Cooper's New Buggy FOR 1897 IS A BEAUTY!

It is three inches lower than ever. Particular pains taken with the painting. Wheels are best quality and have been well seasoned. Can give you SOLID BACK SEAT or open back. Both are high and comfortable. Tops are made of better material and finished nicer. In fact our buggy for 97 is without doubt the best for the money ever sold in Fredericton. If you are going to buy a buggy call and see ours before you buy.

Frank L. Cooper, Box 51, Fredericton, N. B. Repainting and Painting done in first-class style.

TO THOSE WHO THINK

Of equipping themselves with a business education, we wish to say that our Actual Business Training is something altogether different from the ordinary theoretical bookkeeping course of business colleges. If you attend our school, you will not be filled up with a lot of impractical theories, but will be trained in the real duties of the business office by practical accountants.

Thousands Lost.

SAVANNAH, Nov. 29.—The typhoon which swept over the Philippine Islands on October 6, as reported, was the cause of one of the worst disasters that has been reported from the China and Southern oceans for many years.

Thousands of lives were lost, including those of many Europeans, and the damage to property was something appalling. Telegraphic advices concerning the calamity have been very meagre.

The difficulty of getting news from the islands is great at any time, and owing to the remoteness of some of the provinces visited by the hurricane full details of the storm did not reach Hong Kong until the first of November. The steamer Gaelic, from the Orient, Saturday, brought letters and papers which contain accounts of the ravages of the tidal waves and winds.

Several towns were swept or blown away. Fully four hundred Europeans and natives perished. It is estimated that 6,000 natives perished.

The hurricane struck the island at the Bay of Santa Paula, in the Province of Samar. It devastated the entire southern portion of the island, and cut off communication with the rest of the world for two days. On the 12th, the hurricane reached Leyte, and struck the capital of Tacloban with great fury. In less than half an hour this town was a mass of ruins. The natives were panic-stricken, and tried to make their way to clear ground. Four hundred of them were buried beneath the debris of wrecked buildings, and 126 corpses of Europeans were recovered from the ruins when the native authorities instituted a search for the dead.

Reports from the southern coast show that a score of small trading vessels and two Sydney traders were blown ashore and the crews drowned. The sea at San Jose swept inland nearly a mile, destroying property valued at several million dollars, and causing a great number of deaths among the natives.

Big St. Louis Fire.

ST. LOUIS, Dec. 1.—Fire was discovered in the F. O. Sawyer & Co. paper factory, on Locust street, at 2:30 o'clock this afternoon, and within an hour the establishment was in ruins and a number of adjoining buildings were badly damaged. The general loss is estimated at over \$200,000. The Sawyer factory contained highly inflammable material, and soon after the fire started it was a roaring furnace, the fire communicating across the narrow street to the Economic Bindery plant, and to the buildings occupied by Young-McKinney Printing Co., the Missouri Engraving Co., Woodward-Tiernan Printing Co., and Higging Map Printing Co.

A general alarm was turned in, but the network of wires and the narrowness of the street hindered the firemen. Three hundred employes in the paper factory all escaped in safety.

At 4:30 the walls of the paper factory fell, crushing in the McKinney Co's plant. At 5 o'clock the flames were under control. The fire will continue to burn all night, however, feeding upon the printers' ink and paper. While running to the fire, a hose reel collided with a street car and Finly Bruce, the driver,

had three ribs broken. As night fell the firemen worked in total darkness, as the electric lights wires were down. It is claimed that all the companies were fully insured.

Stage Line to the Klondyke.

GREAT FALLS, Mont., Nov. 29.—H. Lowther, an Englishman and nephew of Lord Londale, accompanied by J. B. Heiton of London, arrived here yesterday and left tonight for Fort Edmonton, where, as representatives of an English company, they will establish a fast stage line to Dawson City. The route is an entirely new one and will be less than 1200 miles. Regarding its course they refuse to speak further than that a portion of it will be along the Mackenzie river. The line will be in operation early next spring and the trip will occupy less than twenty days. While here they purchased from the Sunnyside Ranch 600 horses and engaged John Webber as superintendent of the line. Taverns for the accommodation of the passengers and relay stations will be erected along the route, and an effort will be made to establish two sites. The company they represent is capitalized at \$2,000,000.

NOVA SCOTIA MURDER CASE.

TRURO, N. S., Dec. 1.—At 11:30 o'clock this morning a jury was formed to try the boy Datta for murder of the Armenian pedlar. Only two witnesses were examined up to 12:45, the first being a surveyor, who gave a detailed description of the location and its landmarks, the second Eddie Dickenson, who described the finding of the body.

At 12:40 Dr. Muir, the coroner, was called. He went over the details of the examination of the body on the 26th of last September. A most gruesome exhibition was the clothing of the dead man, which was shown to the jury. The shoe holes in the clothing and the dried blood of the deceased were observed by all in the court room.

A Horrible Story.

Oliver Prevost, alias Gauthier, lately sentenced by Judge Armour to seven years for stealing pork and furs at Renfrew, made a terrible confession to Court Attorney Metcalfe at Pembroke, Ont., on Saturday last. Some time ago he left his wife and went off with Miss Gauthier from Valleyfield, Que. Assuming Gauthier's name they went to Port Arthur and started hotel keeping. Two men named Rene Dohin and Frud Carriere lived in a shanty near the hotel. The man called Prevost on Feb. 10th, last, to trade some pigs and they remained for supper. Prevost says the woman (Gauthier) put poison in the tea for the men, but would not give him any tea. Both men left the table before their meal was finished. One dropped dead in the house, the other immediately on reaching the door. Realizing they would be arrested for murder, and to screen themselves, they placed the bodies on a sleigh, took them to their shanty and laid them on their bed. After reaching there and taking what money they found, they set the place on fire and cremated the bodies.

