A WARNING NOTE

Montreal, October 21st.—Mr. A. A.
Ayer, president of the A. A. Ayer Co.,
wholesale distributors of dairy pro-
ducts, sharply criticizes what he termed
a nefarious effort on the part of Ameri-
can interests to buy up the dairy cattle
in Eastern Ontario and Quebec at big
prices, and thus impoverish the dairy
market of Canada."It has come to my notice," said
Mr. Ayer, "from various sources, that
United States buyers are raiding the
farmers throughout Eastern Ontario
and points in the Province of Quebec,
buying up whole herds of dairy cattle
and young cattle. The prices they are
paying are so much in advance of what
the farmers have been accustomed to
that the farmers seem to have lost their
heads.""Such thoughtless proceedings by
the farmers will leave our dairy coun-
try impoverished, and will seriously
affect the amount of milk, butter and
cheese available for next year. It is
time, to my mind, that an alarm was
sounded, lest more farmers than have
already done so, will permit American
money to dominate and injure the
dairy cattle market in Canada.""Under the new American tariff
there is no doubt that the dairy farmer
will obtain higher prices next year for
his products than he has been accus-
tomed to secure. If it were possible
to enact a law prohibiting the killing
of heifer calves, our dairy herds could
be increased in a short time, not only
to meet the needs of the milk consum-
ing public, but also to supply the mar-
ket with baby beef. This latter means
fattened calves about one year old.""The dairy business in Canada to-
day is more prosperous than it has
ever been, and it will be regrettable if
American interests are allowed to
interfere with it. I am optimistic
regarding the future of the dairy in-
dustry here in Canada. It is my opin-
ion that there are few farms in Eastern
Ontario or Quebec that under a proper
system of rotation of crops and other
modern farming methods could not be
made to produce double the crops they
now produce, and with the proper
selection of calves as they develop ob-
tain a better grade of cows."

C. P. R. MEN GET PRIZES

Agent at Jack Fish, Lake Super-
ior, WinnerTo have merited the distinction of
having the most beautiful station gar-
den on the whole Lake Superior divi-
sion of the Canadian Pacific Railway
is to have won the admiration of every
stationmaster on the company's lines
reaching from ocean to ocean. This
honor has just been awarded to P. A.
Jack Fish, in winning the general
superintendent's prize of twenty-five
dollars. Since the C. P. R. inaugu-
rated the system of beautifying the
station houses, round houses and sec-
tion houses by supplying seeds and
offering prizes for the best gardens,
competition has become keen among the
officials at various points of the system.
Each year has brought forth better
results until a perfection has been
reached, and now the railway station,
which was ever unsightly, has assumed
the aspect of the Swiss chalet. Each
property by the individuality of its
respective official, has its own unique
characteristics, and is artistic and
wholly beautiful.The other prize-winners of the Lake
Superior division were as follows: J.
W. Chandler, locomotive foreman,
first prize for the best roundhouse
garden, \$10.A. Dre-ri, section foreman, Kama,
first prize for the best section house
garden, \$10.F. Zanna, section foreman, Craigs,
Ont., second prize for the section house
garden, \$5.W. J. Summers, agent, Cache Bay,
first flower garden on district No. 1,
\$10; second prize \$5, won by N. W.
Vansicle, agent, Clamford.District No. 3, first prize, \$10, won
by P. Barr, agent at Pearl; second
prize, \$5, awarded to J. Nicol, at Ross-
port.

A BIG CONTRACT

The General Sales Manager of the
Canada Cement Company Limited,
Montreal, writing Mr. W. G. Parish,
local agent, says:—"Dear Sir,—The following is copy
of telegram just received from our
Toronto office, which explains itself:—
"County Council of Essex decided
last night to submit a by-law for one
million dollars on January 1st for con-
crete roads.""You are quite familiar with the
work that we have been doing in con-
nection with concrete roads and this is
probably one of the biggest appropri-
ations ever considered, and certainly the
largest in Canada for concrete roads.
It is particularly gratifying, as Essex
County is right across from Detroit,
where the people know all about con-
crete, therefore, this cannot be taken,
in any way, as an experiment."

ENORMOUS INCREASE

Subscribers to The Family Herald
and Weekly Star, of Montreal, are re-
newing earlier than ever this season.
The subscription receipts for October
were over 80 per cent. ahead of Oc-
tober 1912. The Family Herald grows
in popularity year after year. It is
the big dollars worth beyond doubt
and deserves its immense circulation.
Any home that does not receive The
Family Herald should give it a trial
for 1913.

SHORT WEIGHTS IN CHEESE

For a considerable time persistent
complaints were made to officers of the
Department of Agriculture at Ottawa
by producers and vendors of dairy pro-
duce in Eastern Ontario and Quebec
regarding the unsatisfactory methods
by which butter and cheese were
weighed in Montreal. So numerous
were the charges and so serious the
allegations that it was considered nec-
essary by the Government to have the
matter properly investigated. Conse-
quently in the summer of 1912 a royal
commission was appointed. The in-
vestigation by this commission covered
several months and involved the tak-
ing of evidence at many points and
from many people who were consid-
ered likely to be able to shed light on
the subject.The report of the commission, con-
sisting of a pamphlet of 17 pages, is
ready to be sent to those who apply
for it to the publications branch of the
Department of Agriculture, at Ottawa.

