The ultimatum of July 23, 1914, which Francis Joseph sent to King Peter of Serbia, denouncing the anti-Austrian propaganda in that country and demanding prompt punishment of the assassins of Archduke Ferdinand, was supposedly dictated by Francis Joseph himself, and it was this document that directly Europe. Five days later, after Serbia had complied with all the demands with the exception of agreeenter Serbia to stamp out the alleged anti-Austrian conspiracies, Francis Joseph declared war. Aside from the great war, Francis Joseph's reign was one of the most eventful in history. From his imperial vantage point he saw the French monarchy go down, the Secand Empire rise and crumble, the Commune flare briefly, and the Republic of today rise on its ashes; he saw the black pinions of the Prussian eagle stamped on the flag of the new German Empire—later to tower threateningly over Austria itself; he saw the papacy shorn of its territorial demesne, while about a bickering family of petty principalities was welded into united Italy; he saw

In addition to her beauty, Elizabeth was highly endowed with talents, but she found no welcome at court. The emperor's mother would hardly countenance the match, and all of the Viennese aristocracy held aloof from her. Elizabeth returned scorn for scorn. Her enemies bore her every tale that could wound her pride and estrange her love. At last they succeeded. In a burst of pique came back, but the Viennese never forgave her.
