The leaders of the Christian Science crusade are selling Mrs. Eddy's book for 20 marks. All sorts of quackery seems to thrive in Berlin. A recent census showed that 476 persons here were living by quackery.

The Agrarians yesterday evening cheered the earlier part of Chancellor Von Buelow's speech, but their enthusiasm was replaced by gloomy silence when he announced that the new tariff bill represents the government's utmost limit of assistance to agriculture. The chancellor, having tested public opinion through the news published in the North German Gazette on Feb. 1st, warning the tariff extremists against endanger ing the tariff bill by insisting on a further increase of duties, feels sure of his position with the country behind him in checking the landed interest's de- of frozen meat. The government is prosecuting the Vorwaerts (organ of the Socialists) for receiving stolen goods in printing the secret memorandum of the secretary of the admiralty, Admiral Tirpitz, which was discussed in the reichstag this week. The Liberal papers condemn this action of the government as illegal and unconstitutional, citing that the reichstag, in creating the new criminal code, explicitly refused to make this publication of official documents a felony. Herr Be bel, the Socialist leader in the reichstag. yesterday morning said the Vorwaerts never paid a pfennig for any of its ser ies of official documents published with out the government's consent or know ledge, and added that the paper never knew from whom they came.

Western Development.

All the great railways seem to be preparing a policy of western development. It is said the Union Pacific as well as the Canadian Pacific will spend His thoughts he uttered loud \$20,000,000 in anticipation of the ex- And this the burden of his talk: pansion of the West. The Times has always held that private enterprise might be depended upon to meet the demands of commerce on the Pacific. There must be a limit set to the operation's of governments. They cannot go beyond a certain point in taxing industries in order to bring otherspossibly rival ones-into existence. Our government liberally subsidizes steamship lines engaged in the Oriental and Antipodean trade. It has sent agents to spy out these lands and make suggestions for the benefit of our business men and manufacturers. It has endeavored to arrange such treaties as will remove all possible obstacles to trade development. That seems to be as far as any government can go. It is in ome respects farther than the United States has yet gone. It is through the aggressive private enterprise of our neighbors that they are getting a foothold in so many foreign fields. The Wal, yer're a healthy man, merchants and manufacturers of Great Britain merely ask to be let alone by made as free as possible—and yet they have not fared so badly in the fierce fight for a business posi- In some sort of shape, some kind of war tion in the world. We take it to be the business of a government in a young country like Canada to devote the greater part of its available resources to the development of internal wealth. There is a fairly good market awaiting most of the possible products of the West after the problem of economic production has been solved. Progress of the War.

The weekly returns sent by Lord Kitchener to the war office continue to request, did not occur in Denver, but is show steady progress in the scattering of the different commandoes, and a diminution in the number of Boers in the field through deaths, captures surrenders. Some statistics recently published in London seem to show that it was a mistaken policy to release prisoners on a pledge that they would not up arms. Practically the whole of the Boers in the field a year ago have been captured in the interval and the foreign recruits during that period have been comparatively few in number. It is apparent, therefore, that a large number of the men releastion. 50 cents. 2. Sold by Goodeve Bros. or other of the commandoes in the by Goodeve Bros. and Rossland Drug Co

ernment and lay down their arms, does not appear to be likely to be realized. The Dutch delegates in Europe appear to be divided in opinion on the question but even if united in the view that Christian Science Crusade Dr. Leyds and His Clique further communance of the war can only result in increasing the losses and cala mities of their people, it is doubtful whether Messrs. Steyn and De Wet will be guided by their representations. It is to be feared, therefore, that the struggle must continue in its tedious course until these leaders are either captured or manage to escape from the country In other respects, however, substant tial progress is being made in the pacification of the country, and the resumption of peaceful pursuits. Lord Milne recently made a speech in quite an op-timistic vein at Johannesburg on the situation, Lord Kitchener's plan of campaign appears to have been quite successful in clearing some of the most important districts of the Boers and things niversary of Majuba Day, the happy in cidents which marked that day in 1900 once more prevails in South Africa,-
