EXPELLED

on Canadian Black List

Local booksellers have been informed that the Woman's Physical De velopment, Physical Culture, and Broadway Magazines, and the New York Sunday Telegraph have been placed on the prohibited list of current magazine literature in Canada W. J. Kenny, stationer, when in terviewed on the question by The Planet this morning, said:

"The whole matter arese out of speech made by a certain United States clergyman at a convention in Toronto recently. He made the statement that there is more indecent literature distributed in Canada than in the United States.

"The absurdity of this statement is

very plain when you consider the fact that all of these condemned maga-zines and papers are published in the United States. Our people, I think, have been simply hoodwinked into the idea that Canada is not on a par-with the United States in the respect with the United States in this respec-and hence the action taken. "I, myself, think that the Physical Culture Magazine is one of the best magazines sold in Canada, and I can't see why it was included in the prohibited lists. It treats medically, with the physical development of men

and women. It also deals scientifically with this important question.

"For myself, and I have followed the magazine business for a good many years, I think the matter contained in this Physical Culture Magazine. zine is of much more value than the stuff that is sometimes given us an Munsey's and even Harper's and the

Century magazines.

"As far as Broadway and the New York Sunday Telegraph are concerned, probably it is just as well that they are placed on the prohibited list, as they deal with the stage and nothing else. By the stage I mean the ludicrous portion of it.

"In my opinion, if the United States clergymen wish to suppress these magazines they should strike at the country in which they are published, and not at a place where they are Century magazines.

and not at a place where they are

MR. HUTCHISON'S COURSE.

To the Editor of The Planet:

Sir,-In your report of the meeting of the Directors of the Binder Twine Company, I am reported as having acted on the advice of Mr. J. J. Ross in "holding on to the office and insisting on calling a meeting of the shareholders." This is not correct. At the meeting on Friday night I was asked to resign, and the present "acting" Board, would reorganize by putting a man in my place. My answer was that the proper course was to have the defective by-law properly executed and call a meeting of the shareholders and let them decide on a Board of Directors who will have their confidence. The solicitor agreed with me, but said that valuable time would be lost in having the factory idle. I asked time to consult as many shareholders as possible. Mr. Ross agreed with me that I was taking the proper course, but asked me to use my own judgment. A great many others pressed me strongly to adhere to the above mentioned course, and they would stand by me, asl it was the honorable course to pursue under the circumstances. I also stated

that I took the whole responsibility of my course on myself.

The following is a copy of a resolution I wrote and requested to be placed in the minutes of the meeting:
Moved by Hutchison,

Seconded by Mr. . That the Secretary of this Company be and is hereby instructed to send a copy of By-law No. 1, passed at the annual meeting on the 11th day of January, 1902, to the Provincial Sec-retary and also to have it published in the Onfario Gazette, as required by statute, so that the same may appear in the Gazette on the 29th inst. Also that he (the Secretary) be and is hereby instructed to call a meeting of the shareholders of the Company forth-with in order that a properly consti-tuted Board of Directors may be elected to manage the affairs of this
