

The Railway.—We learn that the Directors of the St. Andrews & Quebec Railroad Company, have received official notice of the Facility Bill, having been sanctioned by her Majesty in Council. The general improvement in commercial affairs in England will no doubt facilitate the subscriptions for stock there.

The work here is progressing; the major part of the labourers are now employed on the section between the Bar road and the farm of Joseph Walton Esq.

For some weeks past, the American papers have been recording cases of poisoning, resulting from the eating of clams. The poison is supposed to be contained in a small leech, which has been found in the clams.
