The appointment of W. R. Leckie as City Treasurer and W. W. Main as as-sistant City Treasurer, the former at 82,000 and the latter at \$1,500 a year, will be the important business for the City Council to-night. The appointment of a member on the Cemetery Board will also come up. James Smith, the retiring member, is again reported to have left appointed in his place.

There is some wonder among members of the Board of Works about the clause in the Board's report for Council to-night dealing with the substitution of Gas lamps for some of the eleccil to-night deaning tion of Gas lamps for some of his election of Gas lamps for some of his election of Gas lamps for some of the lights. City Engineer Barrow was waited upon this morning by a deputation which is anxious to have a sewer constructed on Garth street, south of Aberdeen avenue. The street is the dividing line between the city and county but Mr. Barrow was assured that the people in the county would be prepared to pay their nes, the nights, have retained to the county would be prepared to pay their proportion of the cost. He will prepare an estimate and the promoters will present a petition in the usual way.

This morning City Engineer Barrow went to the Waterworks yard and investigated the complaint about employees doing plumbing jobs while out at their work, and receiving pay therefor. He found that there was little cause for complaint, although some of the men had done such work as putting on washers, etc., for friends. He notified them all that nothing of that sort must be done in the future.

### Late Sporting News

The demand for seats for the wrestling match between Acton's "Unknown" and Jack Defrain, of Pittsburg, at the Star Theatre, to-night, has been such first two rows. Defrain arrived from the mines this morning, and is a husky looking fellow. He appears to be a heavier man than the Ajex, but claims that he is not. The unknown has gaired a great deal of science. Everyon has the strength, which, with science, will make im a world beater.

As a preliminary, Bobby White and Chief Montour will meet, the latter agreeing to throw White twice in half an hour.

CAMERON BROTHERS ON THE ICE

USED FOR ITS COOLING. Cameron Brothers write to the Times regarding the source of the ice used for cooling purposes by Mr. Peter Rey, the new contractor. Some of the statem at smade are not such as the Times cares to take the responsibility of making, hence the letter is not published. They state however, most emphatically that they never "took or used an ounce of ree" from thes "spring creek" whence it vas stated Mr. Ray took his supply, but, they add, "got their ice from Lake Medad, and from the open bay, within the limits so carefully laid out by tamong others) Medical Health Officer Langrill, who was very particular about the city's supply of milk in those days."

The Times does not purpose saying or doing anything to prejudice either of the parties to this controversy. It understands that wherever the ice may come from it is so used that it never comes into contact with the milk, and that the Hospital authorities have satisfied themselves of the safety of the cooling system. Cameron Brothers write to the Ti
