ADVERTISE IN THE PLANET

A MUTINY OF OUR OWN

Twenty-Four of Crew of Dominion Cruiser Canada Leave.

Unkind Misleading of an Unfortunate Contemporary—Must Improve Business and Journalistic Methods

Otherwise Will be Supplanted.—Regrettable Record of Failure and Disappointment—The Secret of True Success

Surely it should soon become a criminal offence to joke with our poor, old, antiquated contemporary down the street. Not content with its bath-tub sleeping fake, or the wild yarn about the Dagoes bathing in the sedimentation basin, somebody has cruelly told it a yarn about a "new Conservative paper," and the poor old thing bites to the extent of another double-column front-page article.

What makes the joke an exceptionally unkind one is that, as is known in the inner circles, there has been for some months movement on foot to start a new paper to supplant the Banner itself. From the time of its bankruptcy it has fallen away so rapidly that public confidence in the institution has reached the zero point. Three times its name has been changed or hyphenated without success, and even efforts to form a joint stock company and get the business out of the hole have failed. With the business wreckage the character of the paper deteriorated and as a news publisher it has long since been a source for sympathetic regret. Unkind humorists have taken advantage of it, and its hopeless position has left it incapable of dealing with them. Its misconduct from a party standpoint helped materially in the loss of the constituency to the Liberal interests, and there has since been a strong and somewhat outspoken public sentiment that the sooner the institution is again allowed to go to the wall the better it will be in a journalistic sense, for the public.

And it is to this unfortunate paper that unkind and thoughtless persons are going with their misleading tales as to the origin and character of the publication that is to prove its tombstone.

STILL AFLOAT.

Kniaz Potemkin Unreported For a Day, But Black Sea Fleet Is Not on Her Trail.

St. Petersburg, July 8.—According to the latest reports the Kniaz Potemkin has escaped her pursuers, and is still at large in the Black Sea with the torpedo boat destroyer Smeltoviy and the Black Sea fleet. She is not on her trail. There is little doubt that she is heading for Port or Batoum, but no despatches from either place had been received up to 2 o'clock this morning.

Advised received by the Associated Press indicate that the tension is increasing in the Caucasus where the turbulent elements are excited over reports regarding the condition of the fleet.

To Take or Destroy.

Odesa, July 8.—Admiral Choukhin has telegraphed the Governor-General of Odesa that the Black Sea fleet has been ordered to capture or destroy the Kniaz Potemkin.

Theodora Protected New.

Theodora, July 8.—Russian warship has arrived to protect the town. The inhabitants, who fled while the Kniaz Potemkin was in port, are returning.

Investigating Mutiny.

Sebastopol, July 8.—A naval magistrate is investigating a mutiny on the transport Prout.

Linevitch Has Trouble.

London, July 8.—The Tokyo correspondent of The Daily Telegraph declares that Gen. Linevitch has been sentenced several Russian officers to death for circulating seditious circulars and, on the authority of the paper's Japanese correspondent at Moji, Japan, asserts that all Poles and Jews in Linevitch's army are mutinous and are constantly turning their backs as to enjoy a pleasant captivity as prisoners of Japan.

SHIPBUILDER IS LOST IN RUSSIA.

New York Friends of Lewis Nixon Are Now Getting Anxious.

New York, July 8.—Failure to receive answers to cablegrams sent to Lewis Nixon, head of the Perth Amboy Shipbuilding and Engineering Co., who went to Russia to reconstruct the navy for that country has caused apprehension among Mr. Nixon's friends in America, especially as it is pointed out that he has completed several warships that may be used against the mutineers.

In St. Petersburg it was announced Thursday that the shipbuilder's silence was probably due to the rigid censorship maintained there, and not to any danger to himself.

Four hundred fighting vessels of all classes, it is reported are to be built under the personal direction of the American shipbuilder in as short a time as possible.

SHALL THERE BE

A NEW PAPER?

Unkind Misleading of an Unfortunate Contemporary—Must Improve Business and Journalistic Methods

Otherwise Will be Supplanted.—Regrettable Record of Failure and Disappointment—The Secret of True Success

Surely it should soon become a criminal offence to joke with our poor, old, antiquated contemporary down the street.
