London, Ont., Nov. 3, 1899. Mr. J. W. Doyle—Dear Sir—A number of years I have been using an artificial leg. At the knee it binds and produces corns, which nothing would remove till I tried your liniment. I think very highly of your liniment, and would recommend it to anyone troubled with corns, bunions, etc. I also found it a preventative of corns at the knee.

"MULDOON'S PICNIC."

This rollicking farce amused a large audience at the London Opera House last night. The comedy sketch, "A Country Terror," introduced by George H. Adams, the famous clown, elicited uproarious applause, and the antics of Will J. Cole and Lewis Farrell, as Muldoon and Mulcahey, proved quite diverting. Graceful dancing by Miss Lily Adams and some yodling solos by Eddie Giguere were among the features of the performance. The company will close their engagement here this evening.

METEOROLOGICAL

Toronto, March 26-8 p.m.—During today a very shallow low area has passed northward across Ontario, causing local snow buries. From present indications it will be absorbed by a somewhat more important low near the Atlantic coast, and a high area now forming in the lake region. It is interesting to note that Toronto, Quebec and Calgary are the only stations in the Dominion reporting a maximum temperature today as low as 32°. Minimum and maximum temperatures: Victoria, 42-44; Kamloops, 40-50; Edmonton, 22-36; Qu'Appelle, 20-34; Winnipeg, 24-36; Port Arthur, 18-44; Parry Sound, 6-40; Toronto, 22-32; Ottawa, 6-34; Montreal, 16-34; Quebec, 19-32; Halifax, 20-40. Local temperatures: The highest and lowest readings of the thermometer at the observatory on Monday, March 26, were: Highest, 33°; lowest, 24°. Today the sun rises at 6:08 a.m., sets 6:38 p.m. Moon rises at 3:53 a.m., sets at 3:02 a.m.

Parents should watch closely for evidence of defects in their children's eyesight. Taken in time, most difficulties submit to proper treatment. Neglected, they cause permanent injury. Taking care of children's eyes is an important branch of business. There is no charge for consultation.

INTERESTING TRAVEL TALK.

Rev. Dr. Mungo Fraser, of Knox Church, Hamilton, who preached two splendid sermons in St. Andrew's Church, Sunday, lectured in the school room last night, his subject matter being an account of a journey in Egypt, taken some years ago. No brighter account of travel has been given here in many years, and to those who heard him describe his experiences while crossing the Atlantic, sailing through the blue Mediterranean to the far eastern lands, and his observations while in Egypt, it was most delightful. Dr. Fraser showed for his power of engaging description he has added an inimitable manner of expression and phrasing. His lecture was entertaining even as it was instructive. The Bible class quartet and Miss Constance Fraser sang during the evening. The lecture was under the auspices of the Young People's Society of Christian Endeavor.
