OFFICIAL.
 LONDON, July 3.
 The Governor, Newfoundland:
 In the Gallipoli Peninsula, on the night of the 29th, we repulsed two severe attacks with heavy losses. Not morning the French captured a strongly-entrenched system known as the Quadrilla, thus completing the gains of the 21st. Enemy losses everywhere were very considerable.
 The French Government report continuous and desperate fighting in the Argonne. All French positions were maintained. After three attacks at Hiltgenfirst in Alsace, the Germans obtained a footing in the French works, but the positions were captured by a counter-attack.
 The Russian Government report enemy progress between Wieprz and the Bug and on the left bank of the Gula Lipa River. The Russians are fighting successful rearguard actions, and captured 2,000 prisoners in one counter-attack.
 Italian progress continues on the Isonzo and at other points.

ON THE WESTERN FRONT.

PARIS, July 3.
 The French War Office to-day gave out the following statement: Fighting continued all last night in the Argonne with the usual stubbornness. We maintained our positions, and we inflicted very heavy losses on the enemy. In the region of Metzeral two fresh attacks against our positions at Crete, situated to the east of this village, have been repulsed. Along the remainder of the front there has been a very active cannonade, guns of all calibre taking part. Shells thrown into Arras started some fires, but the flames were placed under control.
 French aviators successfully bombarded from the air, the railroad stations at Halleringe, Zearen and Langemarck, as well as certain German batteries at Viny and at Beaurains.

FRENCH COMMANDER WOUNDED.

PARIS, via St. Pierre, July 3.
 An increasing activity of German artillery fire is reported, especially in Belgium, in Neuville, Ecarie, and Roclincoart districts, and also on the Somme front. Our batteries also shelled German works on the right banks of the Aisne. In the Somme, Troyon districts, and in the Perches, Beaussart, from mining operations are reported. In the Arras...

"DAMP WEATHER."

It requires a strong constitution to stand against the weather we have had for such a long time. If you have been one of the unfortunate persons to have contracted a Cough or Cold, don't wait until it settles on your lungs. Take it in time.
 Try Stafford's Phorofone Cough and Cold Cure. It is the best preparation for all kinds of Coughs, Colds, Bronchitis, Asthma and various Lung Troubles.
 Price 25 cts. Postage 5 cts. extra. Prepared only by:
DR. F. STAFFORD & SON,
 St. John's, Nfld.
 Manufacturers of the 3 specialties,
STAFFORD'S LIMENT.
STAFFORD'S PRESCRIPTION 437
STAFFORD'S PHOROFONE
COUGH CURE.

GERMAN BATTLESHIP BLOWN UP.

LONDON, July 4.
 The Russian General Staff, according to a dispatch from Reuter's correspondent at Petrograd, reports that a German battleship of the Deutschland type, which was leading the enemy's line in Friday's naval engagement in the Baltic Sea, was blown up by torpedoes discharged by a Russian submarine.

GERMAN MINE-LAYER ASHORE.

BERLIN, July 4.
 A statement issued by the German Admiralty last night, relative to Friday's engagement in the Baltic Sea, confirms the report that the German mine-layer Albatross was forced to run aground on the coast island of Gotland, and states that twenty of her crew were killed in the fight and twenty-seven wounded. The Albatross was run ashore in a sinking condition after two hours' heavy fighting with four Russian cruisers.

BELGIAN STEAMER TORPEDOED.

LONDON, July 4.
 The Belgian steamer Boduognat was torpedoed and sunk to-day by a German submarine. The crew landed at Falmouth. She was 1,441 tons gross.

S.S. CRAIGARD MISSING; SUPPOSED SUNK.

LONDON, July 4.
 An empty lifeboat, and another boat marked Craigard, Leith, were towed into Penzance, England, to-day. It is supposed that the steamship Craigard, 3,286 tons gross, which sailed from Galveston on June 3rd, and from Newport News on June 11th for Havre, may have been a victim of a German submarine, though there is no proof of this. Nothing has been heard regarding her.

IMPROVING LONDON DOCKS.

LONDON, July 4.
 After nearly a year of almost unbelievable crowding of pressure on the port, London has now cleared the sea traffic. During the past week, for the first time since the war began, not a single vessel has been detained in the Lower Thames waiting for a berth, to be cleared. At the docks immense new facilities have been pushed to completion during the past two months.

MORGAN SHOT BY AN UNKNOWN MAN.

NEW YORK, July 3.
 J. P. Morgan was shot by an unknown man, presumably a crank, at his home at Glen Cove, at 9 o'clock this morning. His physicians advise that the wound is not serious. It was reported in Glen Cove that the man who shot Morgan scouted himself in the Morgan home last night. Rumor of the shooting reached Wall Street soon after the opening of the Stock Market, and was current on the floor of the New York Exchange before it reached the office of J. P. Morgan & Co. The Market, which opened irregularly, shaded a point on the rumor and remained practically stationary after the news was confirmed. Later a statement issued by the Morgan firm said that two shots were fired at Morgan, and that both had taken effect.

