HOLD UP MAN IS ARRESTED. Nabbed by Night the Operator at Glencoe After Chase.

St. Thomas, Sept. 15.—Chief of Police Armstrong received a message to the effect that a man who held up Operator "Jack" Millen, at Thamesville Friday morning, and robbed the depot of \$70 and a revolver, had been nabbed at Glencoe. He gave his name as Edwin Joseph Zeamin, and he had the tell-tale money and goods in his possession. He admitted committing the robbery. His home, he says, is in Atwood. The police believe he has a "fat" police court record.

Zeamin nearly frightened Operator Millen again Friday night. After dark he showed up around the depot and made no effort to hide his presence. "Jack" put in an uncomfortable two hours, but kept the authorities at St. Thomas acquainted with what was transpiring. Zeaman finally boarded an eastbound freight, and preparations for

Operator Millen came to Glencoe, and positively identified the prisoner as the man who committed the hold-up on Fri

day morning.

Donald J. Ross, arrested here as a suspect, was today sentenced to thirty days in jail on a charge of trespass, he having admitted stealing a ride from Windsor.

According to Mr. Lamb's description, the horse is black, stands 12½ hands high, has a white star on its forehead and a white hind leg. The horse is a fine looking animal, but is almost blind. This will probably prove a disappointment to the thieves, who probably did not notice the horse's blindness in the dark.

Lusitania Makes New Ocean Record

New York, Sept. 12-The Lusitania Twenty minutes are usually allowed steamers to cover the distance from Sandy Hook lightship to the bar. This makes the Lusitania's time of arrival at the lightship 8.43 a. m. Her time from Daunt's Rock off Queenstown, to Sandy Hook lightship (2780 miles) is, therefore 5 days, I hour, 33 minutes. The Lucania's record is 5 days, 7 hours, 23 minutes for the same course.

If the Lusitania actually passed Sandy Hook lighting ship at 8.43 a.m. her average speed for the course from Daunt's Rock (2,700 miles) was 22.87 nautical miles per hour. This compares with the Deutschland's record speed for the Sherbourg course of 23-15 nautical miles per hour, and with the Lucania's record of 21.81 miles, for the Queenstown course
