A guarryman put a dynamite cartridge near the stove in Mr Bertrand's blacksmith shop at Beauharnois. When Mr. Bertrand came in the cartridge exploded, breaking his back.

Been Intriguing Against Great Britain.

Looks as if the Bother Country Has Been Outwitted Regarding Delagos Hay She Prefers Her bolation—The Charges Against Dr. Jameson—A Big Legal Fight in Sight

Legal Fight in sight

London, Feb. 29.—Certain favored

Conservative journalists have obtained from the Foreign Office a story of what they call the Delagoa Bay plot, which throws the clearest sidelight upon the Boer and German intrigue to secure a foothold at Delagoa Bay, the capital of the Portuguese possessions in East Africa, which would afford the best inlet and outlet to the trade of the Transvaal. There is no doubt of the truth of the story, which is to the effect that just prior to the raid of Dr. Jameson into the Transvaal, a Mr. Mane, a Portuguese concessionaire, who held a frontage on the foreshore of the bay for a distance of seven

Dr. Jameson into the Transvaal, a Mr. Maine, a Portuguese concessionaire, who held a frontage on the foreshore of the bay for a distance of seven miles, onered to sell the concession to Great Britain for £20,000. The Government, through Sir Hercules Hobinson, Governor of Cape Colony and British High Commissioner in South Africa, declined to deal with Milne, as nothing was then known in England of the Transvaal row. Thereupon President Kruger, who for a long time has been making efforts to secure a port for the Transvaal, supplied Seeman & Eliftee, a German firm, with money to purchase the concession, thus giving to German subjects who are entitled to German protection territorial rights on Delagoa Bay. The concession will be actively operfited. Seeman & Eliftee control the trade route outside of the rallway to the Transvaal, and the main routes to Swaziland.

Dr. W. J. Leyds, the Transvaal Secretary of State, before coming to Europe, visited Delagoa Bay and arranged an important part of the Boer-German coup against British possession of that place. As Great Britain would rather go to war than submit her right to pre-empt Delagoa Bay to the decision of a European Congress, the foreshore affair at first sight does not look to be of critical import, as that matter does not seem worth fighting over, but as soon as the award of the Swiss' arbitrators is made in the matter of the Delagoa Bay Railway, which is expected to result in the granting of £50,000 compensation to the American bondholders, Portugal from selling the Province and harbor of Delagoa Bay without giving Great Britain a chance to acquire them, but the Anglo-Portugues convention can be practically annulled by the German Britain a chance to acquire them, but the Anglo-Portuguese convention can be practically annulled by the German Britain a chance to acquire them, but the Anglo-Portuguese convention can be practically annulled by the German Britain a chance to acquire them, but the Anglo-Portuguese convention can be practically annulled by the German Br

ry shaken.
New York, March 1.—Mr. Isaac N.
New York, March London to The Triune: The excitement over Dr. Jameon has subsided as rapidly as it rose,
public comment on the case is excludby the excellent practice of the English press when an important trial is pending. Dr. Jameson, who is naturally a reticent man, has wisely retired from public view, and takes no netice to letters or cards sent to him. The defence will evidently make a great effort to invalidate on technical grounds any indictment based upon the Foreign Enlistment Act. The case of the Crown against Sandoval and others for fitting out an expedition against Venezuela is the only precedent under that act, and it does not run on parallel lines with the invasion of the Transvaal. The court will have to establish its own precedent in the Jameson trial. This fact does not fact the court was considered to the control of the court will have to establish its own precedents in the Jameson trial. This fact does not favor the accused, since there will the Jameson trial. This fact does travor the accused, since there will less quibbling over technical points. Or. Jameson himself is not an ideal go, either in appearance of characture of the service of
