PECULIAR TACKICS

We fail to see in what particular hope to benefit the district by the and purpose of political organizations is the improvement of general con ditions and the advancement of the popular welfare. When any such orgazization or the leaders thereof deliberately essay a line of policy in direct contravention of the public good; their sincerity and earnestness of intention become immediately matter of open question.

At the present time certain selfstyled leaders of the opposition are engaged in throwing every possible stumbling block in the way of those who are seeking a method of restoring prosperity to this territory and of giving it a renewed lease of commercial and industrial life.

Irrespective of the fact that in following a policy so obviously foolish, they are hindering important legislation, designed to benefit the whole community, from being enacted, these men continue on in their course having nothing in view but the promotion of their own selfish personal Dawson,

· An extraordinary effort is being put forward at the present time by the business men and mining operators o the district to head off the Treadgold grants and to induce the government to provide a water system for supplying the mining district. This action is directly in line with the enunciations made in every political platwritten in the territory in the past six months.

The election of Mr. Ross, the pres ent member for the Dominion house was made ti occasion of many stirring addresser ...om men of all shades of political belief upon the subject and without a dissenting voice it was agreed that the suppression of Treadgold and the establishment of a suitable public water system were .two questions of paramount importance to the whole community.

For the purpose of carrying the views of the people as thus expressed into practical effect, the board of trade of Dawson is taking vigorous steps based upon common sense and thorough understanding of the demands of the situation. The movement is totally devoid of political significance and is designed to furnish for the benest of parliament an expre sion of sentiment from a people who are absolutely and indissolubly united upon the issues at stake.

Nevertheless, there have not been wanting a few who have chosen to belittle the undertaking and question the motives of those who have taken it in hand. We are pleased to be able to say that the number of such men is few and that they are animated solely by selfish purposes. Their claims to leadership of any considerable portion of the community are baseless (witness vote for Beddoe in territorial election) and their in-

fluence is nil This movement is going ahead more strongly every day and when it reaches the climax there will be none left to say that the voice of the people has not spoken.

The small number of men who are willing to sacrifice community interests for the sake of individual purposes, cannot exert any effect worthy of consideration. They cannot and

Dear Friend,-I arrived here this ening all o.k. Found the trail far etter than I expected. Made 41 iles today in 10 hours, and had fully 350 lbs. on my sled,

I met Capt. Perkins bere, commandng 8th Regiment Co. C., and he inioned officers at North Fork statin there was practically no trail at al oute. The captain says it does not interfere with their work in the least r people to travel the government rail, but advises me to go via Circle ity, which I shall do.

There is much water on the, trail ia Good Pasture. Many have killed their dogs and some have already ru hort of supplies and turned back. It s my honest opinion that this is the morning in chambers. Probably the ost feasible route. The trail'is reported good to Circle. It is 10:30 p.m. so will close. With