SOUTH AFRICAN VOLUNTEERS.

LONDON, July 4.
 A Reuter dispatch from Johannesburg, South Africa, says: General Jan Christian Smuts, Minister of Interior, Mines and Defence, in the Union of South Africa, announced that the South African Government has offered to organize a contingent of volunteers for service in Europe, also a force of heavy artillery. He is momentarily expecting a reply from the Imperial Government.

RUSSIAN MINISTRY REORGANIZED.

LONDON, July 4.
 A Petrograd correspondent states that the Goremynkin Ministry is to be reorganized in such a manner that all its members may be expected to work in harmony with the Duma. This reorganization has been carried another important step forward by the retirement of J. G. Stuzhegorloff, Minister of Justice, and Alexander Samarin, Leader of the Moscow Conservatives. It is understood, the correspondent adds, that Pierre L. Bark, Minister of Finance, will be retained, but that other changes will be made soon. There is some doubt as to whether the Premiership will devolve on M. Krivoshein, Minister of Agriculture, or on Prince Vassilichkov, but in any case Krivoshein will remain in the new Cabinet, thereby insuring great strength to the Ministry.

VIENNA REPORTS PROGRESS.

VIENNA, via London, July 4.
 On July 4th the Austrian official war statement says: In East Galicia the Teutonic allied troops are advancing and pursuing the enemy, east of Halez, across the Nara-Kowaska to the north, attacking successfully the heights of east Janiezyn on the Bug

Rivers. The Teutonic allied troops are steadily advancing under violent combats. Friday, on Por, near Krasnik, 4,800 prisoners were captured. West of the Vistula there were artillery duels.

RUSSIAN ACTIVITY IN BLACK SEA.

PETROGRAD, July 4.
 The activity of a Russian submarine in the Black Sea is recounted in an official statement issued by the Admiralty to-day. It sank two Turkish steamers and one sailing ship with cargoes of coal and provisions, then exchanged shots with three armoured schooners off the mouth of the Bosphorus, driving them ashore. In the Baltic we gave battle to five German cruisers and a flotilla of torpedo boats, off the east coast of Gotland, on July 2; one German cruiser was beached, and the other warships were put to flight, according to an official statement issued by the Russian Admiralty. Damage to the Russian cruisers, the statement adds, was insignificant.

Pilot Returns.

Mr. James Brown, who piloted the pit prop steamer Norburn, North, has returned. After leaving here the ship went as far as Cape Freels and then was forced to retreat by ice and put into Catalina. After a brief delay the ship left for Lewisport and is there now loading pit props for England. Pilot Brown, who came back to the city by train, has been congratulated by the skillful management in taking the ship North.

OPEN AGENCIES IN SWITZERLAND.

Paris, June 28.—A Havas despatch from Rome announces that the "Corriere della Sera" asserts that Italian merchants from various German exporters, announcing that they have established agencies in Switzerland, and intend to continue their business relations with dealers in their countries, is stated in Rome that the Swiss authorities have decided not to countenance such a move.

Ever Ready Hot Water, Night and Day.

FOR THE NURSERY.

"The bath ready for baby, when baby is ready for the bath" should be an adage of every housewife—who should also keep in mind that any trouble saved to the nurse makes for a well-ordered, contented household. Gas Water-Heaters, whether of the Instantaneous or Circular type, offer the convenience of available hot water "upstairs, downstairs, and in my lady's chamber"—without any labour at all—independently of the state of the kitchen fire.
 The cost is reasonable.

FOR THE BATHROOM.

An uncertain supply of hot water in the bathroom is a frequent cause of annoyance.
 Hot water can only be secured, usually, by getting the cook to act as stoker, but at what a cost!
 Think of the coal that is wasted—the fatigue of coal carrying—the after labour of grate cleaning—and the discomfort of a hot kitchen in warm weather!
 A Gas Water-Heater is economical, because it only heats the water actually required; and labour-saving, because there are no coals to carry, no flues to clean, no ashes or dirt to remove.
 The master of the house has hot shaving water and a hot bath whenever he wishes without delay or trouble.

HOT WATER FOR THE HOUSEHOLD.

When "Spring cleaning days" encroach the busy housewife then the convenience of an unlimited supply of hot water on the upper floors is brought home to her with special force.
 But at all times—apart from conventional "spring cleaning"—an irresistible appeal to the housewife from the point of view of dealing with the domestic problem.
 The gas water-heater is difficult to keep unless due consideration is shown by saving them unnecessary drudgery—and in the category of unnecessary drudgery may be included the toll of carrying hot water or coal upstairs, the cleaning of grates and the removal of dirt and ashes.
 The gas water-heater renders such labour superfluous—may 12.11.
