UNCHANGED

Upon thy fervent brow the locks are grey;
Raven they were, when thou to me wert known,
Thy manhood like thy locks since that past day
Hast greyed in strength, hast changed not, gentler grown.

I talk with thee along the market place,
My younger eyes I lift to gaze on thine,
When—marvel of the common world—a face
Bespeaks its silver gilt—a light divine.
Thou feelest life; with might thou serv'st thy land.
It seems that thou canst truly see
Where thine own work and memory shall stand
In the great state and deep that are to be.

—Beaumont Cornell

CANADIAN CHEESE

Canadian cheese is commanding attention by its excellence in the British markets, according to G. G. Publow of Kingston, Chief Dairy Instructor of Eastern Ontario, who has just returned from a six weeks' visit to the Old Country. He saw cheese in London from other countries, and found that the best Canadian product is meeting with a very favorable reception in the English market. The merchants are extremely pleased with its high quality. From present appearances Mr. Publow thinks the English cheese is likely to be short this year, so that good prices will be received for the fall make of Canadian cheese.

LAME BACK

To have a lame back or painful stitches, means disordered Kidneys and the sooner you have the Kidneys and Bladder in a perfectly healthy condition, the sooner you will enjoy life. As far as we know there is only one remedy that is guaranteed to cure you, and that is FIG PILLS. If they don't make you a strong, healthy person in two weeks, your money will be refunded. 25c a box, at all leading drug stores, or mailed on receipt of price by The Fig Pill Co., St. Thomas, Ont.

Perth board of education has discovered that they have not been asking all they have been entitled to for collegiate school purposes from the county council for some years past—about \$1300 a year. Now they are going to ask for payment of arrears.

STOPPING A NOSEBLEED.

By This Method It Is Simply a Matter of Imagination.

In many experiments carried on during the last few years it has been ascertained that the mind controls to a wonderful extent the flow of blood to any particular part of the body. The following experiment has been tried as many as ten times by me and has not failed once.

When the nose starts to bleed, immediately persuade yourself to believe that you are running with all your might up the steepest flight of steps you can think of or up a high hill; that is, just think of doing either of these things and doing it fast. Think at the same time that you are carrying a heavy piece of baggage with both hands and add thoughts of any other bodily exertion. You will be surprised at the quickness with which your trouble ends.

The explanation is that when we really start to run more blood is given to the arteries supplying the muscles of the legs than they were receiving while at rest. This has been proved. As the same thoughts in the mind produce approximately the same bodily effects, if one merely thinks to run, but does not run, the blood will go to the legs anyhow and away from the head, as desired.

There are many common experiences of secretions started by thoughts. If one looks at a lemon and thinks of sucking it his mouth immediately waters, and I have no doubt that many people who read this will have their mouths watering from the simple reading.—Lawrence Hodges in Chicago Record-Herald.

BUFFALO TONGUES.

The Blackfoot Indians Used to Turn Them Into Hairbrushes.

"Walrus whisker toothpicks and buffalo tongue hairbrushes!" the explorer cried.

And he displayed a packet of black toothpicks tied with a strip of red rawhide and a flat black hairbrush that seemed molded out of rubber. "These two articles," said the explorer, "are of strictly native manufacture—native American manufacture. Take the toothpicks first. They are made by the Indians of Alaska. The Indians, whenever they kill a walrus, pluck from his face his long and stiff whiskers, cure them and ship them to the Chinese. At every fashionable Chinese dinner you will see the stately mandarins between each course picking their teeth with these walrus whisker toothpicks.

"It's the Blackfoot Indians who use buffalo tongue hairbrushes. A buffalo's tongue is rough. The spines on it make very good hairbrush bristles. And these bristles in a Blackfoot brush don't come out, for the Blackfoot simply skins his buffalo tongue, cuts it in hairbrush shape, cures it, and there you are.

Every Blackfoot in the past had his buffalo hairbrush. But those days are gone—gone with the buffalo herds—and where in the fifties you could buy a good buffalo tongue brush on the plains for a ladle of puppy dog stew I doubt if you could get one now for a keg of firewater."—Washington Post.

