THE C. P. R. SHAREHOLDERS CON-

see something special at P. H. Dufresne, Argonic consider are the proper boundaries. An amendment to the amendment came from Mr. Wilson that the westerly boundary be a line running parallel with K-ele-street at the rearring power.

The President spoke with great confidence of the general position of the company and stated, that while owing to the late movement of the crops of the Northwest, to the delay in completing and opening the American lines west of Sault Ste. Marie and to other similar causes the results of the year's working would fall short of earlier expections, the surplus above fixed charges would be at least as large as that of last year, and that the excellent condition of the railway, the extensive improvements made this year and the large additions to its militar condition of the railway, the extensive improvements made this year and the
