### FACTS CONCERNING THE POPULAR **BELL PIANO**

Ontario Agricultural College,  
 Guelph, June 4, 1889.  
 Messrs. W. Bell & Co., Guelph, Ont.:  
 Dear Sirs:—Pianoforte Style B, purchased from you last September, has, I am very pleased to be able to say, given us every satisfaction. The tone is particularly good, so much so that the instrument is a favorite with all who have tried it, and I can assure you it has been tested by a number of very excellent judges. The style of the instrument and finish of the workmanship would do credit to any country. It should be a matter of congratulation to Canadians to know that our country produces an instrument that, I am satisfied, will compare very favorably with those produced in any part of the world.

Yours truly,  
**THOMAS SHAW,**  
 Professor of Agriculture.

### DODGE PATENT WOOD SPLIT PULLEYS

Best Belt Surface, Lightest, Strongest, Best Balanced and Most Economical Pulley in the World.

#### WITH OUR PATENT BUSHING SYSTEM

Every Pulley will fit 25 different sizes of Shafting, and guaranteed to give from 30 to 60 per cent. more power from same belt and like tension than any Iron or Steel Pulley. Every Pulley a Split Pulley, 10 per cent. lighter than cast iron, 50 per cent. lighter than wrought iron or steel. Strong enough for any power required. Made in any size from 9 in. to 16 ft. in diameter.

The following is one of numerous letters received after having used our pulleys:  
 HAMILTON, May 10, 1889.  
 The Dodge Wood Split Pulley Co., Toronto:  
 Dear Sirs—In reply to yours of the 31st inst. would say that we have now in use a considerable number of your Split Pulleys. And perhaps the best feature of our opinion of them lies in the fact that since we got the first three on trial we have purchased no iron pulleys. We find we can run with much slacker belts, which is an advantage, and the saving of time when it is necessary to change a pulley is a considerable item in their favor. For our work generally they have proved very satisfactory.  
 Yours truly,  
 HAMILTON COTTON CO.

We also manufacture Special Pulleys for the TRANSMISSION OF POWER BY ROPE, Under the Dodge Patent System, and are prepared to give estimates for Transmissions of any capacity, from 5 to 500 h. p., at any angle or distance. The economy and many desirable advantages of this Rope Drive System are practically illustrated by actual use in

#### OUR NEW FACTORY

AT WEST TORONTO JUNCTION. Which is now in full operation, and is the Largest and Best Equipped Works in British America for the manufacture of ALL KINDS OF BELT AND ROPE PULLEYS.
