FLOUR—Though arrivals have been small, and rates in the West well sustained, there has been no speculation induced, and but a limited amount of business can be reported. A few round parcels of Super have changed hands in the vicinity of \$6.50, at which rate there are ready buyers of desirable brands, but most holders are firm at some advance, and the bulk of transactions have been in single hundreds of city retail at prices ranging from \$6.60 to \$6.75, as to quality, outside figures, however, being only obtainable in exceptional cases for strictly strong and favorite brands. The higher goods are in small supply, and sell in a retail way at full rates. The lower grades are inquired for to some extent, but rates demanded are very rejuctantly given, and sales are dragging. Bag-flour: Supplies, which, at date of our last, had become somewhat excessive, have been more within the wants of the trace, and much of what was previously stored has been worked off at somewhat improving prices, rates at the close being \$8.60 to \$3.70 for fair to choice.

OATMEAL—Continues quiet at \$4.60 to \$4.80, according the supplement of the property and the property and

OATMEAL—Continues quiet at \$4.60 to \$4.80, according to quality, none finding favor but the more desirable samples suitable for the British market.

Grain—In Wheat, we hear of no transactions, and quotations must be considered purely nominal. Pease, which had temporarily improved, are again dull and lower. Latest reported transactions are some 2000 bushels from store at 86c per 66 lbs. Oats are still being shipped freely, and prices well maintained. Barley is nominal in the absence of transactions, beyond the retail deliveries of farmers.

yond the retail deliveries of farmers.

PORK—Towards the end of last week, the Commissariat took several parcels of Pork, mostly Prime and Mess, which imparted considerable buoyancy to the market; but early in this week, they ceased buying, since when the demand has been very dull, buyers being unwilling to pay recent prices, and holders being firm for full rates Stocks are trifling, and without further arrivals, it seems likely present quotations will be about maintained.

LARD—Is quiet, and with rather more liberal arrivals; prices are the turn lower.

Tallow-Remains unchanged; demand and supply alike very limited

BUTTER—The improvement noted at the close of last week's report continued until the beginning of this week, when arrivals once more becoming heavy, and stocks accumulating, prices then current became increasingly difficult to be obtained, and buyers began to bold off, refusing to purchase except at a concession. Prices are consequently almost nominal, and transactions restricted to a few retail parcels.

of the future of Butter, it is as yet too early to say much. One thing alone seems certain. Our prices here will be regulated by the British demand, and advices from thence will be watched with interest. Prices in the States are fully as low or lower than our own, and in the present unsettled state of our relations, no one will feel disposed to risk much on the other side of the Line until matters look more settled.

ASHES—Pots have continued to decline under the influence of British advices, which report a heavy fall in the home markets, and an almost total cossation of the demand.

PEARLS—Are scarce, and all that arrives find ready sale at full rates.
