter Mr. Tilford was questioned at length on the trust period between 1882 and 1892 and the period of trust liquidation from 1892 to 1899. Mr. Tilford as secreon Saturday afternoon large grey check with brown thread fifth of the total 952,000 certificates of tary of the company, could give the Marsh road, about sixty yards on the treusers and lace shoes. All his clothes the earnings of the company as pleed formation about the periods of the other side of the three mile house, were in good condition and were nearly on record Tuesday, it is computed that Standard Oil Trust, though he was a called to his attention on Aug. 27th. And Moved Traveller So As To Employ Them All

More Evidence in Quebec Bridge Inquiry -Chief Engineer Moore on the Stand Talks of Defective Chord

QUEBEC, Sept. 23 .- When the Royal Commission met again this morning, E. A. Hoare, chief engineer of Quebec Co., taking up the subject of the offects of the chords, stated that the defect in chord 9 in the anchor arm was first The witness could not speak positively tween the 20th and the time of the there all day.

"Did you express any opinion when you went out on the 28th and found the traveller moved?" he was asked. "After finding out from Mr. Birks that he had computed that the additional stress was only fifty pounds all I said was: "Well, that does not amount to much."

"So you reasoned that Mr. Yenser who you knew was uneasy would move out the little traveller for no apparent reason and then go back and take down the big traveller?" was the next question.

"He did not seem to me to be uneasy at all but quite the reverse, but I thought that he moved the traveller out without the intention of using it," replied Mr. Hoare.

Would you consider that action, under your understanding of the programme to be the action of a perfectly easonable man?" "Yes, I would think so." "Mr. Yenser told you, I understand,

that he moved that traveller out because he had too many men out and your interpretation would be that he he hired a team to McCready and a wanted to employ them?" asked Mr. Kerrry. "Yes, that is what I would think.

All he said was that he had too many men out," was the answer.

The witness went on to state that while he knew that they were working on the bridge after this, his general impression was that they were working on the removal of the big traveller and did not know till after the accident that they were erecting more

QUEBEC, Sep. 23 .- Frank Cudworth, one of the Phoenix Bridge Co.'s engineers in charge of field instruments, was on the stand all the afternoon. The evidence was largely of a technical

He had not personally observed any defects in the structure, but in his work in the debris since the accident he was inclined to the same opinion as MacLure, that the defect lav in the failure of the lower chords of the anchor arm. The investigation here is examination of Hoare and Deans.

MONTREAL, Sept. 23.—The steam ship Dominica, of the Dominion Line, which arrived in port today, encountered one of the most severe gales of recent years on the North Atlantic. While in mid-ocean William Roberts. an able-bodied seaman, was swept overboard by a gigantic wave, and T. nor T. H. Wallace, who has been crit- J. ### IRISH PASSENGERS TO CANADA LAST YEAR

Notable Increase in Number Which Report of Dominion Iron and Steel

Great Majarity, However, Went to the Amounts Which They Thick They Have a United States—V.ant System of Registration—Ministers Dined.

LONDON, Sept. 22.-A despatch from Paris says that Messrs. Fielding and Brodeur attended a luncheon given in their honor by the President of the Republican Committee of Commerce and Industry, and the President of the Republican Society of Avenue, De Lopera. M. Doumergue, Minister of Commerce, presided. Mr. Fabre, Canadian agent at Paris, and a number of leading merchants were present.

There was a noticeable increase in the number of Irish passngers to Canada during 1906, though the United States took the huge majority. At the pleasant Sunday afternoon conference it was stated that in consequence of the growth of the movement to Canada and other colonies it was essential that a system of registration be created so that an emigrating mem-

ber should not be stranded and friendless in a strange land The Aberdeen Daily Press, commenting on the resolution moved by the Associated Chambers of Commerce regarding the removal of the restrictions on the Canadian sable, says a greater power than that of the Chambers of commerce holds the key to the situation, and that power is the Irish vote in the house of commons. Nothing will

come of the resolution. The Birmingham Post, referring to 91,000 emigrants to Canada, says the than from southeastern Europe. Consteerage of Atlantic liners has a good sporting chance of driving her carriage lost her beauty, and youth.

Allan liner Grampian left Glasgow for Quebec Saturday on her maiden voyage. She is expected to break the record for the voyage and marks a distinct advance in steamers sailing in the Glasgow-Canada service.

### STABBED IN SHOULDER: MAN MAY NOT LIVE

ANAPOLIS ROYAL, N. S., Sept. 23 .-At a meeting of the Annapolis Royal branch of the People's Game and Fish Protective Association a Guides' Association was formed, and it was resolved that a number of rangers should be hired to patrol the woods during the latter part of September to report on anyone violating the game law before the opening of the hunting season. Other matters were discussed. One thing was made apparent, that guides could secure licenses to the best advantage by becoming members of the

Right to Claim from the Dominion Coal Company

MONTREAL, Sept. 23 .- The directors of the Dominion Iron and Steel Co. following their recent meeting in this city today, issued a supplementary report showing the alleged damages they think they have a right to secure from the Dominion Coal Co., and the net earnings for the first quarter of the new fiscal year. The claim for damages thus awarded against the Coal Co., says the report, amounted on 31st August, 1907, to the following sums (sub. to proff.): Paid for extra cost of coal purchased from Dominion Coal Co., \$829,247.64; paid for extra cost of coal purchased from others, \$356,142.71; damage: due to short deliveries in August, September and October, 1906, \$132,252.75; damages due to cessation of del'veries in November, 1906, estimated, \$479,000. Total as on 31st August, 1907, exclusive of interest, \$1,796,640.35. The report concludes as following: "Asregards relations with the Dominion Coal Co., your directors are still ready to forward any arrangement which is just and equitable and likely to lead to a permanent settlement of the important question of coal supply but anything that may be done in that respect should be under the control of the di-

rectors to whom the welfare of the Steel Co. is the first consideration.' The gross earnings from June 1st to August 21st, 1906, on the basis of the contract price for coal were \$705,347,93. number dies credit to the immigration The proportion of interest charges and department at Ottawa through its sinking fund for first mortgage bonds egencies.
