

SKIRMISHING IN SOUDAN.

DAILY AFFAIRS BETWEEN OUTPOSTS BEFORE GAZAL.

An Attack Expected—Assault on a Convoy of Wounded—Elopement of the Army—Further Details About Gordon.

Khartoum, Feb. 17.—The cavas who have given the most intelligent and apparently the most reliable account of the fall of Khartoum is named Abdul Kerim. He was one of General Gordon's servants and escaped from Khartoum by means of bribery. Abdul Kerim says that, upon whom General Gordon relied implicitly, was the person who delivered Khartoum to the Mahdi's troops. When they entered the city, Faraz prevented the garrison from firing upon them. The story that Faraz had once been a slave of the Mahdi, and that he subsequently entered the latter's service, is corroborated by the cavas. When General Gordon made Faraz military commander, he used to receive letters from the Mahdi. When General Gordon would ask him about the correspondence Faraz would say the letters were unimportant, and Gen. Gordon apparently believed him. Gordon's clerk and chief clerk of arms were killed. The Mahdi did not enter Khartoum until the third day after the capitulation. He inspected the city and returned to Omdurman, where he remains. After Gen. Gordon fell the Arabs killed his clerk and nine others with spears. Others who were at the time with Gordon escaped. The cavas declares that excepting the attack in which three Europeans and most of the notables were killed. The Nile inhabitants joined the insurgents. No women or children were killed, and all who were unimportant and surrendered their valuables were permitted to depart unharmed. It is reported that the Mahdi ordered Faraz to be hanged and that the British soldiers plundered Khartoum, killing all the Greeks in the arsenal and liberating all the prisoners except the Greek consul Nicolaus, a doctor, Abdul said the Mahdi has forty thousand good fighting men who, however, he thinks have been somewhat scared at the result of the battles of Abu Kira, Cabat and Kabbabiah. A sheik also reports much sickness and dissatisfaction among the people. The sheik says he has seen the people and that they are weary of the war and desirous of English protection. The sheik says he has seen the people and that they are weary of the war and desirous of English protection. The sheik says he has seen the people and that they are weary of the war and desirous of English protection.

RIOTING AT A REVIVAL.

A WHOLE CONGREGATION BECOMES CRAZY.

Three People Reported to Have Been Killed—The Pious Fights out of Window—Several Persons Badly Beaten.

Bay View, O., Feb. 17.—A religious revival, which has been in progress for several days at a place called Wells Bottom, near this town culminated in a riot, during which three people are reported to have been killed and several severely injured. Friday the pastor wrought into the congregation a pitch of intense excitement by proclaiming that a noted infidel named Dongel had been killed and had been converted. Mrs. Mills, an excitable woman, leaped on a bench and uttered a loud shriek. Great excitement followed. The organ struck up a tune and Pastor Dongel yelled to the people to shout as loud as they could. The pastor then said that the Lord would hear the prayers of the church and that the command was literally obeyed, and the people became crazed by the excitement. The pastor then said that the Lord would hear the prayers of the church and that the command was literally obeyed, and the people became crazed by the excitement. A HUNDRED THOUSAND A YEAR.

Chicago Stockholder Who Monopolized the Dividends.

Mr. Mitchell's Opinion on the Increased Duty on Flour.

Chicago, Feb. 17.—The directors of the Aurora watch company allege that Maurice W. P. Mitchell, secretary of the company and chief stockholder, has spent \$200,000 of the company's funds in little more than two years. In one bill for machinery, etc., he alleged he paid \$24,000. The record was \$40,000. In other ways he has misappropriated the funds. Mitchell was asked the directors what they proposed to do about it, saying he would do any thing for the purpose of settling on the stockholder's money.

AN IMPUDENT PROPOSAL.

Mr. Mitchell's Opinion on the Increased Duty on Flour.

A Bunch of Libelous for Ontario—An Offer to Buy the Ontario and Southern Railway.

Ottawa, Feb. 17.—Routine business only was performed by the house to-day, although an evening session was held. Mr. McLean intimated in reply to a question that twelve libelous were being constructed for service on the waters of Ontario and would be ready next spring. Peter Mitchell declared in the house to-night that if the government undertook to "listen to the impudent proposition of the millers, and increase the duty on flour," it would make a fatal mistake. He would oppose it and he believed the country would support him. A number of the members of the opposition are responsible for the delay in these important works; but if Mr. Mowat persists in holding out on account of the opposition refusing to commit themselves (being anxious to charge the government with extravagance in erecting unnecessary buildings), then it is the plain duty of these libelous, men to stand by their constituents, and not by their party, in a matter of this kind. If these libelous, men stand by their party, they come out straight in favor of the expenditure the buildings will soon be under way. Let the workmen of West Toronto and East Toronto wait on Mr. Clarke and Mr. Morris and ask them plainly, "What are you going to do about it?"

THE NIAGARA RESERVATION.

A Full Report on the Project Presented to the New York State Legislature.