When Empress Eugenie Was Young, I was so lost in admiration of this wonderful Empress Eugenie that in dancing in the royal quadrille with the Russian consul I forgot to make the usual steps. Everything was symmetrically perfect in her, the slender, graceful figure with the beautifully modeled shoulders, which were enhanced by the white dress she wore, profusely embroidered with pearls and silver. Her exquisite shape attracted me perhaps even more than did the classically beautiful head, with the noble regular features and the auburn hair, upon which sparkled a royal diadem. Her charming smile bewitched me as much as did the few friendly words she addressed to me in her melodious voice.—Princess von Racowit's Autobiography.

The Torpedo Fish.

The torpedo fish, known to scientists as the Torpedo electricus, are the electric catfish of the Nile. They can give an electric shock similar to that of an electric Leyden jar. This is useful to the fish in stunning prey and in confounding their enemies. This shock, like any other electricity, may be conducted through a metallic substance and is often unpleasant, though not dangerous. It is conveyed through an iron spear or knife, so that the person holding either of these implements may receive a shock when it comes in contact with the fish.—St. Nicholas.

Giving Them Their Due.
"It was simply a question of veracity between us," said the oldest inhabitant. "He said I was a liar, and I said he was one."
"Humph!" rejoined the village postmaster. "That's the first time I ever heard of either of you telling the truth."—London Mail.

Their Views of It.
He—Did you see the pleased expression on her face when I told her she didn't look any older than her daughter? She—No; I was looking at the expression on her daughter's face.—Detroit Free Press.

When He Buys Chips.
It isn't always patriotism that prompts a man's interest in the red, white and blue. Sometimes it's poker.—Philadelphia Record.

Distinction is the consequence, never the object, of a great mind.—Washington Allston.

A FAIR OF MAGNITUDE

To attempt a description of barely the new features of the approaching Central Canada Fair at Ottawa would require too much of the space of the newspaper. The inventions and novelties of the year, new ideas in farming, manufacturing, domestic science, art, education, in fact every department of human activity will be represented in the spacious pavilions, show rooms and process building of Lansdowne Park. The visitor is very observant indeed who grasps the magnitude of this vast enterprise.

MIDWAY OF MARVELS

The directors of the Ottawa exhibition have broadened the scheme of entertainment. That will be evident from announcements later of the famous vaudeville stars, acrobatic troops, etc., that will appear before the grand stand. The inevitable midway will be more sensational and curious than ever. This rollicking feature will be furnished by the Park Booking Circuit of New York, which means that a gorgeous assemblage of the world's freaks and marvels will be at Ottawa.

A CORONATION SCENE

The night spectacular performance at the Ottawa exhibition will be the most magnificent pyrotechnic display ever attempted in the Capital. Arrangements have been made with the Hand Company, of Hamilton, for a reproduction of the grand naval review as seen at the Coronation of King George V. All the splendor of the great function will be portrayed. Following this a fireworks display showing a host of new creations will be made.

HOMESEEKERS' EXCURSIONS

The Grand Trunk Railway has issued a circular authorizing all Agents in Canada to sell Homeseekers' Excursion tickets to points in Western Canada. This is interesting information for those desiring to take advantage of these excursions on certain dates from April to September 1911. The Grand Trunk Route is the most interesting, taking a passenger through the populated centres of Canada, through Chicago, and thence via Duluth, or through Chicago and the twin cities of Minneapolis and St. Paul. Ask Grand Trunk Agents for further particulars.

THOUSANDS IN PRIZE MONEY

The fact that \$16,000 in regular prize money and over 100 special premiums, many of them gold medals, have been appropriated for encouragement of the agricultural industry, along approved lines, is just ground for making a special appeal to the farming community in regard to participating in the competitions and attending the Ottawa exhibition. Agriculturists and stock breeders are never so far advanced but they may learn and acquire enthusiasm in their calling by attention to the instructive features, object lessons in many sections devoted to their interest. Prize winning animals will parade daily before the grand stand, and judging will also be carried on where those interested may observe. Competitions and lessons in butter making and the establishment of a splendidly equipped cold storage plant for cheese denote the special attention paid to the dairy industry. The scope of importance of the great fair is best indicated by a perusal of the prize list which may be obtained on application to Secretary Ed McMahon, 26 Sparks street, Ottawa. The premiums are the largest ever offered. Last year 90 per cent of those winning medals, exchangeable for cash, preferred the money. Winners of special prizes will be given similar options this year.