Prevost says he frequently quarrelled with Mrs. Gauthier, so much in fact, that he would poison him also as she told him she always kept poison on hand. Mrs. Gauthier deserted Prevost and returned to her husband at Valleyfield.

Pembroke, Ont., November 29.—Madame Gauthier, of Valleyfield charged with murdering two men at Port Arthur, Ont., was arraigned before Police Magistrate Mitchell here this morning, and at the request of the Crown remanded. She has a statement somewhat different from that made by Prevost, the man with whom she was living. Prevost claims that the man was poisoned by Mrs. Gauthier, while Mrs. Gauthier, says that Prevost confessed to her of having shot the two men in their shanty and then burning the building to cover up his crime. As in the Portier case, each tries to fasten the crime upon the other, but the net result of the confessions made by the man and woman place beyond doubt the fact that Carriere and Dohin were murdered by Prevost or Mrs. Gauthier, or both in conspiracy, probably the latter surmise is correct. Detective Rogers, of Toronto, is working on the case.

Too Much Snow in the Woods.

BATHURST, Nov. 29.—Up to the present there has been no sledding between Bathurst and Shippegan, although in the vicinity of South Tatagouche there is three feet of snow, so much in fact, that the lumbermen were obliged to return home, owing to the unfrozen state of the ground and depth of snow, which made work impossible.

Australian Union.

BRISBANE, Queensland, Nov. 30.—The colonial Legislature, by a vote of 21 against 17, has rejected the federation enabling bill introduced by the Premier, Sir Hugh Muir Nelson.

THE DIVINE IDEAL.

Sound Health an Essential in Reaching the Great Goal.

PAINE'S CELERY COMPOUND BESTOWS THAT BLESSING.

Its Use Means Vigorous Manhood and Womanhood With Clear and Active Brain.

THE GREAT COMPOUND KEEPS THE BODY IN PERFECT CONDITION.

The illustrious German philosopher Kant says: "There is within every mind a divine ideal, the type after which he was created, the germs of a perfect person."

It is true that the never men and women approach the divine ideal the more earthly happiness will they enjoy. In order to march steadily onward to the great goal set before all, men and women must be physically sound. Purity of heart and grand elevation of mind will never accomplish the great victory if the body be sick and diseased.

Those who aspire to true manhood and womanhood are the men and women who take the precaution to banish the very first symptoms of disease. That tired feeling you experience from day to day; that nervous headache you dread so much; that "can't sleep" condition that makes you weak and wretched; the pains in side and back indicating kidney disease; the sharp twinges of rheumatism and neuralgia that makes life a misery; that constipated habit that is sending poison into your life blood—all these varied symptoms lead to disease and death unless they are banished.

Paine's Celery Compound puts the out-of-gear physical machinery in perfect working condition and gives that greatest of all gifts—good health. This marvelous medicine is a food that perfectly nourishes the nerves, tissues and blood; it brings strength and vigor to the limbs, gives the eyes their natural brilliancy, and brings clearness and energy to the brain.

Paine's Celery Compound, as a medicine for the ordinary ills of every day life, is as far removed from the common pills, narcotics, biters and sarsaparillas as the diamond is from the ordinary window glass. The people prize it, all honest men and women speak in its favor, and the ablest doctors prescribe it. If you are tired and enjoying life, try what Paine's Celery will do for you.

WILD WILLIAM.

NEW YORK, Nov. 29.—Harold Frederic cables to the Times: "The categorical assertion in Sweden that Kaiser William had declared in conversation with Swedish statesmen 'if the Norwegians carry too far their disloyalty to their King I will crush Norway as I crushed Greece' is only the latest sample of the sort of thing that Germans have to continually hear about their surprising sovereign. They no longer find this interesting, much less amusing. In truth, they are tired to death of it. There are new and big budgets of tales of his more or less private eccentricities, which add their little to the general impression that he will sooner or later 'go queer' altogether. This feeling reflects itself in the popular view of everything he does. One would suppose, for instance, that his sentimental seizure of a Chinese post and the sitting out of two Pacific squadrons with his only brother-in-command of one of them to support this remarkable step would at least gratify the commercial classes of Germany. It is in Hamburg and Bremen, among the exporting people however, that this wild performance is most sharply criticized. They say openly there that he is a madman who will undo all that has been done since 1871 to create German commerce and industry if somebody does not stop him. It is still purely a matter of conjecture if Russia's consent has been secured for this Chinese occupation, though the tone of the comment of the Russian press points to the contrary. Of course England does not like it, but for her to say so just now would be the most welcome gift to William's political mill.

Another Murder Reported.

Bethier, En Haut, Que., November 29.—A report from St. Jean de Matha, near this place, states that a case of child murder has occurred there. The guilty party is, it is rumored here, a young woman aged 19, who made away with an infant, aged 18 months. The coroner has gone to investigate.

The child was poisoned, it is alleged. The father of the girl, whose name is Blas; has been put in goal at Joliette, along with his daughter.

First of Mail Steamers

ST. JOHN, Nov. 30.—The Beaver liner Gallia, the first of the mail steamers, arrived about 4 o'clock this afternoon. She had 220 passengers, who were sent forward on the C. P. R. to-night. The Gallia has over 1000 tons of freight which will be forwarded west with all possible despatch.
