

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked by Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physicians." This statement should be qualified: women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

It is a terrible ordeal to a delicate, sensitive, refined woman to be obliged to answer certain questions when those questions are asked even by her family physician. This is especially the case with unmarried women.

It is any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of grateful letters received by her prove. Many such letters are as follows:

Madame Alfred Arcand of 414 Dorchester Street, Montreal, Can., writes: Dear Mrs. Pinkham—

"Your Vegetable Compound was such a blessing in disguise to me that I am only too pleased to give my testimonial. About a year ago I contracted a severe cold at a critical time, which caused my periods to cease. I had very severe pains and sick spells, and this continued for several months with no abatement. Finally I decided to try your Vegetable Compound. After two weeks I became regular, had very little pain in the second month, and in three months' time I was restored to health. I consider your Vegetable Compound well worthy of praise."

Zula Eeclison, of 6 Erie Street, East, St. Thomas, Ont. writes:

Dear Mrs. Pinkham—

"I heartily recommend Lydia E. Pinkham's Vegetable Compound as a tonic and regulator for female troubles. I suffered for four years with displacement and no one but those who have experienced this dreadful agony can form any idea of the physical and mental suffering those endure who are thus afflicted. Your Vegetable Compound cured me. Within three months I was fully restored to health and strength, and now my periods are regular and painless, and now a blessing it is to obtain such relief when so many doctors fail to help you. Your medicine is better than any doctor or medicine I ever had."

No other medicine in the world has received such widespread and unequalled endorsement.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass. She is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

\$25,000 FOR HORSES AND SHEEP BILL INTRODUCED IN HOUSE

Heavy Draught Mares to Be Procured and Sold by Public Auction in Several Places in the Province—Attempt to Encourage Sheep Breeding—Mr. Flemming Believed That More Good Would Be Effected in Aiding Agricultural Societies.

The bill to provide for the importation of horses and sheep was next taken up.

Hon. Mr. Farris explained that the bill was in fulfillment of the promise contained in the speech from the throne. There was great need of some more horses of the heavy draught type in the province, and with a view to supply this it was proposed to import a number of high class mares, which would be sold and distributed among farmers throughout the province. It also provided for the importation of sheep, which it was generally admitted was necessary. It provided to appropriate \$25,000 for the purpose.

Mr. Flemming said the bill required very careful consideration. On previous occasions the government had made similar importations which had evoked a great deal of criticism, sometimes without reason, sometimes with reason, and the question of any further importation should be approached with very great caution.

There were numbers of farmers in the province engaged in producing pure bred stock and the government, in importing stock into direct competition with these men.

He thought there was plenty of pure bred stock to be got in the province, and he saw no urgent necessity for importing any from outside sources. He would like to see some encouragement given to agricultural societies to import for themselves. There were a lot of such societies in the province, comprising a number of most progressive and up-to-date farmers, and their opinion of their own requirements should be the best evidence. He would like to see grants made to these societies for the purpose. Let the government give a dollar for a dollar what the societies were prepared to give themselves and thus allow the societies to import what stock they thought best. This plan he thought would result in the bringing in of a large amount of pure bred stock into the province.

Mr. Smith enquired under what terms the government proposed to dispose of the animals so imported.

Hon. Mr. Farris said they would be sold by public auction in two or three places in the province, so that the farmers and members of the agricultural societies could come in and inspect the animals and buy if they thought fit. The only restriction would be that they must be kept in the province. After some further short discussion the bill was agreed to.

Do You Like Honest, Square Dealing?

Dr. Pierce's world-famed medicines are put out under the belief that publicity is the best possible guaranty of merit, and that the most intelligent people generally want to know what they take into their stomachs, whether it be as food, drink or medicine. Although it was a bold step to take, and quite out of the usual practice of makers of proprietary medicines, yet Dr. Pierce, some time ago, decided to publish broadcast and on all his bottle-wrappers all the ingredients entering into the composition, or make-up, of his celebrated family medicines. A square deal is therefore assured every one using his medicines, for one knows exactly what he or she is paying for when purchasing them, since every ingredient is published in plain English on the bottle-wrappers and the correctness of the same attested under solemn oath. These several ingredients are selected from among the very best known to medical science for the cure of the various diseases for which these medicines are recommended.

The most eminent and leading medical teachers and writers of all the several schools of practice have endorsed each of the ingredients entering into Dr. Pierce's medicines in the strongest possible terms. The makers of Dr. Pierce's medicines believe that intelligent people do not wish to open their mouths like a lot of young birds and gulp down whatever is presented to them, either in the way of food, drink or medicine, without knowing something of the properties and harmless character of the agents employed. They believe that health is too sacred a thing to be experimented with, and that people should not take medicines of the composition of which they are kept in ignorance. Dr. Pierce's medicines are made wholly from the roots of plants found growing in the depths of our American forests. They are so compounded that they cannot do harm in any case, even to the most delicate woman or child. By open publicity Dr. Pierce has taken his medicines out of the list of secret nostrums, of doubtful merit, and made them remedies of known composition.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

There is a *badge of honesty* on every bottle of Dr. Pierce's medicines in the full list of its ingredients fully attested as correct under solemn oath.

No other medicines put up for general use through drug stores can make claim to any such distinction, and none other than Dr. Pierce's medicines have any such professional endorsement of their ingredients. Such professional endorsement should have far more weight with the afflicted than any amount of lay, or non-professional, endorsement, or testimonials.

