LIVE HOGS GO UP TO \$9 CWT

Heavy Demand in Montreal Is Cause of the Jump in

HAY PRICES WEAKENING

Local Horseman Says There Is a Good Demand for Horses Now.

Owing to the heavy demand at the Montreal markets and the apparent scarcity in this section, live hogs jumped to \$7 per cwt. on the local market this morning. The present standing of the English markets does not warrant the high prices, however, and a drop is expected within a few days. Although there has been no definite information received by local buyers, it is thought that \$6 75 will be next week's price.

Hay Weakening. About forty loads of hay were on the stand, and quotations showed a endency to weakening. First-class hay sold at 11 o'clock at \$10, and while more inferior stuff brought \$8 75 The demand was somewhat

slower than was expected. A number of loads of oats and one load of wheat were brought in, both being snapped up by the buyers. Wheat brought \$1 05 per bushel, and oats \$1 38 to \$1.45 per cwt. Horses Wanted
