I looked out of the hole and saw the water coming, then I sprang out of the door if the tent. It was like jumping into water, for in an instant the water was up to my shoulders. Fortunately I was able to catch hold of a big stump that stood near the tent door, and I held on for all I was worth. I saw Marks catch hold of something and hold on. The tents and everything in them were swept out of eight in a second. This happened at 10 minutes to 7. I looked at my water provided a

swept out of sight in a second. This happened at 10 minutes to 7. I looked at my watch just as I got up.

"The water kept rising and I was afraid that I watch just as I got up.

"I did not see anyone carried down in the tent. I saw the tent on which Berliner and some others thought they saw that I would be drowned as I hung to the stump, so I set to work and with difficulty climbed to the top of the stump. In doing so I tore one of my trousers' legsand the water made quick work of what was left, for when I gotout I had nothing on one of my legs.

"The people in the tents further up the mountain side rushed' out to see what the matter was, and when they saw the position Marks and I were in they shouted to us to hold on and they say the position Marks and I were in they shouted the mountain side are poor like a dynamite exploing. I suppose it was not five minutes. Meanwhile I was straddling the stump more dead than alive. When I caught the rope to me, although, as the whole thing only lasted twenty minutes. Meanwhile I was straddling the stump more dead than alive. When I caught the rope to me, although, as the whole thing only lasted twenty minutes. Meanwhile I was straddling the stump and they dragged me in horrible shape, but they did the best they could with me, and after I got into some dry clothes which they man aged to find for me, I did not feel very much the worse in body for my experience. But I had lost from \$1,200 to \$1,400 worth of goods and \$400 in money, which was everything I had in the woord. I came out of the thing in pretworld. I came out of the thing in pret-ty bad shape. Every bit of clothing I had in the world was carried away or

else so destroyed as to be of no use.
"I can't tell you what the avalanche looked like. There was a great flood of water, carrying tents, trees, stumps, logs, ice, rocks and merchandise. It was an awful sight. I thought I saw a man douse of Commons, have sent a memand woman go down on one of the tents, orial to Mr. Arthur J. Do You Use It?

m It's the best thing for the hair under all circumstances. Just as no man by taking thought can and an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's lair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots ere nourished. But the roots must be there. If you wish your hair to retain its normal crior, or if you wish to restore the lost

The memorial asserts that the great majority of the ten-ants in Ireland will be ruined if they are compelled to pay full rents during the coming winter, and that this will lead to agitation and disturbance.

CANADIAN DEFENCE. The Scheme to Be Actively Proceeded with Next Year

BIRMINGHAM, Eng., Sept. 24. - The Birmingham Post, the organ of Mr. Chamberlain, says that the government of Canada will, early in 1898, make large purchases of heavy field batteries and a number of defence guns, the latter being part of a new scheme for the defence o Montreal and the river below the city. Special instructions to this effect, the ost adds, were issued immediately after he return to Canada of Sir Wilfrid Lau-

OTTAWA, Sept. 24.—In regard to the statement made in the Associated Press ispatches to-day from the Birmingham Post that the government has a new scheme of defence, it may be said that of the original vote of \$3,000,000 made by the late government a portion has not yet been expended. The armament which has been ordered under that vote has not yet been supplied. There were, for instance, some guns ordered and they are not yet to hand. Some of these guns were intended for Montreal. There is not any new expenditure. There will b no additional vote, but simply a fulfilment of the old order.

If he camps in the mountains he cannot hope to get down the river before the last of April, or nine months after he started. He will then to go down the to go do months after he started. He will then have only a month's provisions left, and to go down the Yukon next April with only a month's supplies is like running right into the jaws of starvation. Nor will his condition be any better if he manages to reach the lakes. In fact, as I look at the matter, it is hopeless for manages to reach the lakes.