Albany, Feb. 17.—The report of the commissioners of the Niagara reservation was presented to-day. The report states that the commission had resolved to secure the following lands: Goat, Bath, Bird, Lona, Chapin and Three Sisters islands and the small island adjacent in the bed of the river between these islands and the New York main-land and the bed of the river between Goat Island and the Canadian boundary on the main land; strip of land from Port Day along the river brink to Prospect park, cliff and debris slope along the foot of the falls and the natural ridge on the mainland following the river bed, 100 or 200 feet from the shore, in the natural limit of the reservation. This defined reservation embraces all points from which the falls are visible, and which are now fenced in and an admission charged. The total of the appraisers' awards was \$1,433,429. This appraisal the supreme court has confirmed. The appraisers examined carefully the claims of riparian owners to the rights in the hydraulic power and bed of the river for the purpose of which compensation was asked. They were prepared to put in claims for twenty or thirty millions for these rights. The appraisers ruled out such claims except where the water power has long been used as to be prescriptive right. As Niagara is a public stream, and its bed and waters belong to the state, manufacturers have no right to encroach upon them. The aggregate of the claims presented reached four millions, the awards being only one-third of that amount. The legislature alone can appropriate the money to secure this most valuable acquisition. As an educational project Niagara falls of great value for geological and botanical phenomena can be studied there. A supplementary report by Prof. William Brewster on the geological and botanical value of the lands is appended. The report dwells briefly upon the beauty of the falls and how it is marred by unsightly buildings and upon the material, moral and aesthetic advantages of the proposed reservation.

GERMANY IN CAMEROONS.

The British Consul Given the Saub.

London, Feb. 17.—Advises from Cameroons, Africa, state British Consul Hewitt has convened a court of equity to compute the damages suffered by English settlers from the bombardment of the German fleet. When the German admiral heard of the matter he forbade the court to sit and has no right to encroach upon them. The admiral subsequently moved, up his fleet and opened a vigorous fire upon Fostown, keeping the shells on the town and the destruction and carnage caused was very great. The destruction of the German fleet was a political move. Hewitt received a very curt and discourteous reply from the German admiral. The admiral's action was a political move. Hewitt received a very curt and discourteous reply from the German admiral. The admiral's action was a political move.

ON THE ROAD TO OTTAWA.

DEPARTURE OF BIG ANTI-SOCCER ACT DEPUTATIONS.

Hon. Wm. Kyle's Party to Take the Capital by Storm—The Brewers Arrested With an Impudent and Important Proposal.

Hon. Wm. Kyle and his party started for Ottawa yesterday morning to make Sir John repeat the Scott act or know the reason why. They filled eight coaches, and all were armed with pocket pistols. The majority hailed from the rural districts. City hotelmen do not seem to place much faith in Brother Kyle's way of doing things. Only two or three Torontoans were in the deputation, which was strengthened at each successive station. It is difficult to say where the deputation is now, the eastern division of the Grand Trunk being blocked up with snow. But it is understood that it will reach the capital before the session is over, or perish in the attempt. A large number of the brethren took the early train on the Canadian Pacific for the same point. They will also be subject to delay on account of the big fall of the snow. A delegation representing the Ontario brewers' association started by the C. P. R. last night, among them being Eugene O'Keefe, Robert Davies, James Millett, John Cochrane, J. M. Lottridge (Hamilton), and others. They are armed with memory and signed by the managers of banks, insurance companies, loan companies and other monetary institutions. This document is understood to deal at length with the stake which the brewers have in the business of the country, as represented by their transactions with the concrete mentioned, and is calculated to have a powerful effect upon the government in dealing with the Scott act and future legislation affecting the liquor interest.

THE SITUATION AT GAZAL.

ABDUL KIR, near Gazal, Feb. 17.—Small outpost affairs occur daily. The enemy is receiving guns and reinforcements from Khartoum. The Mahdi has ordered all tribes in the vicinity to assemble immediately and attack the British.

ABYSSINIA ABERY.

MASOOWA, Feb. 17.—Ferrari, who on a special mission to Abyssinia, was met with serious trouble, as King King (Gams Masowah) is incensed at the absence of Italian troops, which he asserts is due to England's treachery and is a result of the Hewitt's mission.

WATERLEY'S BELIEF IN COLONISTS.

London, Feb. 17.—It is said the government deem it unwise to make further inroads on the home troops. Victoria, New South Wales, will send contingents of 700 men for Egypt. Confirmed against the part of the colonies for furnishing a large force of volunteers for Egyptian service is suggested. The governor general of Canada and Earl Derby are sending telegrams in regard to the enlistment of Canadian troops. Lord Wolsey has telegraphed the government of New South Wales that he looks forward with pride and pleasure to the day when he shall have colonial soldiers serving under him. He thinks that if England sends a regiment from New South Wales, it will only be fair to allow a (Canadian) regiment to enter the field also.

The governor general of Canada and Earl Derby are sending telegrams in regard to the enlistment of Canadian troops. Lord Wolsey has telegraphed the government of New South Wales that he looks forward with pride and pleasure to the day when he shall have colonial soldiers serving under him. He thinks that if England sends a regiment from New South Wales, it will only be fair to allow a (Canadian) regiment to enter the field also.

WATERLEY'S BELIEF IN COLONISTS.

London, Feb. 17.—It is said the government deem it unwise to make further inroads on the home troops. Victoria, New South Wales, will send contingents of 700 men for Egypt. Confirmed against the part of the colonies for furnishing a large force of volunteers for Egyptian service is suggested.
