CHICAGO. Chicago, Ill., Feb. 11.—There was a net loss of 3c in the price of wheat as a result of today's trade. An effort was made early in today's trade. An effort was made early in the session to support prices, but many holders displayed weariness and discouragement, selling freely and thereby depressing the market. The cables, both English and continental, were lower. India was reported about to reship to Livetpool the wheat received from California, and the Cincinnati Price Current was bearish in that it reported winter wheat well protected by snow and few damage re-ports received. New York reported that the prospects were for light export clearances in the near future. The most important bear feature was the indifference of cash wheat buyers, neither millers nor exporters being in the market. May wheat opened from 76%c to 76%c, declined to 75%c, closing at 75%c-%c under yesterday. Cash wheat was weak, and %c to

BOARD OF WORKS.

Inspection of Brick in the New Sewer Tree Trimming-A Vacant Position.

At the regular meeting of the Board of Works last night Ald. Nutkins drew attention to the fact that it had cost \$98 to inspect the laying of 88,850 bricks on the new sewer, but the engineer defended the inspector as having been troubled and harrassed by bad weather, cave-ins, etc. He had to be on hand, no matter how few bricks were laid.

Chairman Parnell reported that a large number of teamsters had accepted the offer to draw the stone from Springbank to the city but the work was delayed somewhat by the difficulty in getting the dirt away from the stone. Some men had to be employed for that purpose. The committee indorsed this action of the

The trees are not being trimmed fast enough, and the committee empowered the chairman and engineer to put men at work, when necessary. Ald. 'Meara vigorously opposed the work being done at this time of the year, as it was not the proper season. A motion by Ald. Nutkins to reconside Joshua Hartley's account for extra work was ruled out of order.

The resignation of Wm. Brown, who as been looking after the heating of he City Hall for a good many years, was received and accepted. Mr. Brown gave up work last month owing to ill-health, and Fred Heaver is temporarily filling the position. The secretary read the application of Wm. Two New Liberal Members Make Maiden Speeches.

Messrs. Pattullo and Auld Congratulated on All Sides.

The Question of the Next General Elec tion-New Measures Introduced.

Toronto, Feb. 12.—Prior to the debate on the address yesterday afternoon, Mr. Whitney asked for the usual explanations regarding the elevation of Sir Oliver Mowat to be Minister of Justice, and the succession of Hon. A. S. Hardy to the Premiership of Ontario. Premier Hardy not only explained this point, but made a feeling reference to the death of Hon. Mr. Balfour, and then spoke of Hon. Mr. Davis accession to the Cabinet. In reply to a further criticism by Mr. Whitney, as to the length of the present Legislature, Mr. Hardy said there was no for Confederation, and if that were lost to course, it could not be expected that Toronto, Feb. 12.-Prior to the deture, Mr. Hardy said there was no in the course of nature and its natural existence, honorable gentlemen have a right to expect. He could not say that something might not arise within the year and a half which still remained of its natural existence. It was impossible for him to say anything further as to any necessity which may arise for dissolution. Mr. Andrew Pattullo (North Oxford) A tender received for the work moved the address in reply to the speech from the throne, in an able address. He alluded at length to the death, but by his entrance into a wider field. He referred to his long

A great future for our undeveloped re Mr. John Auld (South Essex), in sec onding the reply, said he thought the Premier had made no mistake in choosing Mr. Pattulio to move the address in reply. Mr. Auld made a touching reference to his entrance to copy of the new regulations of the the House through the death of Hon. Ontario Government concerning the Mr. Balfour, referred to the Queen's teaching of domestic science in the jubilee and to Sir Oliver's joining the new Ottawa Government. Then Permission is given to the Board of dwelt upon the cheese and dairy in-Canada to Great Britain amounted to \$14,000,000 worth, or 53 per cent of the consumption of cheese of that country. Of this Ontario sent at least inst. two-thirds. And at the same time, while the mother country only im-ported 3 per cent of her butter from

Canada, yet she imported \$1,000,000 am Clark, more in 1896 than in 1895. These facts, he thought, were a sufficient Sutherland vindication for the existence of agriusist of the making and care of cultural and dairy schools. The fruit export trade was also progressing fafavorably. Mr. Auld indorsed the new County Councils Act, and said it was working smoothly and satisfactorily. Mr. Auld was also satisfied to know that the financial position of the pro-vince was as good as ever. It was

a clever address. Mr. Whitney was received with applause from the Opposition benches. He congratulated the mover and seconder on the excellence of their addresses, but he declared against the new County Councils Act. The people, he said, are opposed to the measure. Mr. Whitney indorsed the idea that mining should be encouraged. He further said the Provincial University must be sustained, and public school education must have more attention, as Mr. Pattullo, in one of his pre-el-
