PICTURES! Have you any to be framed? Bring them to the Wolfville Bookstore.

The steamer Boston, of the Yarmouth line, is now undergoing repairs and will go on the route the first of July. After that time the company will run four trips a week. They are booming Nova Scotia as a summer resort, and expect a large travel this season.

Store to Rent—One of the best stands in town. Apply to Rockwell & Co. 37

We understand that Mr. W. H. Chase has purchased a lot from Mr. A. A. Pine, next the Baptist parsonage property, and intends erecting a residence on it. We hope the rumor is true and that we may soon have the pleasure of welcoming Mr. Chase to Wolfville.

An Ottawa gentleman saw Lord Aberdeen at Chicago, Thursday night. He had just received official notification of his appointment as governor-general. He and the Countess sail from New York for England next Saturday, and have for Canada September 1st.

The largest variety of goods ever shown in Kentville can now be seen at W. I. Grono's, Merchant Tailor, "Margeson's Block."

The W. & A. R., or, as we suppose they may soon be called, the Dominion Atlantic Railway Co., have arranged to run a daily steamer from Parrsboro to Kentport, connecting with the Cornwallis Valley Branch and Dominion Atlantic Railway to Yarmouth. This will be a great convenience for the people of Cumberland County to connect with the fast train from Kentville to Yarmouth and steamer to Boston.

Elegant line cheap Gilt Papers and Engravings—just received at the Wolfville Bookstore.

We would call attention to the advertisement in another column, TO BUILDERS. The Rathbun Company is probably the largest concern in their line in the Dominion, having branch offices in all the principal cities in the Dominion and a number in the United States. They have been supplying house furnishings to builders in this town and elsewhere in Nova Scotia for the past two or three seasons, and have established an enviable reputation for the superiority of their stock as well as moderate prices. This company also ships very largely to England and we understand from Mr. Starr the business is constantly increasing.

CORRESPONDENCE.

MR. EDITOR.—In harmony with the wisdom of public opinion with regard to cattle and horses "at large" on our streets, the Wolfville Fruit Land Improvement Co. decided that they will not erect or permit the building of fences along their streets and avenues throughout their park properties. This will leave unfenced their extensive areas of gardens and orchards always subject to injury from roaming animals. I am the possessor of cows and horses and, like other animals of their kind, they are fond of rich grass, fruit buds, leaves of our most valuable trees, or relieving their itchiness against the stems and branches. The occasional rolling of a horse in our flower garden is not the scientific way of firmly packing the soil about the seeds, or the footmark of a quadruped, leaving an impression the year cannot efface. If these animals are seen at large, and they may inadvertently be there, looking for "pastures new," it will be the duty of all good citizens to report them to the proper town officer and inflict a fine with damages at fifty cents for first offence and double the amount for each and every repetition. By such an authoritative method, this growing loss and annoyance would cease, while a larger flow of good feeling would be perpetuated among us. The economy of enclosure for all animals in pasturage is imperative, while the appearance of our meadows and gardens when unmarred by wooden fences, costly or otherwise, is becoming more and more appreciated.

MR. EDITOR.—California is a lovely country, the sick get well, the poor get rich, cyclones and frosts are practically unknown. A hundred to three hundred dollars per acre is made each year on fruit and irrigated land. The Hon. Jeremiah Bank says, "Truly California is a poor man's paradise." To five-acre holders the California Land and Water Exchange, of Dayton, O., give a free return ticket to view the property. Why should anyone be poor when such a chance remains open and you do not have to do any labor or work to get the profits, and do not have to leave home. Write them to-day and get full particulars.

Th Fuller & Warren Company's system of heating and ventilation, which is in extensive use in the United States, is now being introduced into Canada by the Robb Engineering Co., Amherst, Nova Scotia, having been installed during the past few months in new school buildings in three towns in Nova Scotia—Amherst, Yarmouth and Wolfville. It speaks very highly for this system that it is in use in a large number of the best schools in Massachusetts, where legal enactments have made it imperative to comply with the highest attainable sanitation.—Canadian Architect and Builder.

Parties from Wolfville ordering a new suit from W. I. Grono, Kentville, will be allowed a return ticket.
