An inquest into the accident has been called for tonight at 6 o'clock by Coroner Dr. Cameron Wilson at Harrison's funeral home. How the accident happened, officials

Mr. Barron and a companion, R. Main, were working close to each other when they heard the timbered sides give a warning crack. Main sprang along the sewer, while Barron was along the sewer, while Barron was squeezed in a death grip by a heavy timber from each side which crushed his chest as if it had been paper.

With a muffled roar the released earth piled down on top of the unfor-