The Name Lehigh.

On March 6, 1812, Lehigh county
was formed from part of Northampton
county. Its name came from the Le-
high river, being an Indian name de-
rived through the German. The origi-
nal Indian name is said to have been
Le-chau-weech-ink, or Le-chau-week-
i, meaning "the place of the fork of the
road." The German settlers of the
region shortened this into "Lecha,"
which is still in use among the Penn-
sylvania Germans. "Lehigh" is the
English version of "Lecha." Allen-
town, the county seat, was called
Northampton until 1838.—Philadelphia
Record.

Applied Advice.

"I want to buy one of those 'Do It
Now' cards,"
"Sorry," said the clerk, "but we're
out of those cards. We'll have some
printed next week."
"You told me that last week."
At this point the proprietor came for-
ward.
"Print some immediately," he order-
ed, "and tack up about forty of 'em
around here."—Louisville Courier-Jour-
nal.

A Little Oversight.

Minister (approaching the baptismal
font)—The candidate for baptism will
now be presented. Mother of Intend-
ed Candidate (in horrified undertone
to husband)—There. I knew we would
forget something. You run home as
quick as you can and fetch the baby!
—Dallas News.

The Other Kind.

Pater (to indolent son)—Why don't
you go to work? You have attained
your majority.
Son—Yes, dad. But mine isn't a
working majority.—Boston Transcript.

Knew What She Wanted.

"But, my dear madam, there's no use
consulting me about your husband.
I'm a horse doctor."
"That's why I came to you. He's a
chronic kicker."—Life.

Trouble.

Never bear more than one kind of
trouble at a time. Some people bear
three kinds—all they have had, all they
have now and all they expect to have.To remind a man of a kindness com-
mitted is little less than a reproach.—
Demosthenes.

Size of Old Kitchens.

The kitchens of olden times seem
to have been of extraordinary size,
judging from the investigation re-
cently made by an English historical
society. At Hurstmonceux, for ex-
ample, there was a kitchen 28 feet
high, with three huge fireplaces and
a bakehouse with an oven 14 feet in
diameter.

Fewer Now Speak Gaelic.

Census figures show that in the
county of Renfrew, Scotland, the
number of persons who speak Gaelic
is decreasing. In 1901 there
were 5,736 and at present there are
5,587. Only six per cent in the county
speak Gaelic only.How Concrete
Work Was Made
Easy For YouThis label is your assurance of
satisfactory concrete workUNTIL a few years ago farmers considered concrete a rather
mysterious material, that could be used successfully only by
experts. They knew that upon the quality of the cement
depended much of the success of concrete work. They had no
means of testing cement, such as big contractors employ, and so could
not be sure of its quality.

Yet the farmer needed concrete.

He was kept from using this best and most economical of materials by

1. Lack of knowledge of how to mix and place concrete.
2. Lack of a brand of cement upon the quality of which he could absolutely rely.

Canada Cement

has supplied both these requirements.

We employed men to make a thorough investigation of the farmer's
requirements; to find out where and how he could use concrete with
profit to himself; to discover all problems he might come across and to
solve them. This investigation was expensive. But when it was
completed we had the material for our campaign to show the farmer
how and where to use concrete, and we printed a book, "What the
Farmer Can do With Concrete," for free distribution. That book
makes every farmer who reads it a concrete expert, as far as his needs
are concerned. He finds that there is nothing mysterious about con-
crete—that a few simple rules supply all the knowledge required.At the same time we met the farmer's second objection—inability to
test the quality of cement—by producing cement of a quality that
does not need to be tested.The Canada Cement that you buy by the bag is the same Canada
Cement that is sold by the train-load for great elevators, buildings and
bridges.

AUTUMN DAY

A deep silence has settled on the
wood. Across the rill a grey grouse is
drumming on the grey trunk of a fal-
len tree. The grey squirrel is gather-
ing nuts for the winter. The young
deer has changed his summer coat for
one of a sombre hue; a red-brown to
match the autumn leaves. Now the
leaves are falling, unveiling the forest
and opening long avenues through
which we get glimpses of jumping
deer.This is the time to visit the Algon-
quin National Park, a delightful spot
to enjoy a few days rest, study wild
animal life, enjoy autumn in the
forests and gather strength for the
strenuous life ahead during the winter
months.Good accommodation at the High-

Ignominious Dances

Montreal, Oct. 28.—In a sermon at
St. Viateur's church Archbishop Bru-
cheux condemned the tango and kin-
dred dances, and the present immodest
fashions in dress."Vice has ventured beyond its
accustomed haunts into the stronghold
of christian homes," said the Archbish-
op. "The most bare-faced apologist
cannot explain away our shame. Just
at present there are people who seem
not able to enjoy themselves unless
they can indulge in what verges on in-
decency. The ignominious dances are
positively revolting and a disgrace
to our christian society."The public entertainment held on
Wednesday evening last in the town
hall under the auspices of the Women's
Institute proved in every respect high-
ly successful, the large audience thor-
oughly enjoying the excellent pro-
gramme presented. Miss Lucy Web-
ling and Mr. Walter McKaye were the
principal performers and did their
parts well. The local numbers were:
Duet by Misses Earl and Loverin and
vocal solos by Miss Culbert and Mr.
Horsefield. The whole performance
was a pleasing combination of comedy
and high class vocal and instrumen-
tal music.