Of course, the exact proportion of each ingredient used in Dr. Pierce's medicines as well as the working formula or manner of preparing the same, and the specially devised apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may be fully protected from such unprincipled imitators as might be piratically inclined.

The preparation of these medicines without the use of a drop of alcohol, so

generally employed and yet so harmful, in the long run, to most invalids when its use is long continued, even in small doses, cost Dr. Pierce several years of careful study and labor, with the aid of skilled pharmacists and chemists to assist him. Naturally, he does not care to give away his scientific and exact processes for preparing these medicines, but he does want to deal in the most open manner with all his patrons and patients, and under this frank, open and honest way of dealing, they may know exactly what they are taking when using his medicines.

What Do They Cure? This question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative and healing way upon all the mucous lining surfaces as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhoea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in effecting cures.

"The Favorite Prescription" is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities incident to women. It is a powerful yet gently acting invigorating tonic and strengthening nerve. For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address as above.

Carefully Milled From The Finest No. 1 Manitoba and Ontario Red Winter Wheat

OUR method of combining the finest No. 1 Manitoba with Red Winter Wheat so as to make the most perfect bread and pastry flour—so as to retain both the nutriment of the Manitoba and delicate flavor of the Red Winter Wheat—would be wasted if our milling process was not so absolutely perfect.

The extreme care we take in milling "Kent Mills" Gold Medal Flour might seem unnecessary to the casual visitor to our big plant.

The most improved devices for manufacturing flour are used.

You should see our immense rollers in operation. These gradually reduce the wheat to flour—do not crush it to powder and take the life and nutriment out of it as in the old fashioned way.

By our improved system the gluten and starch cells are carefully and entirely separated from the indigestible bran and cellulosic coats, and partially crushed into myriads of tiny, sharp, white granules of uniform size.

Not a grain of the wheat germ, which impairs the keeping qualities of the flour, or any other substance that shouldn't be there, can possibly get into "Kent Mills" Gold Medal Flour.

It's always uniform, always dependable—the highest grade, most satisfactory flour for household use.

Order from your grocer today.

Every bag or barrel "Kent Mills" Flour guaranteed by both the manufacturer and dealer.

"Kent Mills" Flour

Some people are so glib and hearty that they are regular moving health resorts.

EMACK BROTHERS

MAY ESTABLISH STEEL CAR WORKS

Port Arthur, March 19.—Ex Ald. Sigars, who has just returned from the East, says that D. D. Mann, assured him there was nothing in the report that Mackenzie & Mann were going to establish steel car works at Hamilton. His company, added Mr. Mann, were not likely to place works where they would have to buy material from other furnaces, when they were just completing a furnace at Port Arthur. He also stated that if the local furnace proved the success they anticipated his firm would establish at Port Arthur blast furnaces, using the products of the furnaces.

KINGS DEBATERS TO BE BANQUETTED

The citizens of the city of Fredericton are requested not to forget the Intercollegiate Debate to be held in the Opera House on Thursday evening of this week, March 21st. The U. N. B. debaters had their last trial debate in the University Library last evening and acquitted themselves well. The King's debaters arrive by the S.N. train tomorrow evening and will be registered at Windsor Hall during their stay here.

Lieut. Governor Tesedie will act as chairman of the debate and it is expected to be well up to the standard of other years. After the contest the visitors will be guests of the U. N. B. students at Windsor Hall. Get your seats for the debate at McMurray's before they are all taken.

TRACY STATION.

Tracy Station, March 16.—A surprise party of twenty-five persons presented Mrs. Lavina McFarland with \$11 cash and a barrel of flour, also other goods, on the 12th, and spent a pleasant evening. Refreshments were served.

Mrs. M. Currie and Mrs. J. H. McClure visited Mrs. Jas. Wilson, who is very ill at Harvey, on the 12th.

Mr. John McClary attended the funeral of Mr. A. Bradley at Harthand last Wednesday.

Mrs. Fred Grass returned home to Danforth, Me., after a visit here last Wednesday.

Mr. and Mrs. Maunsel S. Tracy were here on the 13th en route for Medicine Hat, Alberta, where Mrs. Tracy has a position as engineer. They will visit several cities along the C. P. R.

Mr. Parker B. Nason's horse ran away the other evening and threw Mr. Nason out, but did not cause any serious damage, as both fell in the snow.

Mrs. Adelbert Webb and son, of Marysville, visited friends here recently.

Mr. and Mrs. Wm. Parent of Upper Queensbury visited Mrs. Parent's sister, Mrs. C. B. Tracy, this week.

PERSONAL.

Mr. Robert Maxwell, M. P. P. of St. John, is in the city today, a guest at the Barker House.

NEW GOODS

ARRIVING DAILY

We have a few Men's Fur Coats left and a few Ladies Fur Collars that we would like to dispose of now. You can save many dollars by buying now.

Mr. Fickler & Co.

DOWN TOWN

Mayor Snodgrass, of St. Andrews, is registered at the Barker House today.

Mr. V. V. Bellevue, Montreal, is a guest at the Barker House.

Mr. R. K. Oliver, master mechanic of the C. P. R. at McAdam, is a guest at the Barker House.

Mr. J. D. Palmer, St. John, is a guest at the Queen.

Mr. J. C. Hartley, the well known Woodstock barrister, is registered at the Barker.

Mr. L. C. McClure, Toronto, is a guest at the Queen.
